FINANCIAL INFORMATION**

ITEM 1. FINANCIAL STATEMENTS (unaudited)

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Visteon Corporation

We have reviewed the accompanying consolidated balance sheet of Visteon Corporation and its subsidiaries as of June 30, 2007 and the related consolidated statements of operations for each of the three-month and six-month periods ended June 30, 2007 and June 30, 2006 and the consolidated statements of cash flows for the six-month periods ended June 30, 2007 and June 30, 2006. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2006, and the related consolidated statements of operations, shareholders' (deficit) / equity and cash flows for the year then ended (not presented herein), and in our report dated February 28, 2007, except for Note 20, as to which the date is August 3, 2007, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet information as of December 31, 2006 is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1. Description of Business and Company Background

Visteon Corporation (the "Company" or "Visteon") is a leading global supplier of automotive systems, modules and components. The Company sells products primarily to global vehicle manufacturers and also sells to the worldwide aftermarket for replacement and enhancement parts. Headquartered in Van Buren Township, Michigan, with regional headquarters in Kerpen, Germany and Shanghai, China, the Company has a workforce of approximately 43,000 employees and a network of manufacturing operations, technical centers, sales offices and joint ventures in every major geographic region of the world.

The Company maintains significant commercial relationships with Ford Motor Company ("Ford") and its affiliates. Accordingly, transactions with Ford constitute a significant amount of the Company's product sales and service revenues, accounts receivable and certain postretirement benefit obligations as summarized below (including amounts from discontinued operations):

	Three-Months Ended June 30		Six-Months Ended June 30	
	2007	2006	2007	2006
	(Dollars in Millions)			
Net sales				
Products	\$ 1,122	\$ 1,371	\$ 2,304	\$ 2,710
Services	\$ 138	\$ 138	\$ 268	\$ 283
			June 30 2007	December 31 2006
			(Dollars in Millions)	
Accounts receivable, net			\$ 355	\$ 348
Postretirement employee benefits			\$ 124	\$ 127

Additionally, as of June 30, 2007 and December 31, 2006, the Company transferred approximately \$220 million and \$200 million, respectively, of Ford receivables under a European receivables securitization agreement.

NOTE 2. Basis of Presentation

The unaudited consolidated financial statements of the Company have been prepared in accordance with the rules and regulations of the U.S. Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States ("GAAP") have been condensed or omitted pursuant to such rules and regulations.

These interim consolidated financial statements include adjustments (consisting of normal recurring adjustments) that management believes are necessary for a fair presentation of the results of operations, financial position and cash flows of the Company for the interim periods presented. The Company's management believes that the disclosures are adequate to make the information presented not misleading when read in conjunction with the consolidated financial statements for the fiscal year ended December 31, 2006 and the notes thereto included in the Company's Current Report on Form 8-K, as filed with the SEC on August 3, 2007. Interim results are not necessarily indicative of full year results.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 2. Basis of Presentation — (Continued)

Principles of Consolidation: The consolidated financial statements include the accounts of the Company and all subsidiaries that are more than 50% owned and over which the Company exercises control. Investments in affiliates of 50% or less but greater than 20% are accounted for using the equity method. The consolidated financial statements also include the accounts of certain entities in which the Company holds a controlling interest based on exposure to economic risks and potential rewards (variable interests) for which it is the primary beneficiary.

Revenue Recognition: The Company records revenue when persuasive evidence of an arrangement exists, delivery occurs or services are rendered, the sales price or fee is fixed or determinable and collectibility is reasonably assured. The Company ships product and records revenue pursuant to commercial agreements with its customers generally in the form of an approved purchase order, including the effects of contractual customer price productivity. The Company does negotiate discrete price changes with its customers, which are generally the result of unique commercial issues between the Company and its customers and are generally the subject of specific negotiations between the Company and its customers. The Company records amounts associated with discrete price changes as a reduction to revenue when specific facts and circumstances indicate that a price reduction is probable and the amounts are reasonably estimable. The Company records amounts associated with discrete price changes as an increase to revenue upon execution of a legally enforceable contractual agreement and when collectibility is reasonably assured.

Revenue from services is recognized as services are rendered. Costs associated with providing such services are recorded as incurred.

Reclassifications: Certain prior period amounts have been reclassified to conform to current period presentation.

Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates, judgments and assumptions that affect amounts reported herein. Management believes that such estimates, judgments and assumptions are reasonable and appropriate. However, due to the inherent uncertainty involved, actual results may differ from those provided in the Company's consolidated financial statements.

Assets and Liabilities Held for Sale: In accordance with Statement of Financial Accounting Standards No. 144, ("SFAS 144") "Accounting for the Impairment or Disposal of Long-Lived Assets," the Company classifies assets and liabilities as held for sale when management approves and commits to a formal plan of sale and it is probable that the sale will be completed. The carrying value of the assets and liabilities held for sale are recorded at the lower of carrying value or fair value less cost to sell, and the recording of depreciation is ceased.

Recent Accounting Pronouncements: In February 2007, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 159 ("SFAS 159"), "The Fair Value Option for Financial Assets and Financial Liabilities — Including an Amendment of FASB Statement No. 115." SFAS 159 permits measurement of financial instruments and certain other items at fair value. SFAS 159 is designed to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS 159 is effective as of the beginning of the first fiscal year after November 15, 2007. The Company is currently evaluating the impact of this statement on its consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 "Fair Value Measurements." This statement, which becomes effective January 1, 2008, defines fair value, establishes a framework for measuring fair value and expands disclosure requirements regarding fair value measurements. The Company is currently evaluating the impact of this statement on its consolidated financial statements.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 2. Basis of Presentation — (Continued)

In March 2006, the FASB issued Statement of Financial Accounting Standards No. 156 ("SFAS 156"), "Accounting for Servicing of Financial Assets." This statement amends Statement of Financial Accounting Standards No. 140, ("SFAS 140"), "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities" with respect to the accounting for separately recognized servicing assets and servicing liabilities. The Company adopted SFAS 156 as of January 1, 2007 without a material impact on its consolidated financial statements.

In February 2006, the FASB issued Statement of Financial Accounting Standards No. 155 ("SFAS 155"), "Accounting for Certain Hybrid Financial Instruments" which amends Statement of Financial Accounting Standards No. 133 ("SFAS 133"), "Accounting for Derivatives Instruments and Hedging Activities" and SFAS 140. SFAS 155 amends SFAS 133 to narrow the scope exception for interest-only and principal only strips on debt instruments to include only such strips representing rights to receive a specified portion of the contractual interest or principal cash flows. The Company adopted SFAS 155 as of January 1, 2007 without a material impact on its consolidated financial statements.

In June 2006, the FASB issued FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109." FIN 48 clarifies the accounting for uncertainty in income taxes recognized in accordance with Statement of Financial Accounting Standards No. 109 ("SFAS 109") "Accounting for Income Taxes" and prescribes a recognition threshold and measurement process for recording in financial statements tax positions taken or expected to be taken in a tax return. The evaluation of a tax position under FIN 48 is a two-step process. The first step requires an entity to determine whether it is more likely than not that a tax position will be sustained upon examination based on the technical merits of the position. For those positions that meet the more likely than not recognition threshold, the second step requires measurement of the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. The Company adopted the provisions of FIN 48 effective January 1, 2007, without a material impact to the Company's consolidated financial statements.

NOTE 3. Discontinued Operations

In March 2007, the Company entered into a Master Asset and Share Purchase Agreement ("MASPA") to sell certain assets and liabilities associated with the Company's chassis operations (the "Chassis Divestiture"). The Company's chassis operations are primarily comprised of suspension, driveline and steering product lines and include facilities located in Dueren and Wuelfrath, Germany, Praszka, Poland and Sao Paulo, Brazil. Collectively, these operations recorded sales for the year ended December 31, 2006 of approximately \$600 million. The Chassis Divestiture, while representing a significant portion of the Company's chassis operations, did not result in the complete exit of any of the affected product lines.

Effective May 31, 2007, the Company ceased to produce brake components at its Swansea, Wales, U.K. facility, which resulted in the complete exit of the Company's global suspension product line. Accordingly, the results of operations of the Company's global suspension product line have been reclassified to "Loss from discontinued operations, net of tax" on the consolidated statements of operations for the three and six-month periods ended June 30, 2007 and 2006.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 3. Discontinued Operations — (Continued)

A summary of the results of operations for the global suspension systems product line for the three and six-month periods ended June 30, 2007 and 2006 is provided in the table below.

	Three-Months Ended June 30		Six-Months Ended June 30	
	2007	2006	2007	2006
	(Dollars in Millions)			
Net product sales	\$ 11	\$ 45	\$ 50	\$ 94
Cost of sales	18	46	63	100
Gross margin	(7)	(1)	(13)	(6)
Selling, general and administrative expenses	—	1	1	1
Asset impairments	2	—	12	—
Restructuring expenses	4	—	10	—
Reimbursement from Escrow Account	6	—	12	—
Loss from discontinued operations, net of tax	<u>\$ 7</u>	<u>\$ 2</u>	<u>\$ 24</u>	<u>\$ 7</u>

NOTE 4. Asset Impairments

Statement of Financial Accounting Standards No. 144 ("SFAS 144"), "Accounting for the Impairment or Disposal of Long-Lived Assets" requires that long-lived assets and intangible assets subject to amortization are reviewed for impairment when certain indicators of impairment are present. Impairment exists if estimated future undiscounted cash flows associated with long-lived assets are not sufficient to recover the carrying value of such assets. When impairment exists the long-lived assets are adjusted to their respective fair values.

2007 Asset Impairments

The Company recorded asset impairment charges of \$11 million and \$51 million during the three and six month periods ended June 30, 2007. These impairment charges were recorded to adjust the carrying value of associated long-lived assets to their estimated fair value in accordance with SFAS 144.

During the first quarter of 2007, the Company determined that assets subject to the Chassis Divestiture including inventory, intellectual property, and real and personal property met the "held for sale" criteria of SFAS 144. Accordingly, these assets were valued at the lower of carrying amount or fair value less cost to sell, which resulted in asset impairment charges of approximately \$8 million and \$25 million for the three and six month periods ended June 30, 2007, respectively. Approximately \$14 million of assets related to the Chassis Divestiture are classified as assets held for sale in the consolidated balance sheets as of June 30, 2007.

In consideration of the MASPA and the Company's announced exit of the brake manufacturing business at its chassis facility located in Swansea, Wales, U.K., an asset impairment charge of \$16 million was recorded to reduce the net book value of certain long-lived assets at the facility to their estimated fair value in the first quarter. The Company's estimate of fair value was based on market prices, prices of similar assets, and other available information.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 4. Asset Impairments — (Continued)

During the first quarter of 2007, the Company entered into an agreement to sell an Electronics building located in Hiroshima, Japan. The Company determined that this building met the "held for sale" criteria of SFAS 144 as of March 31, 2007 and was recorded at the lower of carrying value or fair value less cost to sell, which resulted in an asset impairment charge of approximately \$7 million. The Company expects the sale of the building to close during the second half of 2007. Approximately \$4 million related to the Electronics building located in Hiroshima, Japan is classified as assets held for sale in the consolidated balance sheets as of June 30, 2007.

In connection with restructuring activities undertaken at a North American Other facility, the Company recorded an asset impairment of \$3 million to reduce the net book value of certain long-lived assets to their estimated fair value during the three-months ended June 30, 2007.

2006 Asset Impairments

The Company recorded asset impairment charges of \$22 million during the three month period ended June 30, 2006. These impairment charges were recorded to adjust the carrying value of associated long-lived assets to their estimated fair value in accordance with SFAS 144.

Vitro Flex, S.A. de C.V. ("Vitro Flex"), a Mexican corporation, is a joint venture which was 38% owned by the Company and its subsidiaries. Vitro Flex manufactures and supplies tempered and laminated glass for use in automotive vehicles. In accordance with APB 18, the Company determined that an "other than temporary" decline in the fair market value of this investment occurred. Consequently, the Company reduced the carrying value of its investment in Vitro Flex by approximately \$12 million to its estimated fair market value at June 30, 2006.

In connection with restructuring activities undertaken at a European Interiors facility, the Company recorded an asset impairment of \$10 million to reduce the net book value of certain long-lived assets to their estimated fair value during the three-months ended June 30, 2006.

NOTE 5. Restructuring Activities

The Company has undertaken various restructuring activities to achieve its strategic objectives, including the reduction of operating costs. Restructuring activities include, but are not limited to, plant closures, relocation of production, administrative realignment and consolidation of available capacity and resources. Management expects to finance restructuring programs principally through cash reimbursement from an escrow account established pursuant to the October 1, 2005 transaction whereby Ford acquired all of the issued and outstanding shares of common stock of the parent of Automotive Components Holdings, LLC ("ACH"). To the extent that the Company's restructuring activities require cash in connection with or beyond that provided by the Escrow Agreement, the Company expects to use cash generated from its ongoing operations, or cash available under its existing debt agreements, subject to the terms of applicable covenants. The Company does not expect that the execution of these programs will have a significant adverse impact on its liquidity position.

Escrow Agreement

Pursuant to the Escrow Agreement, dated as of October 1, 2005, among the Company, Ford and Deutsche Bank Trust Company Americas, Ford paid \$400 million into an escrow account for use by the Company to restructure its businesses. The Escrow Agreement provides that the Company will be reimbursed from the escrow account for the first \$250 million of reimbursable restructuring costs, as defined in the Escrow Agreement, and up to one half of the next \$300 million of such costs. Cash in the escrow account is invested at the direction of the Company, in high quality, short-term investments and related investment earnings are credited to the account as earned. Investment earnings become available to reimburse the Company's restructuring costs following the use of the first \$250 million of available funds.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 5. Restructuring Activities — (Continued)

The following table provides a reconciliation of amounts available in the escrow account.

	Three-Months Ended June 30, 2007	Six-Months Ended June 30, 2007 (Dollars in Millions)	Inception through June 30, 2007
Beginning escrow account available	\$ 268	\$ 319	\$ 400
Add: Investment earnings	3	7	27
Deduct: Disbursements for restructuring costs	(52)	(107)	(208)
Ending escrow account available	<u>\$ 219</u>	<u>\$ 219</u>	<u>\$ 219</u>

As of June 30, 2007 and December 31, 2006, approximately \$42 million and \$55 million, respectively, of amounts receivable from the escrow account were included in the consolidated balance sheets.

Restructuring Reserves

The following is a summary of the Company's consolidated restructuring reserves and related activity as of and for the three and six-month periods ended June 30, 2007. Substantially all of the Company's restructuring expenses are related to employee severance and termination benefit costs. Restructuring expenses included in the table below include \$4 million and \$10 million related to discontinued operations for the three and six month periods ended June 30, 2007. Such expenses are included in "Loss from discontinued operations, net of tax" on the consolidated statements of operations.

	Interiors	Climate	Electronics (Dollars in Millions)	Other	Total
December 31, 2006	\$ 18	\$ 21	\$ 2	\$ 12	\$ 53
Expenses	—	—	6	25	31
Utilization	(5)	(3)	(1)	(13)	(22)
March 31, 2007	13	18	7	24	62
Expenses	15	13	1	12	41
Utilization	(8)	(3)	(1)	(19)	(31)
June 30, 2007	<u>\$ 20</u>	<u>\$ 28</u>	<u>\$ 7</u>	<u>\$ 17</u>	<u>\$ 72</u>

2007 Restructuring Actions

During the three-months ended June 30, 2007 the Company recorded restructuring expenses of approximately \$41 million under the previously announced multi-year improvement plan, including the following significant actions:

- The Company recorded \$10 million of employee severance and termination benefit costs for approximately 150 employees at a European Interiors facility related to the planned transfer of production to other facilities.
- Approximately \$8 million of employee severance and termination benefit costs were recorded for approximately 40 hourly and 20 salaried employees at various European facilities.
- The Company recorded \$7 million related to the previously announced closure of a North American Climate facility. Of this amount, \$6 million relates to employee severance and termination benefits and the remaining \$1 million is for lease termination costs.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 5. Restructuring Activities — (Continued)

- The Company continues to evaluate its general and administrative support infrastructure and continues to reduce such costs as related to restructuring actions taken under the multi-year improvement plan. As a result, \$6 million of employee severance and termination benefit costs were recorded related to approximately 55 salaried employees.
- The Company recorded \$4 million of employee severance and termination benefit charges related to the Company's previously announced exit of its brake manufacturing business at a European Other facility. The charges relate to approximately 85 hourly and 15 salaried employees. These expenses are classified as "Loss from discontinued operations, net of tax" on the consolidated statements of operations.
- The Company recorded an estimate of employee severance and termination benefit costs of approximately \$4 million for the probable payment of such post-employment benefits in connection with the multi-year improvement plan.

The Company has incurred \$185 million in cumulative restructuring costs related to the multi-year improvement plan including \$74 million, \$44 million, \$39 million and \$28 million for the Other, Climate, Interiors and Electronics product groups, respectively. Substantially all restructuring expenses recorded to date relate to employee severance and termination benefit costs and are classified as "Restructuring expenses" on the consolidated statements of operations. As of June 30, 2007, the restructuring reserve balance of \$72 million is entirely attributable to the multi-year improvement plan.

The Company currently estimates that the total cash cost associated with this multi-year improvement plan will be approximately \$430 million. The Company continues to achieve targeted cost reductions associated with the multi-year improvement plan at a lower cost than expected due to higher levels of employee attrition and lower per employee severance cost resulting from changes to certain employee benefit plans. The Company anticipates that approximately \$350 million of cash costs incurred under the multi-year improvement plan will be reimbursed from the escrow account pursuant to the terms of the Escrow Agreement. While the Company anticipates full utilization of funds available under the Escrow Agreement, any amounts remaining in the escrow account after December 31, 2012 will be disbursed to the Company pursuant to the terms of the Escrow Agreement. It is possible that actual cash restructuring costs could vary significantly from the Company's current estimates resulting in unexpected costs in future periods. Generally, charges are recorded as elements of the plan are finalized and the timing of activities and the amount of related costs are not likely to change.

NOTE 6. Extraordinary Item

On April 27, 2006 the Company's wholly-owned, consolidated subsidiary Carplastic, S.A. de C.V. acquired the real property, inventory, tooling and equipment of Guide Lighting Technologies of Mexico S. de R.L. de C.V., a lighting manufacturing facility located in Monterrey, Mexico.

In accordance with Statement of Financial Accounting Standards No. 141 "Business Combinations," the Company allocated the purchase price to the assets and liabilities acquired. The sum of the amounts assigned to the assets and liabilities acquired exceeded the cost of the acquired entity and that excess was allocated as a pro rata reduction of the amounts that otherwise would have been assigned to all of the acquired non-financial assets (i.e. property and equipment). An excess of \$8 million remained after reducing to zero the amounts that otherwise would have been assigned to the non-financial assets and was recorded as an extraordinary gain in the accompanying consolidated financial statements.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 7. Stock-Based Compensation

During the three-months ended June 30, 2007, the Company granted stock-based compensation as follows:

- Approximately 27,000 stock options, 47,000 stock appreciation rights ("SARs"), and 200,000 restricted stock units ("RSUs") under the 2004 Visteon Incentive Compensation Plan. As of June 30, 2007, there were approximately 7 million shares of common stock available for grant under this plan.
- Approximately 16,000 restricted stock awards ("RSAs") under the Visteon Corporation Employees Equity Incentive Plan. As of June 30, 2007, there were approximately 1 million shares of common stock available for grant under this plan.

Weighted average assumptions used to estimate the fair value of stock-based compensation awards during the three-months ended June 30, 2007 were as follows:

	Three-Months Ended June 30, 2007	
	SARS	Stock Options
Expected term (in years)	5.52	4-6
Risk-free interest rate	4.89%	4.68%-4.70%
Expected volatility	58%	59%
Expected dividend yield	0.0%	0.0%

Effective January 1, 2006 the Company adopted Statement of Financial Accounting Standards No. 123 (Revised 2004) ("SFAS 123(R)", "Share-Based Payments", using the modified-prospective method. The cumulative effect, net of tax, of adopting SFAS 123(R) was \$4 million or \$0.03 per share as of January 1, 2006.

NOTE 8. Asset Securitization

Effective August 14, 2006, the Company entered into a European accounts receivable securitization facility ("European Securitization") that extends until August 2011 and provides up to \$325 million in funding from the sale of certain customer trade account receivables originating from Company subsidiaries located in Germany, Portugal, Spain, France and the U.K. ("Sellers"). Under the European Securitization, receivables originated by the Sellers and certain of their subsidiaries are transferred to Visteon Financial Centre P.L.C. (the "Transferor"). The Transferor is a bankruptcy-remote qualifying special purpose entity. Receivables transferred from the Sellers are funded through cash obtained from the issuance of variable loan notes to third-party lenders and through subordinated loans obtained from a wholly-owned subsidiary of the Company, which represent the Company's retained interest in the receivables transferred.

Transfers under the European Securitization, for which the Company receives consideration other than a beneficial interest, are accounted for as "true sales" under the provisions of Statement of Financial Accounting Standards No. 140 ("SFAS 140"), "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities" and are removed from the balance sheet. Transfers under the European Securitization, for which the Company receives a beneficial interest are not removed from the balance sheet and total \$551 million and \$482 million as of June 30, 2007 and December 31, 2006, respectively. Such amounts are recorded at fair value and are subordinated to the interests of third-party lenders. Securities representing the Company's retained interests are accounted for as trading securities under Statement of Financial Accounting Standards No. 115 "Accounting for Certain Investments in Debt and Equity Securities."

Availability of funding under the European Securitization depends primarily upon the amount of trade account receivables, reduced by outstanding borrowings under the program and other characteristics of

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 8. Asset Securitization — (Continued)

those receivables that affect their eligibility (such as bankruptcy or the grade of the obligor, delinquency and excessive concentration). As of June 30, 2007, approximately \$325 million of the Company's transferred receivables were considered eligible for borrowing under this facility, \$92 million was outstanding and \$233 million was available for funding. The Company recorded losses of \$3 million and \$4 million for the three and six-month periods ended June 30, 2007 related to receivables sold under the European Securitization.

The table below provides a reconciliation of the change in interests in account receivables transferred for the period.

	Three-Months Ended June 30, 2007	Six-Months Ended June 30, 2007
	(Dollars in Millions)	
Beginning balance	\$ 574	\$ 482

NOTE 10. Other Assets

Other current assets are summarized as follows:

	June 30 2007	December 31 2006
	(Dollars in Millions)	
Recoverable taxes	\$ 123	\$ 95
Current deferred tax assets	49	47
Escrow receivable	42	55
Prepaid assets	27	22
Customer deposits	25	23
Other	18	19
	<u>\$ 284</u>	<u>\$ 261</u>

Other non-current assets are summarized as follows:

	June 30 2007	December 31 2006
	(Dollars in Millions)	
Non-current deferred tax assets	\$ 48	\$ 45
Unamortized debt costs and other intangible assets	36	35
Assets held for sale	27	—
Notes receivable	11	13
Other	21	22
	<u>\$ 143</u>	<u>\$ 115</u>

NOTE 11. Non-Consolidated Affiliates

The Company had \$215 million and \$224 million of equity in the net assets of non-consolidated affiliates at June 30, 2007 and December 31, 2006, respectively. The Company recorded equity in net income of non-consolidated affiliates of \$14 million and \$12 million for the three-month periods ended June 30, 2007 and 2006. For the six-month periods ended June 30, 2007 and 2006, the Company recorded \$23 million and \$19 million, respectively. The following table presents summarized financial data for the Company's non-consolidated affiliates. The amounts included in the table below represent 100% of the results of operations of the Company's non-consolidated affiliates accounted for under the equity method. Yanfeng Visteon Automotive Trim Systems Co., Ltd ("Yanfeng"), of which the Company owns a 50% interest, is considered a significant non-consolidated affiliate and is shown separately below.

Summarized financial data for the three-month period ended June 30 are as follows:

	Net Sales		Gross Margin		Net Income	
	2007	2006	2007	2006	2007	2006
	(Dollars in Millions)					
Yanfeng Visteon Automotive Trim Systems Co., Ltd.	\$ 248	\$ 168	\$ 46	\$ 29	\$ 21	\$ 14
All other	179	194	30	35	7	10
	<u>\$ 427</u>	<u>\$ 362</u>	<u>\$ 76</u>	<u>\$ 64</u>	<u>\$ 28</u>	<u>\$ 24</u>

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 11. Non-Consolidated Affiliates — (Continued)

Summarized financial data for the six-month period ended June 30 are as follows:

	Net Sales		Gross Margin		Net Income	
	2007	2006	2007	2006	2007	2006
			(Dollars in Millions)			
Yanfeng Visteon Automotive Trim Systems Co., Ltd.	\$ 438	\$ 324	\$ 77	\$ 56	\$ 34	\$ 25
All other	348	331	53	50	12	13
	<u>\$ 786</u>	<u>\$ 655</u>	<u>\$ 130</u>	<u>\$ 106</u>	<u>\$ 46</u>	<u>\$ 38</u>

The Company's share of net assets and net income is reported in the consolidated financial statements as "Equity in net assets of non-consolidated affiliates" on the consolidated balance sheets and "Equity in net income of non-consolidated affiliates" on the consolidated statements of operations. Included in the Company's accumulated deficit is undistributed income of non-consolidated affiliates accounted for under the equity method of approximately \$109 million and \$123 million at June 30, 2007 and December 31, 2006, respectively.

NOTE 12. Property and Equipment

Property and equipment is stated at cost. Depreciable property is depreciated over the estimated useful lives of the assets, principally using the straight-line method. A summary of property and equipment, net is provided below:

	June 30 2007	December 31 2006
	(Dollars in Millions)	
Land	\$ 109	\$ 112
Buildings and improvements	1,110	1,221
Machinery, equipment and other	3,788	4,065
Construction in progress	111	125
Total property and equipment	5,118	5,523
Accumulated depreciation	(2,477)	(2,653)
	<u>2,641</u>	<u>2,870</u>
Product tooling, net of amortization	149	164
Property and equipment, net	<u>\$ 2,790</u>	<u>\$ 3,034</u>

Depreciation and amortization expenses are summarized as follows:

	Three-Months Ended June 30		Six-Months Ended June 30	
	2007	2006	2007	2006
	(Dollars in Millions)			
Depreciation	\$ 104	\$ 93	\$ 212	\$ 181
Amortization	12	13	25	27
	<u>\$ 116</u>	<u>\$ 106</u>	<u>\$ 237</u>	<u>\$ 208</u>

The Company recorded approximately \$12 million and \$22 million of accelerated depreciation expense for the three and six months ended June 30, 2007, respectively, representing the shortening of estimated useful lives of certain assets (primarily machinery and equipment) in connection with the Company's restructuring activities.

Total debt	<u>\$ 2,705</u>	<u>\$ 2,228</u>

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 14. Debt — (Continued)

On April 10, 2007, the Company entered into an Agreement to amend and restate its Credit Agreement ("Amended Credit Agreement") to provide an additional \$500 million secured term loan. Consistent with the existing term loan, the additional term loan will bear interest at a Eurodollar rate plus 3% and will mature on December 13, 2013.

NOTE 15. Employee Retirement Benefits

Statement of Financial Accounting Standards No. 158 ("SFAS 158"), "Employers' Accounting for Defined Benefit Pension and Other Postretirement Benefits, an amendment of FASB Statements No. 87, 88, 106, and 132(R)" requires recognition of a net asset or liability representing the funded status of defined benefit pension and other postretirement benefit ("OPEB") plans. In addition, SFAS 158 requires companies to measure plan assets and benefit obligations as of the date of the employer's fiscal year-end balance sheet. The Company adopted the recognition and disclosure provisions of SFAS 158 as of December 31, 2006 and the measurement provisions of this standard as of January 1, 2007.

The Company re-measured plan assets and obligations as of January 1, 2007 consistent with the provisions of SFAS 158. As a result of the SFAS 158 re-measurement, the Company recorded a reduction to the pension liability of approximately \$100 million, a reduction of the OPEB liability of approximately \$90 million and an increase to accumulated other comprehensive income of approximately \$190 million. The Company also adjusted the January 1, 2007 retained earnings balance by approximately \$33 million, representing the net periodic benefit costs for the period between September 30, 2006 and January 1, 2007 that would have been recognized on a delayed basis during the first quarter of 2007 absent the change in measurement date. The net periodic benefit costs for 2007 are based on this January 1, 2007 measurement or subsequent re-measurements.

The components of the Company's net periodic benefit costs for the three-month periods ended June 30, 2007 and June 30, 2006 were as follows:

	Retirement Plans				Health Care and Life Insurance Benefits	
	U.S. Plans		Non-U.S. Plans		2007	2006

Curtailments and Settlements

Curtailment and settlement gains and losses are recorded in accordance with Statement of Financial Accounting Standards Nos. 88 ("SFAS 88"), "Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits", and 106 ("SFAS 106"), "Employers' Accounting for Postretirement Benefits Other Than Pensions" and are classified in the Company's consolidated statements of operations as "Cost of sales" or "Selling, general and administrative expenses".

Qualifying curtailment and settlement losses related to the Company's restructuring activities are reimbursable under the terms of the Escrow Agreement. The Company recorded curtailments and settlements as follows:

- The Company recorded curtailment gains of \$3 million and \$9 million for the three and six months ended June 30, 2007 related to elimination of employee benefits associated with a U.S. OPEB plan in connection with employee headcount reductions under previously announced restructuring actions.
- The Company recorded a settlement loss of \$13 million during the three-months ended June 30, 2007 related to employee retirement benefit obligations under certain German retirement plans for employees of the Dueren and Wuelfrath, Germany facilities, which were included in the Chassis Divestiture.
- The Company recorded curtailment gains during the second quarter of 2006 of \$37 million and \$11 million related to the reduction in expected years of future service in Visteon sponsored OPEB and retirement plans, respectively. The reduction in future service resulted from the transfer of Company employees to Ford in connection with their January 1, 2006 acquisition of two plants from ACH located in Rawsonville, MI and Sterling Heights, MI ("Rawsonville-Sterling Transaction").

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 15. Employee Retirement Benefits — (Continued)

- The Company recorded a settlement loss of \$17 million during the three-months ended March 31, 2007 related to employee retirement benefit obligations under a Canadian retirement plan for employees of the Markham, Ontario facility, which was closed in 2002.
- The Company recorded a curtailment loss of \$10 million for the three month period ended March 31, 2007 related to employee retirement benefit obligations under certain U.S. retirement plans in connection with previously announced restructuring actions.

As of June 30, 2007, the Company expects to record curtailment gains of approximately \$77 million for retiree health plans in future periods as employees are terminated in connection with the multi-year improvement plan.

Retirement Benefit Related Restructuring Expenses

In addition to retirement benefit expenses, the Company recorded \$9 million and \$11 million for the three and six months ended June 30, 2007, respectively, for retirement benefit related restructuring charges. Such charges generally relate to special termination benefits, voluntary termination incentives, and pension losses and are the result of various restructuring actions as described in Note 5 "Restructuring Activities". Retirement benefit related restructuring charges are recorded in accordance with SFAS 87, 88, 106, 112 and 158, are initially classified as restructuring expenses and related reserves are subsequently reclassified to retirement benefit liabilities.

Contributions

During the six-month period ended June 30, 2007, contributions to the Company's U.S. retirement plans and postretirement health care and life insurance plans were \$16 million and \$12 million, respectively, and contributions to non-U.S. retirement plans were \$47 million. The Company presently anticipates additional contributions to its U.S. retirement plans and postretirement health care and life insurance plans of \$36 million and \$17 million, respectively, in 2007. The Company also anticipates additional 2007 contributions to non-U.S. retirement plans of \$32 million.

Other

During the six-months ended June 30, 2007, the Company recorded a reduction of its pension liability of approximately \$100 million, a reduction of its OPEB liability of approximately \$30 million, and an increase in accumulated other comprehensive income of approximately \$130 million. These adjustments were due to a U.S. salaried plan amendment which reduced disability retirement benefits, the elimination of future benefits under German pension plans resulting from the sale of chassis operations located in Dueren and Wuelfrath, Germany and other pension and OPEB plans affected by actions under the multi-year improvement plan.

During the six-months ended June 30, 2006, the Company recorded a reduction in its postretirement benefit payable to Ford of approximately \$24 million. This reduction resulted from the transfer of Company employees to Ford in connection with the Rawsonville-Sterling Transaction.

NOTE 16. Income Taxes

Adoption of FIN 48

Effective January 1, 2007, the Company adopted FIN 48, which establishes a single model to address accounting for uncertain tax positions and clarifies the accounting for income taxes by prescribing a minimum recognition threshold that a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on de-recognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. The adoption of FIN 48 did not have a material impact on the Company's consolidated financial statements.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 16. Income Taxes — (Continued)

In connection with the adoption of FIN 48 and beginning January 1, 2007, the Company classified all interest and penalties as income tax expense. Prior to the adoption of FIN 48, the Company's policy was to record interest and penalties related to income tax contingencies as a component of income before taxes. Accrued interest and penalties was \$20 million at January 1, 2007. Estimated interest and penalties related to the underpayment of income taxes totaled approximately \$2 million for the six-months ended June 30, 2007.

Unrecognized Tax Benefits

The Company and its subsidiaries have operations in every major geographic region of the world and are subject to income taxes in the U.S. and numerous foreign jurisdictions. Accordingly, the Company files tax returns and is subject to examination by taxing authorities throughout the world, including such significant jurisdictions as Korea, India, Portugal, Spain, Czech Republic, Canada, Germany and the United States. With few exceptions, the Company is no longer subject to U.S. federal tax examinations for years before 2004 or state and local, or non-U.S. income tax examinations for years before 2000.

The Company's gross unrecognized tax benefits as of January 1 were approximately \$150 million, of which approximately \$55 million would impact the effective tax rate if recognized. The gross unrecognized tax benefits differs from that which would impact the effective tax rate due to uncertain tax positions embedded in other deferred tax attributes carrying a full valuation allowance. Since the uncertainty is expected to be resolved while a full valuation allowance is maintained, these uncertain tax positions will not impact the effective tax rate in current or future periods.

During the second quarter of 2007, the Company increased its unrecognized tax benefits through income tax expense by approximately \$17 million primarily as a result of certain positions taken in tax returns filed in the quarter, as well as those expected to be taken in future tax returns in certain non-U.S. jurisdictions.

It is reasonably possible that the amount of the Company's unrecognized tax benefits may change within the next twelve months as a result of settlement of ongoing audits or for positions expected to be taken in future tax returns, primarily related to transfer pricing-related initiatives. An estimate of the range of reasonably possible outcomes, however, cannot be made at this time. Further, substantially all of the Company's unrecognized tax benefits relate to uncertain tax positions that are not currently under review by taxing authorities and therefore, the Company is unable to specify the future periods in which it may be obligated to settle such amounts.

Provision for Income Taxes

The Company's provision for income taxes in interim periods is computed by applying an estimated annual effective tax rate against income (loss) before income taxes, excluding related equity in net income of affiliated companies, for the period. Effective tax rates vary from period to period as separate calculations are performed for those countries where the Company's operations are profitable and whose results continue to be tax-effected and for those countries where full deferred tax valuation allowances exist and are maintained.

The Company's provisions for income taxes of \$28 million and \$45 million for the three and six-month periods ended June 30, 2007 reflects income tax expense related to those countries where the Company is profitable, accrued withholding taxes and certain non-recurring and other discrete tax items. Additionally, the provision also reflects the Company's inability to record a tax benefit for pre-tax losses in the U.S. and certain foreign countries to the extent not offset by other categories of income.

SFAS 109 generally requires that the amount of tax expense or benefit allocated to continuing operations be determined without regard to the tax effects of other categories of income or loss, such as other comprehensive income. However, an exception to the general rule is provided when there is a pre-tax loss

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 16. Income Taxes — (Continued)

from continuing operations and net pre-tax income from other categories in the current year. In such instances, net pre-tax income from other categories must offset the current loss from operations, the tax benefit of such offset being reflected in continuing operations even when a valuation allowance has been established against the deferred tax assets. In instances where a valuation allowance is established against current year operating losses, net pre-tax income from other sources, including other comprehensive income, is considered when determining whether sufficient future taxable income exists to realize the deferred tax assets. During the three and six months ended June 30, 2007, net pre-tax income from other categories of income or loss, in particular, pre-tax other comprehensive income primarily attributable to re-measurement of pension and OPEB plans in the U.S. and Germany, offset approximately \$54 million and \$77 million, respectively of pre-tax operating losses in the U.S. and Germany, reducing the Company's current period valuation allowance resulting in a benefit of \$19 million and \$27 million allocated to the current year loss from continuing operations for the three and six months ended June 30, 2007, respectively.

The need to maintain valuation allowances against deferred tax assets in the U.S. and other affected countries will continue to cause variability in the Company's quarterly and annual effective tax rates. Full valuation allowances against deferred tax assets in the U.S. and applicable foreign countries, which include the U.K. and Germany, will be maintained until sufficient positive evidence exists to reduce or eliminate them.

NOTE 17. Comprehensive Income (Loss)

Comprehensive income (loss), net of tax is summarized below:

	Three-Months Ended June 30		Six-Months Ended June 30	
	2007	2006	2007	2006
	(Dollars in Millions)			
Net (loss) income	\$ (67)	\$ 50	\$ (220)	\$ 53
Pension and other postretirement benefit adjustments	44	—	109	—
Change in foreign currency translation adjustments	22	28	32	64
Unrealized gains/(losses) on derivatives	1	(7)	(2)	(11)
	<u>\$ —</u>	<u>\$ 71</u>	<u>\$ (81)</u>	<u>\$ 106</u>

Accumulated other comprehensive income (loss) is comprised of the following:

	June 30 2007	December 31 2006
	(Dollars in Millions)	
Foreign currency translation adjustments	\$ 198	\$ 166
Pension and other postretirement benefit adjustments, net of tax	(79)	(378)
Unrealized gains/(losses) on derivatives	(6)	(4)
	<u>\$ 113</u>	<u>\$ (216)</u>

NOTE 18. (Loss) Earnings Per Share

Basic (loss) earnings per share of common stock is calculated by dividing reported net (loss) income by the average number of shares of common stock outstanding during the applicable period, adjusted for restricted stock. The calculation of diluted (loss) earnings per share takes into account the effect of

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 18. (Loss) Earnings Per Share — (Continued)

dilutive potential common stock, such as stock options, and contingently returnable shares, such as restricted stock.

	Three-Months Ended June 30		Six-Months Ended June 30	
	2007	2006	2007	2006
	(Dollars in Millions)			
Numerator:				
Net (loss) income from continuing operations before change in accounting and extraordinary item	\$ (60)	\$ 44	\$ (196)	\$ 56
Loss from discontinued operations, net of tax	7	2	24	7
Net (loss) income before change in accounting and extraordinary item	\$ (67)	\$ 42	\$ (220)	\$ 49
Cumulative effect of change in accounting, net of tax	—	—	—	(4)
Net (loss) income before extraordinary item	(67)	42	(220)	45
Extraordinary item, net of tax	—	8	—	8
Net (loss) income	\$ (67)	\$ 50	\$ (220)	\$ 53
Denominator:				
Average common stock outstanding	129.6	128.0	129.3	128.2
Less: Average restricted stock outstanding	(0.1)	(0.2)	(0.1)	(0.7)
Basic shares	129.5	127.8	129.2	127.5
Net dilutive effect of restricted stock	—	0.1	—	0.1
Diluted shares	129.5	127.9	129.2	127.6
Per Share Data:				
Basic and diluted (loss) earnings per share from continuing operations before change in accounting and extraordinary item	\$ (0.46)	\$ 0.34	\$ (1.52)	\$ 0.44
Loss from discontinued operations, net of tax	(0.06)	(0.01)	(0.18)	(0.06)
Basic and diluted (loss) earnings per share before change in accounting and extraordinary item	\$ (0.52)	\$ 0.33	\$ (1.70)	\$ 0.38
Cumulative effect of change in accounting, net of tax	—	—	—	(0.03)
Basic and diluted (loss) earnings per share before extraordinary item	(0.52)	0.33	(1.70)	0.35
Extraordinary item, net of tax	—	0.06	—	0.06
Basic and diluted (loss) earnings per share	\$ (0.52)	\$ 0.39	\$ (1.70)	\$ 0.41

Stock options to purchase approximately 13 million shares of common stock and warrants to purchase 25 million shares of common stock were not included in the computation of diluted loss per share because the effect of including them would have been anti-dilutive for the three and six-months ended June 30, 2007.

NOTE 19. Commitments and Contingencies

Guarantees

The Company has guaranteed approximately \$65 million and \$77 million of debt capacity held by consolidated and unconsolidated subsidiaries and \$98 million and \$97 million for lifetime lease payments held by consolidated subsidiaries at June 30, 2007 and December 31, 2006, respectively. In addition, the

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 19. Commitments and Contingencies — (Continued)

Company has guaranteed certain Tier 2 suppliers' debt and lease obligations and other third-party service providers' obligations of up to \$6 million and \$17 million at June 30, 2007 and December 31, 2006 respectively, to ensure the continued supply of essential parts.

Litigation and Claims

In February 2005, a shareholder lawsuit was filed in the U.S. District Court for the Eastern District of Michigan against the Company and certain current and former officers of the Company. In July 2005, the Public Employees' Retirement System of Mississippi was appointed as lead plaintiff in this matter. In September 2005, the lead plaintiff filed an amended complaint, which alleges, among other things, that the Company and its independent registered public accounting firm, PricewaterhouseCoopers LLP, made misleading statements of material fact or omitted to state material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading. The named plaintiff seeks to represent a class consisting of purchasers of the Company's securities during the period between June 28, 2000 and January 31, 2005. Class action status has not yet been certified in this litigation. On August 31, 2006, the defendants motion to dismiss the amended complaint for failure to state a claim was granted. The plaintiffs have appealed this decision.

In March 2005, a number of current and former directors and officers were named as defendants in two shareholder derivative suits pending in the State of Michigan Circuit Court for the County of Wayne. As is customary in derivative suits, the Company has been named as a defendant in these actions. As a nominal defendant, the Company is not liable for any damages in these suits nor is any specific relief sought against the Company. The complaints allege that, among other things, the individual defendants breached their fiduciary duties of good faith and loyalty and aided and abetted such breaches during the period between January 23, 2004 and January 31, 2005 in connection with the Company's conduct concerning, among other things, the matters alleged in the securities class action discussed immediately above. The derivative matters have been stayed pending resolution of defendants' motion to dismiss the securities matter pending in the Eastern District of Michigan and any related appeal.

In March and April 2005, the Company and a number of current and former employees, officers and directors were named as defendants in three class action lawsuits brought under the Employee Retirement Income Security Act ("ERISA") in the U.S. District Court for the Eastern District of Michigan. In September 2005, the plaintiffs filed an amended and consolidated complaint, which generally alleged that the defendants breached their fiduciary duties under ERISA during the class period by, among other things, continuing to offer Visteon stock as an investment alternative under the Visteon Investment Plan (and the Visteon Savings Plan for Hourly Employees, together the "Plans"), failing to disclose complete and accurate information regarding the prudence of investing in Visteon stock, failing to monitor the actions of certain of the defendants, and failing to avoid conflicts of interest or promptly resolve them. These ERISA claims were predicated upon factual allegations similar to those raised in the derivative and securities class actions described immediately above. The consolidated complaint, as amended, was brought on behalf of a named plaintiff and a putative class consisting of all participants or beneficiaries of the Plans whose accounts included Visteon stock at any time from July 20, 2001 through June 15, 2006. In November 2005, the defendants moved to dismiss the consolidated amended complaint on various grounds. Prior to resolution of the defendants' motion, the parties agreed to a settlement. Upon review of the proposed settlement the judge assigned to the proceeding certified a class covering the period July 1, 2000 through July 15, 2006, and preliminarily approved the settlement on December 12, 2006. The court entered an order of final approval of the settlement on March 9, 2007 and the settlement became effective on April 9, 2007. The amount of the settlement was within the coverage limits of the Company's applicable insurance policy.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 19. Commitments and Contingencies — (Continued)

In June 2006, the Company and Ford Motor Company were named as defendants in a purported class action lawsuit brought under ERISA in the United States District Court for the Eastern District of Michigan on behalf of certain former salaried employees of the Company associated with two plants located in Michigan. The complaint alleged that the Company and Ford violated their fiduciary duties under ERISA when they established and spun off the Company and allocated certain pension liabilities between them, and later when they transferred the subject employees to Ford as new hires in 2006 after Ford acquired the plants. In July 2007, the motion to dismiss the complaint filed on behalf of the Company and Ford was granted in part and denied in part.

At this time the Company is not able to predict with certainty the final outcome of each of the foregoing unresolved lawsuits or its potential exposure with respect to each such lawsuit. In the event of an unfavorable resolution of any of these matters, the Company's earnings and cash flows in one or more periods could be materially affected to the extent any such loss is not covered by insurance or applicable reserves.

Product Warranty and Recall

Amounts accrued for product warranty and recall claims are based on management's best estimates of the amounts that will ultimately be required to settle such items. The Company's estimates for product warranty and recall obligations are developed with support from its sales, engineering, quality and legal functions and include due consideration of contractual arrangements, past experience, current claims and related information, production changes, industry and regulatory developments and various other considerations. The Company can provide no assurances that it will not experience material claims in the future or that it will not incur significant costs to defend or settle such claims beyond the amounts accrued or beyond what the Company may recover from its suppliers.

The following table provides a reconciliation of changes in product warranty and recall liability for the six-months ended June 30, 2007 and 2006:

	Product Warranty and Recall	
	2007	2006
	(Dollars in Millions)	
Beginning balance, December 31	\$ 105	\$ 148
Accruals for products shipped	24	22
Changes in estimates	(3)	2
Settlements	(20)	(13)
Ending balance, June 30	<u>\$ 106</u>	<u>\$ 159</u>

Environmental Matters

The Company is subject to the requirements of federal, state, local and foreign environmental and occupational safety and health laws and regulations. These include laws regulating air emissions, water discharge and waste management. The Company is also subject to environmental laws requiring the investigation and cleanup of environmental contamination at properties it presently owns or operates and at third-party disposal or treatment facilities to which these sites send or arranged to send hazardous waste.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 19. Commitments and Contingencies — (Continued)

The Company is aware of contamination at some of its properties and relating to various third-party superfund sites at which the Company or its predecessor has been named as a potentially responsible party. The Company is in various stages of investigation and cleanup at these sites and at June 30, 2007, had recorded a reserve of approximately \$9 million for this environmental investigation and cleanup. However, estimating liabilities for environmental investigation and cleanup is complex and dependent upon a number of factors beyond the Company's control and which may change dramatically. Although the Company believes its reserve is adequate based on current information, the Company cannot provide assurance that the eventual environmental investigation, cleanup costs and related liabilities will not exceed the amount of its current reserve.

Other Contingent Matters

In addition to the matters discussed above, various other legal actions, governmental investigations and proceedings and claims are pending or may be instituted or asserted in the future against the Company, including those arising out of alleged defects in the Company's products; governmental regulations relating to safety; employment-related matters; customer, supplier and other contractual relationships; and intellectual property rights. Some of the foregoing matters may involve compensatory, punitive or antitrust or other treble damage claims in very large amounts, or demands for equitable relief, sanctions, or other relief.

Contingencies are subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance. Reserves have been established by the Company for matters where losses are deemed probable and reasonably estimable. It is possible, however, that some of the matters could be decided unfavorably to the Company and could require the Company to pay damages or make other expenditures in amounts, or a range of amounts, that cannot be estimated at June 30, 2007 and that are in excess of established reserves. The Company does not reasonably expect, except as otherwise described herein, based on its analysis, that any adverse outcome from such matters would have a material effect on the Company's financial condition, results of operations or cash flows, although such an outcome is possible.

The Company enters into agreements that contain indemnification provisions in the normal course of business for which the risks are considered nominal and impracticable to estimate.

NOTE 20. Segment Information

Statement of Financial Accounting Standards No. 131 ("SFAS 131"), "Disclosures about Segments of an Enterprise and Related Information," requires the Company to disclose certain financial and descriptive information about certain segments of its business. Segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision-maker, or a decision-making group, in deciding the allocation of resources and in assessing performance.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 20. Segment Information — (Continued)

The Company's operating structure is comprised of the following: Climate, Electronics, Interiors and Other. These global product groups have financial and operating responsibility over the design, development and manufacture of the Company's product portfolio. Within each of the global product groups, certain facilities manufacture a broader range of the Company's total product line offering and are not limited to the primary product line. Regional customer groups are responsible for the marketing, sales and service of the Company's product portfolio to its customer base. Certain functions such as procurement, information technology and other administrative activities are managed on a global basis with regional deployment. In addition to these global product groups, the Company also operates Visteon Services, a centralized administrative function to monitor and facilitate transactions with ACH for the costs of leased employees and other services provided to ACH by the Company. As a result of the Chassis Divestiture, Visteon Services will also provide transitional administrative support to the buyer for a period of up to eighteen months.

The Company's chief operating decision making group, comprised of the Chief Executive Officer ("CEO"), Chief Operating Officer ("COO") and Chief Financial Officer ("CFO"), evaluates the performance of the Company's segments primarily based on net sales, before elimination of inter-company shipments, gross margin and operating assets. Gross margin is defined as total sales less costs to manufacture and product development and engineering expenses. Operating assets include inventories and property and equipment utilized in the manufacture of the segments' products.

Overview of Segments

- Climate: The Company's Climate product group includes facilities that primarily manufacture climate air handling modules, powertrain cooling modules, climate controls, heat exchangers, compressors, fluid transport, and engine induction systems.
- Electronics: The Company's Electronics product group includes facilities that primarily manufacture audio systems, infotainment systems, driver information systems, powertrain and feature control modules, electronic control modules and lighting.
- Interiors: The Company's Interior product group includes facilities that primarily manufacture instrument panels, cockpit modules, door trim and floor consoles.
- Other: The Company's Other product group includes facilities that primarily manufacture fuel products, chassis products, powertrain products, alternators and starters, as well as parts sold and distributed to the automotive aftermarket.
- Services: The Company's Services operations supply leased personnel and transition services as required by certain agreements entered into by the Company with ACH as a part of the ACH Transactions. Pursuant to the Master Services Agreement and the Salaried Employee Lease Agreement the Company, agreed to provide ACH with certain information technology, personnel and other services to enable ACH to conduct its business. Services to ACH are provided at a rate approximately equal to the Company's cost until such time the services are no longer required by ACH or the expiration of the related agreement. In addition to services provided to ACH, the Company has also agreed to provide certain transition services related to the Chassis Divestiture. The Company expects to provide these services for a period of up to eighteen months.

Reconciling Items

Certain adjustments are necessary to reconcile segment net sales, gross margin, inventories, net and property and equipment, net to the Company's consolidated amounts. Corporate reconciling items are related to the Company's technical centers, corporate headquarters and other administrative and support functions.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

NOTE 20. Segment Information — (Continued)

Reclassification

Segment information for the three and six-months ended June 30, 2006 and as of December 31, 2006 has been reclassified to reflect the alignment of the Company's South American operations with their respective global product groups during the first quarter of 2007.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis ("MD&A") is intended to help the reader understand the results of operations, financial condition, and cash flows of Visteon Corporation ("Visteon" or the "Company"). MD&A is provided as a supplement to, and should be read in conjunction with, the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006 and Current Report on Form 8-K dated August 3, 2007, as filed with the Securities and Exchange Commission and the financial statements and accompanying notes to the financial statements included herein. The financial data presented herein are unaudited, but in the opinion of management reflect those adjustments, including normal recurring adjustments, necessary for a fair presentation of such information.

Executive Summary

Visteon is a leading global supplier of climate, interiors, electronics and other automotive systems, modules and components to vehicle manufacturers as well as to the automotive aftermarket. The Company sells to all the of the world's largest vehicle manufacturers including BMW, DaimlerChrysler, Ford, General Motors, Honda, Hyundai / Kia, Nissan, Peugeot, Renault, Toyota and Volkswagen. The Company has a broad network of manufacturing, technical engineering and joint venture operations throughout the world, supported by approximately 43,000 employees dedicated to the design, development, manufacture and support of its product offering and its global customers. The Company conducts its business across five segments including, Climate, Interiors, Electronics, Other and Services.

By leveraging its extensive experience, innovative technology and geographic strengths, the Company aims to grow leading positions in key climate, interiors and electronics product groups and to improve overall margins, long-term operating profitability and cash flows. To achieve these goals and to respond to industry factors and trends, the Company is working to restructure its business, improve its operations and achieve profitable growth.

Financial results for the three-months ended June 30, 2007 are summarized as follows:

- Product sales from continuing operations of \$2.83 billion, of which non-Ford customers accounted for 61%
- Product gross margin of approximately 5.4%, down from approximately 11.1% for the same period of 2006
- Selling, general and administrative expenses of \$145 million, \$49 million lower than the same period in 2006
- Net loss of \$67 million or \$0.52 per share, compared to net income of \$50 million or \$0.39 per share for the same period in 2006
- Cash of approximately \$1.5 billion as of June 30, 2007, \$400 million higher than as of December 31, 2006
- Cash provided from operating activities of \$146 million, compared to cash provided from operating activities of \$108 million for the same period in 2006
- Capital expenditures of \$80 million, lower than the same period in 2006 by \$18 million

Sales and New Business

Sales from continuing operations were \$2.97 billion for the three-months ended June 30, 2007 compared to sales from continuing operations of \$2.96 billion for the same period in 2006. Sales from continuing operations for the second quarter of 2007 included favorable foreign currency of \$111 million offset by the impact of divestitures, lower North American production volumes, customer pricing and changes in product mix. The Company's sales remain well balanced by core product group with Climate sales of \$891 million or 30%, Electronics sales of \$914 million or 30% and Interiors sales of \$813 million or 27%.

While the distribution of the Company's sales has remained consistent across its core product groups, product sales on a regional basis experienced a significant shift during the three and six months ended June 30, 2007. North American product sales decreased \$170 million and \$389 million for the three and six

month periods ended June 30, 2007, respectively. The sales decline in North America was primarily driven by decreases in Ford and Nissan vehicle production volumes and past Ford sourcing actions. European product sales increased \$26 million and \$209 million for the three and six-month periods ended June 30, 2007, respectively. The increases include favorable foreign currency primarily related to the strengthening of the Euro and increased Ford Europe production volumes, partially offset by \$96 million of sales from divested chassis facilities. Asia product sales increased by \$136 million and \$239 million for the three and six-month periods ended June 30, 2007, respectively. The increases are attributable to increased customer production volumes, new business and foreign currency reflecting a strengthened Korean Won.

The automotive industry remains challenging, primarily in North America with continued market share pressures concentrated with U.S. vehicle manufacturers. Continued declines in North American vehicle production from some of the Company's key customers will continue to adversely affect the Company's operating results. However, the Company continues to work with other vehicle manufacturers to further its sales growth and diversification.

The Company continues to win new business maintaining the momentum from 2006 when Visteon won \$1 billion of new business. Year-to-date new business wins are approximately \$450 million, of which nearly 75 percent is related to business outside of North America and are primarily concentrated in Climate and Electronics product groups. The Company also was awarded significant renewals of existing contracts during 2007 with minimal incumbent losses. Sales from continuing operations for the three-months ended June 30, 2007 included sales to customers other than Ford of \$1.7 billion or 61% of total product sales. This represents a significant shift to a more diversified customer base as compared to the same period of 2006 when sales to customers other than Ford were \$1.5 billion or 53% of total product sales.

Visteon's customers expect it to continue to reduce the costs of the products it provides, and to increase the level of engineering and related support of vehicle programs on a global basis. The Company must continue to work on reducing its overall costs by restructuring its operations and infrastructure and improving productivity to offset pricing provided to its customers.

Operations and Restructuring

The Company's gross margin was \$155 million in the second quarter of 2007, compared with \$313 million in the second quarter of 2006, representing a decrease of \$158 million or 50%. The decrease in gross margin was partially attributable to the non-recurrence of \$49 million of OPEB relief in the second quarter of 2006 related to the transfer of certain Visteon salaried employees to Ford in January 2006. Additionally, during the second quarter of 2007 gross margin was affected by a \$16 million reduction associated with the European chassis divestiture, \$12 million of accelerated depreciation expense related to restructuring activities and \$10 million of employee benefit curtailment expense included in cost of sales but reimbursed from the escrow account. The remainder of the gross margin decrease was related to vehicle volume and mix and customer pricing partially offset by improved operating performance.

The Company continues its efforts to improve base operations, which have been focused on quality, safety, investments and cost efficiencies. However, the Company's near term performance has been impacted by lower volumes, unfavorable product mix, premium costs related to certain non-core operations in Europe, and excess costs incurred for several new program launches.

The Company has undertaken various restructuring and other activities to improve base operations and achieve cost efficiencies. Significant actions taken during the three-months ended June 30, 2007 are as follows:

- In April 2007, the Company completed the sale of certain chassis operations, including plants in Dueren and Wuelfrath, Germany, and Prazska, Poland, and expects to complete the sale of its related operations located in Sao Paulo, Brazil by the end of the year.

- In May 2007, the Company exited its brake manufacturing operations at its Swansea, Wales, U.K. facility. The exit of the brake manufacturing business allowed for consolidation of facilities at this site which is expected to provide future cost savings.
- During the second quarter of 2007, the Company completed the closure of its Chicago, IL and Chesapeake, VA facilities initiated in response to customer sourcing actions.
- During the second quarter of 2007 the Company completed negotiations with organized labor representing the workforce at the Company's Connersville, Indiana facility. These negotiations were the result of the Company's decision to close the facility due to of customer sourcing actions.
- In June 2007, the Company announced its intention to close its Bedford, Indiana facility as a result of customer sourcing actions.
- In connection with facilities and businesses addressed under the multi-year improvement plan, the Company continues to take actions to reduce its overhead costs. Such actions include continued salaried headcount reductions, consolidation of facilities and other overhead cost reductions.

The Company continues to execute its long-term improvement program although no assurances can be provided that the results of these efforts will mitigate the negative industry trends currently being experienced.

Cash and Liquidity

Cash provided from operating activities totaled \$146 million for the second quarter 2007 increasing \$38 million from the same period a year ago driven primarily by trade working capital. Year to date cash provided from operating activities totaled \$15 million compared to \$76 million for the first six months of 2006. As of June 30, 2007, Visteon had cash balances totaling \$1.5 billion and total debt of \$2.7 billion. Additionally, no amounts were drawn on the company's \$350 million asset-based U.S. revolving credit facility, which had available borrowing capacity of \$251 million as of June 30, 2007. The Company also had \$233 million available for funding under its \$325 million European Securitization facility as of June 30, 2007.

In April 2007, the Company entered into an agreement to amend and restate its existing credit agreement to provide an additional \$500 million secured term loan. Consistent with the existing term loan, the additional term loan bears interest at a Eurodollar rate plus 3% and will mature on December 13, 2013. The credit agreement provides for additional collateral and subsidiary guarantors, and allows for an increase in the amount of the additional secured term loan by up to \$200 million.

Results of Operations

Discontinued Operations

In March 2007, the Company entered into a Master Asset and Share Purchase Agreement ("MASPA") to sell certain assets and liabilities associated with the Company's chassis operations (the "Chassis Divestiture"). The Company's chassis operations are primarily comprised of suspension, driveline and steering product lines and include facilities located in Dueren, Germany, Wuelfrath, Germany, Praszka, Poland and Sao Paulo, Brazil. Collectively, these operations recorded sales for the year ended December 31, 2006 of approximately \$600 million. The Chassis Divestiture, while representing a significant portion of the Company's chassis operations, did not result in the complete exit of any of the affected product lines.

Effective May 31, 2007, the Company ceased to produce brake components at its Swansea, Wales, U.K. facility, which resulted in the complete exit of the Company's global suspension product line. Accordingly, the results of operations of the Company's global suspension product line have been reclassified to "Loss from discontinued operations, net of tax" on the consolidated statements of operations for the three and six month periods ended June 30, 2007 and 2006.

A summary of the results of operations for the global suspension systems product line for the three and six month periods ended June 30, 2007 and 2006 is provided in the table below.

	Three-Months Ended June 30		Six-Months Ended June 30	
	2007	2006	2007	2006
	(Dollars in Millions)

Net Sales

During the three-months ended June 30, 2007 the Company recorded sales from continuing operations of \$2.97 billion, or essentially even when compared to \$2.96 billion for the three-months ended June 30, 2006. Included within sales from continuing operations for 2007 is \$111 million of favorable currency, the impact of which was partially offset by lower North American production volumes, divestitures, customer pricing and adverse product mix.

Net sales for Climate were \$891 million in the three-months ended June 30, 2007 and included favorable currency of \$33 million. Climate sales increased by \$51 million or 6% when compared with the three-months ended June 30, 2006. In addition to foreign currency, sales increased due to vehicle production volume and mix of \$52 million, reflecting growth in Asia from new business and higher Ford Europe vehicle production volumes, partially offset by lower Ford North America vehicle production volumes and lower volumes resulting from past Ford sourcing actions.

Net sales for Electronics were \$914 million in the three-months ended June 30, 2007 compared with \$911 million in the three-months ended June 30, 2006. Vehicle production volume and mix was unfavorable by \$14 million. Lower Ford North America vehicle production volume and the impact of past sourcing actions reduced net sales by \$87 million, which was partially offset by increased sales in Europe of \$69 million, primarily related to Ford Europe. Net customer price reductions were more than offset by favorable currency of \$40 million.

Net sales for Interiors were \$813 million for the three-months ended June 30, of 2007, compared with \$765 million for the three-months ended June 30, 2006, representing an increase of \$48 million or 6%. Vehicle production volume and mix was favorable \$36 million. Increased sales in Asia of \$106 million, primarily due to an increase in directed source sales to Hyundai/Kia, was partially offset by lower sales in North America of \$73 million, which was driven by lower Ford and Nissan vehicle production. Net customer price reductions were more than offset by favorable currency of \$28 million.

The Company's Other product group generated net sales of \$391 million during the three-months ended June 30 2007, compared with \$468 million in the three-months ended June 30, 2006, representing a decrease of \$77 million or 16%. The decrease was primarily due to the second quarter 2007 Chassis Divestiture, which resulted in lower sales of \$96 million. Vehicle production volume and mix was unfavorable by \$2 million and net customer price reductions were more than offset by favorable currency of \$10 million.

Services revenues relate to information technology, engineering, administrative and other business support services provided by the Company under the terms of various agreements. Such services are generally provided at an amount that approximates cost. Total services revenues were \$141 million in the three-months ended June 30, 2007, compared with \$138 million in the three-months ended June 30, 2006. The increase of \$3 million is related to the services provided in connection with the Chassis Divestiture, which commenced in May 2007.

Gross Margin

The Company's gross margin was \$155 million in the second quarter of 2007, compared with \$313 million in the second quarter of 2006, representing a decrease of \$158 million or 50%. The decrease in gross margin was attributable to the non-recurrence of \$49 million of OPEB relief in the second quarter of 2006 related to the transfer of certain Visteon salaried employees to Ford in connection with Ford's acquisition of two ACH plants located in Rawsonville, MI and Sterling Heights, MI. Additionally, during the second quarter of 2007 gross margin was affected by a \$16 million reduction associated with the European chassis divestiture, \$10 million of employee benefit curtailment expense included in cost of sales but reimbursed from the escrow account, and \$12 million of accelerated depreciation expense related to restructuring activities. The remainder was related to vehicle volume and mix and customer pricing partially offset by improved operating performance.

Gross margin for Climate was \$53 million during the three-months ended June 30, 2007, compared with \$66 million during the three-months ended June 30, 2006, representing a decrease of \$13 million or 20%. The decrease in gross margin resulted from net customer price reductions and increases in raw material costs of \$22 million, accelerated depreciation expense related to restructuring activities of \$5 million, \$16 million of unfavorable vehicle and product mix and lower volumes at the Company's Connersville, Indiana facility which is scheduled to close in the second half of 2007. These decreases were partially offset by \$27 million of savings from material and manufacturing cost reduction activities, lower OPEB expenses, and restructuring actions. Gross margin for the second quarter of 2007 also included favorable currency of \$3 million.

Gross margin for Electronics was \$64 million for the three-months ended June 30, 2007, compared with \$119 million for the three-months ended June 30, 2006, representing a decrease of \$55 million or 46%. Vehicle production volume and mix was unfavorable \$61 million in North America primarily related to lower Ford vehicle production volumes and the impact of past sourcing actions primarily in the audio and powertrain control module product lines. However, vehicle production volume and mix was favorable \$22 million in other regions, primarily in Europe reflecting increased Ford Europe vehicle production volume. Material and manufacturing cost reduction activities, lower OPEB expense, and restructuring savings were offset by customer price reductions and increases in raw material costs resulting in a decrease in gross margin of \$20 million. Gross margin for the second quarter of 2007 also included favorable currency of \$9 million and accelerated depreciation expense related to restructuring activities of \$5 million.

Gross margin for Interiors was \$29 million in the three-months ended June 30, 2007, compared with \$28 million in the three-months ended June 30, 2006. Material and manufacturing cost reduction activities, lower OPEB expense, and restructuring savings improved gross margin by \$21 million. These improvements were partially offset by customer price reductions and increases in raw material costs of \$14 million, vehicle production volume and mix of \$8 million reflecting lower Ford and Nissan vehicle production volumes in North America and the impact of lost volume related to the closure of the Chicago facility and accelerated depreciation expense related to restructuring activities of \$1 million. Gross margin for the second quarter of 2007 also included favorable currency of \$3 million.

Gross margin for Other was \$10 million in the three-months ended June 30, 2007, compared with \$50 million in the three-months ended June 30, 2006, representing a decrease of \$40 million. This decrease includes, \$10 million of pension curtailment expense included in cost of sales in 2007 but reimbursed from the escrow account, a \$16 million decrease due to the divestiture of the Company's European chassis operations and \$1 million of unfavorable currency. Additionally, vehicle production volume and mix of \$15 million and customer price reductions and increases in raw material costs of \$13 million were partially offset by lower OPEB expense, material and manufacturing cost reduction activities, and restructuring savings of \$15 million.

Selling, General and Administrative Expenses

Selling, general and administrative expenses of \$145 million for the three-months ended June 30, 2007 decreased by \$49 million or 25% when compared with \$194 million for the same period of 2006. The decrease primarily resulted from \$24 million of cost efficiencies related to salaried headcount reductions during the fourth quarter of 2006 and the first quarter of 2007, lower stock-based compensation expense of \$16 million and a reduction of \$3 million related to the Chassis Divestiture.

Asset Impairments

The Company recorded asset impairment charges of \$11 million during the three month period ended June 30, 2007. These impairment charges included \$8 million related to assets subject to the Chassis Divestiture including inventory, intellectual property, and real and personal property that met the "held for sale" criteria of SFAS 144. The Company recorded an additional \$3 million of impairment charges to adjust the carrying value of the related assets held for sale to the lower of carrying amount or fair value less cost to sell related to restructuring activities undertaken at a North American Other facility.

Restructuring Expenses

During the second quarter of 2007 the Company recorded restructuring charges of \$37 million under the previously announced multi-year improvement plan. Such costs are fully reimbursable under the terms of the Escrow Agreement. Significant restructuring actions for the three-months ended June 30, 2007 include the following.

- The Company recorded \$10 million of employee severance and termination benefit costs for approximately 150 employees at a European Interiors facility related to the planned transfer of production to other facilities.
- Approximately \$8 million of employee severance and termination benefit costs were recorded for approximately 40 hourly and 20 salaried employees at various European facilities.
- The Company recorded \$7 million related to the previously announced closure of a North American Climate facility. Of this additional amount, \$6 million relates to employee severance and termination benefits and the remaining \$1 million is for lease termination costs.
- The Company continues to evaluate its general and administrative support structure and continues to reduce such costs as related to restructuring actions taken under the multi-year improvement plan. As a result, \$6 million of employee severance and termination benefit costs related to approximately 55 salaried employee reductions were recorded.
- The Company recorded an estimate of employee severance and termination benefit costs of approximately \$4 million for the probable payment of such post-employment benefit costs in connection with the multi-year improvement plan.

Interest

Interest expense was \$55 million for the three-months ended June 30, 2007 as compared to \$53 million for the same period of 2006. The increase of \$2 million was due to higher average debt levels in 2007. Interest income increased by \$7 million to a total of \$14 million for the three-months ended June 30, 2007 largely due to higher cash balances and related investments in 2007.

Income Taxes

The provision for income taxes of \$28 million for the three-month period ended June 30, 2007 represents an increase of \$11 million when compared with \$17 million in the same period of 2006. The income tax provisions for the three-month periods ended June 30, 2007 and 2006 reflect income tax expense related to those countries where the Company is profitable, accrued withholding taxes, certain non-recurring and other discrete items and the inability to record a tax benefit for pre-tax losses in the U.S. and certain foreign countries to the extent not offset by other categories of income in those jurisdictions.

In the second quarter of 2007, net pre-tax other comprehensive income arising from re-measurement of pension and OPEB obligations in the U.S. and Germany effectively offset \$54 million of second quarter pre-tax operating losses in the U.S. and Germany. Accordingly, the Company's current period valuation allowance was reduced resulting in a benefit of \$19 million allocated to the current year loss from continuing operations. The provision for income taxes for the three-month period ended June 30, 2007 also includes an expense of \$17 million reflecting an increase in unrecognized tax benefits as a result of certain positions taken in tax returns filed in the quarter, as well as those expected to be taken in future tax returns. Non-recurring and other discrete items recorded in the three-month period ended June 30, 2006 included a \$14 million benefit to restore net deferred tax assets associated with the Company's operations in Brazil.

Six-Months Ended June 30, 2007 and 2006

	Net Sales			Gross Margin		
	2007	2006	Change (Dollars in Millions)	2007	2006	Change

Net Sales

Net sales from continuing operations were \$5.86 billion for the six-months ended June 30, 2007, essentially even when compared with \$5.87 billion for the same period of 2006. Sales from continuing operations for the six-months ended June 30, 2007 increased by \$298 million due to favorable foreign currency, higher volumes in Europe related to Ford and PSA, an increase in directed source parts in Asia and net new business. These increases were largely offset by lower Ford and Nissan vehicle production volumes in North America, the impact of past Ford sourcing actions, the divestiture of the Company's European chassis operations of \$96 million and customer price reductions.

Net sales for Climate were \$1.7 billion in the six-months ended June 30, 2007, compared with \$1.6 billion in the six-months ended June 30, 2006, representing an increase of \$73 million or 4%. Continued growth in Asia increased sales by \$76 million principally attributable to new business and higher production volumes. New business launched at a North American manufacturing facility offset by lower Ford North America vehicle production and unfavorable product mix reduced sales in North America by \$73 million. Higher sales in Europe principally related to Ford vehicle production volumes increased sales \$51 million. Net customer price reductions were more than offset by favorable currency of \$81 million.

Net sales for Electronics were \$1.8 billion for each of the six-month periods ended June 30, 2007 and 2006. Sales decreased in North America by \$169 million related to lower Ford vehicle production volumes and adverse product mix partially offset by higher sales in Europe of \$116 million reflecting higher Ford vehicle production volumes. Net customer price reductions were more than offset by favorable currency of \$93 million.

Net sales for Interiors were \$1.6 billion in the six-months ended June 30, 2007, compared with \$1.5 billion in the six-months ended June 30, 2006, representing an increase of \$64 million or 4%. Vehicle production volume and product mix was favorable \$6 million. Increased sales in Asia of \$184 million, primarily due to an increase in directed source content for Hyundai/Kia production, was partially offset by lower sales in North America of \$169 million, primarily due to lower Ford and Nissan vehicle production as well as the impact of lost volume related to the closure of the Chicago facility. Net customer price reductions were more than offset by favorable currency of \$83 million.

Net sales for Other were \$867 million in the six-months ended June 30, 2007, compared with \$1.0 billion in the six-months ended June 30, 2006, representing a decrease of \$123 million or 12%. The decrease is largely attributable to the divestiture of the Company's European chassis operations, which resulted in a decrease of \$96 million. Sales decreased by \$63 with reductions in all regions related to lower vehicle production volumes and adverse product mix. Net customer price reductions were more than offset by favorable currency of \$41 million.

Services revenues relate to information technology, engineering, administrative and other business support services provided by the Company under the terms of various agreements. Such services are generally provided at an amount that approximates cost. Services revenues were \$271 million in the six-month period ended June 30, 2007 compared with \$283 million in the six-month period ended June 30, 2006.

Gross Margin

The Company's gross margin was \$272 million in the six-months ended June 30, 2007, compared with \$561 million in the six-months ended June 30, 2006, representing a decrease of \$289 million or 52%. The decrease in gross margin was partially attributable to the non-recurrence of \$72 million of OPEB relief from the six-months ended June 30, 2006 related to the transfer of certain Visteon salaried employees to Ford. Additionally, during 2007 gross margin was affected by \$20 million of employee benefit curtailment expense included in cost of sales but reimbursed from the escrow account, \$22 million of accelerated depreciation expense related to restructuring activities, a \$16 million reduction associated with the European chassis divestiture, and \$9 million in net OPEB and pension settlements. The remainder was related to vehicle production volume and mix and customer pricing partially offset by improved operating performance.

Gross margin for Climate was \$93 million in the six-months ended June 30, 2007, compared with \$120 million in the six-months ended June 30, 2006, representing a decrease of \$27 million or 23%. Although net sales increased during the period, unfavorable vehicle and product mix as well as lower vehicle production volumes related to restructuring activities primarily at the Company's Connersville, Indiana facility resulted in a decrease in gross margin of \$34 million. Material and manufacturing cost reduction activities, lower OPEB expenses and restructuring savings improved gross margin \$38 million and favorable foreign currency resulted in an additional \$3 million improvement. This performance was partially offset by net customer price reductions, increases in raw material costs of \$25 million and accelerated depreciation expense related to restructuring activities of \$9 million.

Gross margin for Electronics was \$126 million in the six-months ended June 30, 2007, compared with \$224 million in the six-months ended June 30, 2006, representing a decrease of \$98 million or 44%. Vehicle production volume and mix was unfavorable \$109 million in North America primarily related to lower Ford vehicle production volumes and the impact of past sourcing actions primarily in the audio and powertrain control module product lines. However, vehicle production volume and mix was favorable \$38 million in other regions, primarily in Europe reflecting increased Ford Europe vehicle production volume. Material and manufacturing cost reduction activities, lower OPEB expense, and restructuring savings improved gross margin \$12 million, and favorable currency also improved gross margin \$10 million. This performance was offset by customer price reductions and increases in raw material costs resulting in a decrease in gross margin of \$41 million and accelerated depreciation expense related to restructuring activities of \$8 million.

Gross margin for Interiors was \$33 million in the six-months ended June 30, 2007, compared with \$52 million in the six-months ended June 30, 2006, representing a decrease of \$19 million or 37%. Vehicle production volume and mix was unfavorable \$8 million reflecting lower Ford and Nissan vehicle production volumes in North America and the impact of lost volume related to the closure of the Chicago facility. Material and manufacturing cost reduction activities, lower OPEB expense, and restructuring savings improved gross margin \$11 million and favorable foreign currency improved gross margin \$4 million. This performance was partially offset by customer price reductions and increases in raw material costs resulting in a decrease in gross margin of \$22 million and accelerated depreciation expense related to restructuring activities of \$4 million.

Gross margin for Other was \$36 million in the six-months ended June 30, 2007, compared with \$91 million in the six-months ended June 30, 2006, representing a decrease of \$55 million or 60%. This decrease includes a \$20 million pension curtailment expense included in cost of sales in 2007 but reimbursed from the escrow account. Additionally, the divestiture of the European chassis operations resulted in a \$16 million reduction to gross margin. Vehicle production volume and mix was unfavorable \$17 million. Lower OPEB expense, material and manufacturing cost reduction activities, and restructuring savings improved gross margin \$23 million. Customer price reductions and increases in raw material costs decreased gross margin \$24 million, and currency decreased gross margin by \$1 million.

Selling, General and Administrative Expenses

Selling, general and administrative expenses of \$314 million for the six-months ended June 30, 2007 decreased by \$47 million or 13% when compared with \$361 million for the same period of 2006. The decrease resulted from \$31 million of cost efficiencies related to salaried headcount reductions during the fourth quarter of 2006 and the first quarter of 2007, lower stock-based compensation expense of \$22 million, and a reduction of \$3 million related to the Chassis Divestiture, which were partially offset by \$9 million of unfavorable currency.

Asset Impairments

The Company recorded asset impairment charges of \$51 million during the six-month period ended June 30, 2007. These impairment charges were recorded to adjust the carrying value of associated long-lived assets to their estimated fair value in accordance with SFAS 144.

During the first quarter of 2007, the Company determined that assets subject to the Chassis Divestiture including inventory, intellectual property, and real and personal property met the "held for sale" criteria of SFAS 144. Accordingly, these assets are valued at the lower of carrying amount or fair value less cost to sell, which resulted in asset impairment charges of approximately \$25 million through the first six months of 2007.

In consideration of the MASPA and the Company's announced exit of the brake manufacturing business at its chassis facility located in Swansea, Wales, U.K., an asset impairment charge of \$16 million was recorded to reduce the net book value of certain long-lived assets at the facility to their estimated fair value in the first quarter. The Company's estimate of fair value was based on market prices, prices of similar assets, and other available information.

During the first quarter of 2007, the Company entered into an agreement to sell an Electronics building located in Hiroshima, Japan. The Company determined that this building met the "held for sale" criteria of SFAS 144 as of March 31, 2007 and was recorded at the lower of carrying value or fair value less cost to sell, which resulted in an asset impairment charge of approximately \$7 million.

In connection with restructuring activities undertaken at a North American Other facility, the Company recorded an asset impairment of \$3 million to reduce the net book value of certain long-lived assets to their estimated fair value during the three-months ended June 30, 2007.

Restructuring Expenses

During the first six months of 2007 the Company recorded restructuring charges of \$62 million under the previously announced multi-year improvement plan. Such costs are fully reimbursable under the terms of the Escrow Agreement. Significant restructuring actions for the six-months ended June 30, 2007 include the following.

- The Company recorded an estimate of employee severance and termination benefit costs of approximately \$22 million for the probable payment of such post-employment benefit costs in connection with the multi-year improvement plan.
- The Company recorded \$10 million of employee severance and termination benefit costs for approximately 150 employees at a European Interiors facility related to the transfer of production to other facilities.
- The Company recorded \$10 million of employee severance and termination benefit costs related to the elimination of approximately 150 salaried positions.
- Approximately \$8 million of employee severance and termination benefit costs were recorded for approximately 40 hourly and 20 salaried employees at various European facilities.
- Approximately \$7 million was recorded related to the closure of a North American Climate facility related to employee severance and termination benefits and lease termination costs.

Interest

Interest expense was \$104 million for the six-months ended June 30, 2007 as compared to \$100 million for the same period of 2006. The increase of \$4 million was due to higher average debt levels in 2007. Interest income increased by \$8 million to a total of \$23 million for the six-months ended June 30, 2007 largely due to higher cash balances and related investments in 2007.

Income Taxes

The provision for income taxes of \$45 million for the six-month period ended June 30, 2007 represents a decrease of \$2 million when compared with \$47 million in the same period of 2006. The income tax provisions for the six-month periods ended June 30, 2007 and 2006 reflect income tax expense related to those countries where the Company is profitable, accrued withholding taxes, certain non-recurring and other discrete items and the inability to record a tax benefit for pre-tax losses in the U.S. and certain foreign countries to the extent not offset by other categories of income in those jurisdictions.

In the first six months of 2007, net pre-tax other comprehensive income primarily attributable to the re-measurement of pension and OPEB obligations in the U.S. and Germany, effectively offset approximately \$77 million of pre-tax operating losses in the U.S. and Germany. Accordingly, the Company's current period valuation allowance was reduced resulting in a benefit of \$27 million allocated to the current year loss from continuing operations. The provision for income taxes for the six-month period ended June 30, 2007 also includes an expense of \$15 million reflecting an increase in unrecognized tax benefits as a result of certain positions taken in tax returns filed in the second quarter, as well as those expected to be taken in future tax returns. Non-recurring and other discrete items recorded in the six-month period ended June 30, 2006 included a \$14 million benefit to restore net deferred tax assets associated with the Company's operations in Brazil.

Liquidity

Overview

The Company's cash and liquidity needs are impacted by the level, variability, and timing of its customers' worldwide vehicle production, which varies based on economic conditions and market shares in major

markets. The Company's intra-year needs are impacted by seasonal effects in the industry, such as the shutdown of operations for two weeks in July, the subsequent ramp-up of new model production and the additional one-week shutdown in December by its primary North American customers. These seasonal effects normally require use of liquidity resources during the first and third quarters.

The Company believes that cash generated from operations and its available borrowing capacity under current agreements will be adequate to fund working capital requirements, restructuring activities, capital expenditures, debt service requirements and technology investments. However, the Company's ability to continue to fund these items may be adversely affected by many factors including, but not limited to, general economic conditions, specific industry conditions, financial markets, competitive factors and legislative and regulatory changes. Therefore, assurance cannot be provided that Visteon will generate sufficient cash flow from operations or that available borrowings will be sufficient to enable the Company to meet its liquidity needs.

Credit Ratings

Moody's current corporate rating of the company is B3 and SGL rating is 3. The rating on senior unsecured debt is Caa2 with a negative outlook. The current corporate rating of the Company by S&P is B and the short term liquidity rating is B-3, with a negative outlook on the rating. Fitch's current rating on the Company's senior secured debt is B with a negative outlook.

Any further downgrade in the Company's credit ratings could reduce its access to capital, increase the costs of future borrowings, and increase the possibility of more restrictive terms and conditions contained in any new or replacement financing arrangements or commercial agreements or payment terms with suppliers.

Cash and Equivalents

As of June 30, 2007 and December 31, 2006, the Company's consolidated cash balances totaled \$1.5 billion and \$1.1 billion, respectively. As the Company's operating profitability has become more concentrated with its foreign subsidiaries and joint ventures, the Company's cash balances located outside the U.S. continue to be significant. The Company's ability to efficiently access cash balances in certain foreign jurisdictions is subject to local regulatory and statutory requirements.

Asset Securitization

The Company transfers certain customer trade account receivables originating from subsidiaries located in Germany, Portugal, Spain, France and the U.K. ("Sellers") pursuant to a European securitization agreement ("European Securitization"). The European Securitization agreement extends until August 2011 and provides up to \$325 million in funding from the sale of receivables originated by the Sellers and transferred to Visteon Financial Centre P.L.C. (the "Transferor"). The Transferor is a bankruptcy-remote qualifying special purpose entity. Receivables transferred from the Sellers are funded through cash obtained from the issuance of variable loan notes to third-party lenders and through subordinated loans obtained from a wholly-owned subsidiary of the Company, which represent the Company's retained interest in the receivables transferred.

Availability of funding under the European Securitization depends primarily upon the amount of trade account receivables, reduced by outstanding borrowings under the program and other characteristics of those receivables that affect their eligibility (such as bankruptcy or the grade of the obligor, delinquency and excessive concentration). As of June 30, 2007, approximately \$325 million of the Company's transferred receivables were considered eligible for borrowing under this facility, \$92 million was outstanding and \$233 million was available for funding.

Revolving Credit

The Company's Revolving Credit Agreement allows for available borrowings of up to \$350 million. The amount of availability at any time is dependent upon various factors, including outstanding letters of credit, the amount of eligible receivables, inventory and property and equipment. Borrowings under the Revolving Credit Agreement bear interest based on a variable rate interest option selected at the time of borrowing. The Revolving Credit Agreement expires on August 14, 2011.

As of June 30, 2007, there were no outstanding borrowings under the Revolving Credit Agreement. The Company had \$251 million of available borrowings under the facility after a reduction for \$99 million of obligations under letters of credit at June 30, 2007.

Obligations under the Revolving Credit Agreement are collateralized by a first-priority lien on certain assets of the Company and most of its domestic subsidiaries, including real property, accounts receivable, inventory, equipment and other tangible and intangible property, including the capital stock of nearly all direct and indirect domestic subsidiaries (other than those domestic subsidiaries the sole assets of which are capital stock of foreign subsidiaries), as well as a second-priority lien on substantially all other material tangible and intangible assets of the Company and most of its domestic subsidiaries which collateralize the Company's seven-year term loan agreement. The terms of the Revolving Credit Agreement limit the obligations collateralized by certain U.S. assets to ensure compliance with the Company's bond indenture.

Cash Flows

Operating Activities

Cash provided from operating activities was \$15 million during the six-months ended June 30, 2007, compared with \$76 million for the same period in 2006. The decrease is largely attributable to a higher net loss, as adjusted for non-cash items, an increase in Ford North American receivable terms from 22 days to 26 days, and incentive compensation payments in 2007, partially offset by the non-recurrence of the settlement of outstanding payable balances with ACH plants in 2006 and improved working capital.

Investing Activities

Cash used by investing activities was \$55 million during the six-months ended June 30, 2007, compared with \$172 million for the same period in 2006. The decrease in cash usage resulted principally from the proceeds from the sale of the chassis operations in 2007, as well as a reduction in capital expenditures, excluding capital leases. The Company's capital expenditures, excluding capital leases, in the six-months ended June 30, 2007 totaled \$144 million, compared with \$183 million for the same period in 2006.

Financing Activities

Cash provided from financing activities totaled \$444 million in the six-months ended June 30, 2007, compared with \$43 million for the same period in 2006. The cash proceeds in 2007 reflect the proceeds from the Company's \$500 million addition to its seven-year term loan, partially offset by reductions in affiliate debt and book overdrafts. Cash provided from financing activities increased by \$401 million when compared to the six-months ended June 30, 2006, which included proceeds from the Company's \$800 million seven-year term loan, partially offset by repayment of \$347 million on the Company's revolving credit facility, repayment and termination of the Company's \$241 million five-year term loan, and repurchase of \$150 million of its outstanding 8.25% interest bearing notes due August 1, 2010.

Other Debt and Capital Structure

Additional information related to the Company's other debt and related agreements is set forth in Note 14 "Debt", to the consolidated financial statements included herein under Item 1.

Covenants and Restrictions of Credit Agreements

Subject to limited exceptions, each of the Company's direct and indirect, existing and future, domestic subsidiaries as well as certain foreign subsidiaries, acts as guarantor under its \$1.5 billion term loan credit agreement. The obligations under the credit agreement are secured by a first-priority lien on certain assets of the Company and most of its domestic subsidiaries, including intellectual property, intercompany debt, the capital stock of nearly all direct and indirect domestic subsidiaries as well as certain foreign subsidiaries, and 65% of the stock of certain foreign subsidiaries, as well as a second-priority lien on substantially all other material tangible and intangible assets of the Company and most of its domestic subsidiaries.

The obligations under the revolving credit agreement are secured by a first-priority lien on certain assets of the Company and most of its domestic subsidiaries, including real property, accounts receivable, inventory, equipment and other tangible and intangible property, including the capital stock of nearly all direct and indirect domestic subsidiaries (other than those domestic subsidiaries the sole assets of which are capital stock of foreign subsidiaries) and certain foreign subsidiaries, as well as a second-priority lien on substantially all other material tangible and intangible assets of the Company and most of its domestic subsidiaries which secure the Company's term loan credit agreement.

The terms relating to both credit agreements specifically limit the obligations to be secured by a security interest in certain U.S. manufacturing properties and intercompany indebtedness and capital stock of U.S. manufacturing subsidiaries in order to ensure that, at the time of any borrowing under the Credit Agreement and other credit lines, the amount of the applicable borrowing which is secured by such assets (together with other borrowings which are secured by such assets and obligations in respect of certain sale-leaseback transactions) do not exceed 15% of Consolidated Net Tangible Assets (as defined in the indenture applicable to the Company's outstanding bonds and debentures).

The credit agreements contain, among other things, mandatory prepayment provisions for certain asset sales, recovery events, equity issuances and debt incurrence, covenants, representations and warranties and events of default customary for facilities of this type. Such covenants include certain restrictions on the incurrence of additional indebtedness, liens, acquisitions and other investments, mergers, consolidations, liquidations and dissolutions, sales of assets, dividends and other repurchases in respect of capital stock, voluntary prepayments of certain other indebtedness, capital expenditures, transactions with affiliates, changes in fiscal periods, hedging arrangements, lines of business, negative pledge clauses, subsidiary distributions and the activities of certain holding company subsidiaries, subject to certain exceptions.

Under certain conditions, amounts outstanding under the credit agreements may be accelerated. Bankruptcy and insolvency events with respect to us or certain of our subsidiaries will result in an automatic acceleration of the indebtedness under the credit agreements. Subject to notice and cure periods in certain cases, other events of default under the credit agreements will result in acceleration of indebtedness under the credit agreements at the option of the lenders. Such other events of default include failure to pay any principal, interest or other amounts when due, failure to comply with covenants, breach of representations or warranties in any material respect, non-payment or acceleration of other material debt, entry of material judgments not covered by insurance, or a change of control of the Company.

At June 30, 2007, the Company was in compliance with applicable covenants and restrictions, as amended, although there can be no assurance that the Company will remain in compliance with such covenants in the future. If the Company was to violate a covenant and not obtain a waiver, the credit agreements could be terminated and amounts outstanding would be accelerated. The Company can provide no assurance that, in such event, it would have access to sufficient liquidity resources to repay such amounts.

Off-Balance Sheet Arrangements

Guarantees

The Company has guaranteed certain Tier 2 suppliers' debt and lease obligations and other third-party service providers' obligations to ensure the continued supply of essential parts. These guarantees have not, nor does the Company expect they are reasonably likely to have, a material current or future effect on the Company's financial position, results of operations or cash flows.

Asset Securitization

Transfers under the European Securitization, for which the Company receives consideration other than a beneficial interest, are accounted for as "true sales" under the provisions of Statement of Financial Accounting Standards No. 140 ("SFAS 140"), "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities" and are removed from the balance sheet. Transfers under the European Securitization, for which the Company receives a beneficial interest are not removed from the balance sheet and total \$551 million and \$482 million as of June 30, 2007 and December 31, 2006, respectively. Such amounts are recorded at fair value and are subordinated to the interests of the third-party lenders. Securities representing the Company's retained interests are accounted for as trading securities under Statement of Financial Accounting Standards No. 115 "Accounting for Certain Investments in Debt and Equity Securities."

Availability of funding under the European Securitization depends primarily upon the amount of trade account receivables, reduced by outstanding borrowings under the program and other characteristics of those receivables that affect their eligibility (such as bankruptcy or the grade of the obligor, delinquency and excessive concentration). As of June 30, 2007, approximately \$325 million of the Company's transferred receivables were considered eligible for borrowing under this facility, \$92 million was outstanding and \$233 million was available for funding. The Company recorded losses of \$3 million and \$4 million for the three and six-month periods ended June 30, 2007 related to receivables sold under the European Securitization.

The table below provides a reconciliation of the change in interests in account receivables transferred for the period.

	Three-Months Ended June 30, 2007	Six-Months Ended June 30, 2007
	(Dollars in Millions)	
Beginning balance	\$ 574	\$ 482
Receivables transferred	865	1,889
Proceeds from new securitizations	—	(41)
Proceeds from collections reinvested in securitization	(116)	(257)
Cash flows received on interests received	(772)	(1,522)
Ending balance	\$ 551	\$ 551

New Accounting Standards

In February 2007, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 159 ("SFAS 159"), "The Fair Value Option for Financial Assets and Financial Liabilities — Including an Amendment of FASB Statement No. 115." SFAS 159 permits measurement of financial instruments and certain other items at fair value. SFAS 159 is designed to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS 159 is effective as of the beginning of the first fiscal year after November 15, 2007. The Company is currently evaluating the impact of this statement on its consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements." This statement, which becomes effective January 1, 2008, defines fair value, establishes a framework for measuring fair value and expands disclosure requirements regarding fair value measurements. The Company is currently evaluating the impact of this statement on its consolidated financial statements.

In March 2006, the FASB issued Statement of Financial Accounting Standards No. 156 ("SFAS 156"), "Accounting for Servicing of Financial Assets." This statement amends Statement of Financial Accounting Standards No. 140, ("SFAS 140"), "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities" with respect to the accounting for separately recognized servicing assets and servicing liabilities. The Company adopted SFAS 156 as of January 1, 2007 without a material impact on its consolidated financial statements.

In February 2006, the FASB issued Statement of Financial Accounting Standards No. 155 ("SFAS 155"), "Accounting for Certain Hybrid Financial Instruments" which amends Statement of Financial Accounting Standards No. 133 ("SFAS 133"), "Accounting for Derivatives Instruments and Hedging Activities" and SFAS 140. SFAS 155 amends SFAS 133 to narrow the scope exception for interest-only and principal only strips on debt instruments to include only such strips representing rights to receive a specified portion of the contractual interest or principle cash flows. The Company adopted SFAS 155 as of January 1, 2007 without a material impact on its consolidated financial statements.

In June 2006, the FASB issued FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109." FIN 48 clarifies the accounting for uncertainty in income taxes recognized in accordance with Statement of Financial Accounting Standards No. 109 ("SFAS 109") "Accounting for Income Taxes" and prescribes a recognition threshold and measurement process for recording in the financial statements tax positions taken or expected to be taken in a tax return. The evaluation of a tax position under FIN 48 is a two-step process. The first step requires an entity to determine whether it is more likely than not that a tax position will be sustained upon examination based on the technical merits of the position. For those positions that meet the more likely than not recognition threshold, the second step requires measurement of the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. The Company adopted the provisions of FIN 48 effective January 1, 2007, without a material impact to the Company's consolidated financial statements.

Cautionary Statements Regarding Forward-Looking Information

Certain statements contained or incorporated in this Interim Report on Form 10-Q which are not statements of historical fact constitute "Forward-Looking Statements" within the meaning of the Private Securities Litigation Reform Act of 1995 (the "Reform Act"). Forward-looking statements give current expectations or forecasts of future events. Words such as "anticipate", "expect", "intend", "plan", "believe", "seek", "estimate" and other words and terms of similar meaning in connection with discussions of future operating or financial performance signify forward-looking statements. These statements reflect the Company's current views with respect to future events and are based on assumptions and estimates, which are subject to risks and uncertainties including those discussed in Item 1A under the heading "Risk Factors" in the Company's Annual Report on Form 10-K for fiscal year 2006 and elsewhere in this report. Accordingly, the reader should not place undue reliance on these forward-looking statements. Also, these forward-looking statements represent the Company's estimates and assumptions only as of the date of this report. The Company does not intend to update any of these forward-looking statements to reflect circumstances or events that occur after the statement is made. The Company qualifies all of its forward-looking statements by these cautionary statements.

The reader should understand that various factors, in addition to those discussed elsewhere in this document, could affect the Company's future results and could cause results to differ materially from those expressed in such forward-looking statements, including:

- Visteon's ability to satisfy its future capital and liquidity requirements; Visteon's ability to access the credit and capital markets at the times and in the amounts needed and on terms acceptable to Visteon, which is influenced by Visteon's credit ratings (which have declined in the past and could decline further in the future); Visteon's ability to comply with covenants applicable to it; and the continuation of acceptable supplier payment terms.
- Visteon's ability to satisfy its pension and other postemployment benefit obligations, and to retire outstanding debt and satisfy other contractual commitments, all at the levels and times planned by management.
- Visteon's ability to access funds generated by its foreign subsidiaries and joint ventures on a timely and cost effective basis.
- Changes in the operations (including products, product planning and part sourcing), financial condition, results of operations or market share of Visteon's customers, particularly its largest customer, Ford.
- Changes in vehicle production volume of Visteon's customers in the markets where we operate, and in particular changes in Ford's North American and European vehicle production volumes and platform mix.
- Visteon's ability to profitably win new business from customers other than Ford and to maintain current business with, and win future business from, Ford, and, Visteon's ability to realize expected sales and profits from new business.
- Increases in commodity costs or disruptions in the supply of commodities, including steel, resins, aluminum, copper, fuel and natural gas.
- Visteon's ability to generate cost savings to offset or exceed agreed upon price reductions or price reductions to win additional business and, in general, improve its operating performance; to achieve the benefits of its restructuring actions; and to recover engineering and tooling costs.
- Visteon's ability to compete favorably with automotive parts suppliers with lower cost structures and greater ability to rationalize operations; and to exit non-performing businesses on satisfactory terms, particularly due to limited flexibility under existing labor agreements.
- Restrictions in labor contracts with unions that restrict Visteon's ability to close plants, divest unprofitable, noncompetitive businesses, change local work rules and practices at a number of facilities and implement cost-saving measures.
- The costs and timing of facility closures or dispositions, business or product realignments, or similar restructuring actions, including potential impairment or other charges related to the implementation of these actions or other adverse industry conditions and contingent liabilities.
- Significant changes in the competitive environment in the major markets where Visteon procures materials, components or supplies or where its products are manufactured, distributed or sold.
- Legal and administrative proceedings, investigations and claims, including shareholder class actions, SEC inquiries, product liability, warranty, environmental and safety claims, and any recalls of products manufactured or sold by Visteon.
- Changes in economic conditions, currency exchange rates, changes in foreign laws, regulations or trade policies or political stability in foreign countries where Visteon procures materials, components or supplies or where its products are manufactured, distributed or sold.
- Shortages of materials or interruptions in transportation systems, labor strikes, work stoppages or other interruptions to or difficulties in the employment of labor in the major markets where Visteon purchases materials, components or supplies to manufacture its products or where its products are manufactured, distributed or sold.

- Changes in laws, regulations, policies or other activities of governments, agencies and similar organizations, domestic and foreign, that may tax or otherwise increase the cost of, or otherwise affect, the manufacture, licensing, distribution, sale, ownership or use of Visteon's products or assets.
- Possible terrorist attacks or acts of war, which could exacerbate other risks such as slowed vehicle production, interruptions in the transportation system, or fuel prices and supply.
- The cyclical and seasonal nature of the automotive industry.
- Visteon's ability to comply with environmental, safety and other regulations applicable to it and any increase in the requirements, responsibilities and associated expenses and expenditures of these regulations.
- Visteon's ability to protect its intellectual property rights, and to respond to changes in technology and technological risks and to claims by others that Visteon infringes their intellectual property rights.
- Visteon's ability to provide various employee and transition services to Automotive Components Holdings, LLC in accordance with the terms of existing agreements between the parties, as well as Visteon's ability to recover the costs of such services.
- The availability of Visteon's federal net operating loss carryforward and other federal income tax attributes may be eliminated or significantly limited if a change of ownership of Visteon, within the meaning of Section 382 of the Internal Revenue Code, were to occur.
- Visteon's ability to quickly and adequately remediate control deficiencies in its internal control over financial reporting.
- Other factors, risks and uncertainties detailed from time to time in Visteon's Securities and Exchange Commission filings.

Other Financial Information

PricewaterhouseCoopers LLP, an independent registered public accounting firm, performed a limited review of the financial data presented on page 3 through 29 inclusive. The review was performed in accordance with standards for such reviews established by the Public Company Accounting Oversight Board (United States). The review did not constitute an audit; accordingly, PricewaterhouseCoopers LLP did not express an opinion on the aforementioned data. Their review report included herein is not a "report" within the meaning of Sections 7 and 11 of the Securities Act of 1933 and the independent registered public accounting firm's liability under Section 11 does not extend to it.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risks from changes in currency exchange rates, interest rates and certain commodity prices. To manage these risks, the Company uses a combination of fixed price contracts with suppliers, cost sourcing arrangements with customers and financial derivatives. The Company maintains risk management controls to monitor the risks and the related hedging. Derivative positions are examined using analytical techniques such as market value and sensitivity analysis. Derivative instruments are not used for speculative purposes, as per clearly defined risk management policies.

Foreign Currency Risk

The Company's net cash inflows and outflows exposed to the risk of changes in exchange rates arise from the sale of products in countries other than the manufacturing source, foreign currency denominated supplier payments, debt and other payables, subsidiary dividends and investments in subsidiaries. The Company's on-going solution is to reduce the exposure through operating actions.

The Company's primary foreign exchange operating exposures include the Euro, Korean Won, Czech Koruna and Mexican Peso. Because of the mix between the Company's costs and revenues in various regions, operating results are exposed generally to weakening of the Euro and to strengthening of the Korean Won, Czech Koruna and Mexican Peso. For transactions in these currencies, the Company utilizes a strategy of partial coverage. As of June 30, 2007, the Company's coverage for projected transactions in these currencies was approximately 70% for 2007.

As of June 30, 2007 and December 31, 2006, the net fair value of foreign currency forward and option contracts was an asset of \$1 million and \$8 million, respectively. The hypothetical pre-tax gain or loss in fair value from a 10% favorable or adverse change in quoted currency exchange rates would be approximately \$58 million and \$76 million as of June 30, 2007 and December 31, 2006, respectively. These estimated changes assume a parallel shift in all currency exchange rates and include the gain or loss on financial instruments used to hedge loans to subsidiaries. Because exchange rates typically do not all move in the same direction, the estimate may overstate the impact of changing exchange rates on the net fair value of the Company's financial derivatives. It is also important to note that gains and losses indicated in the sensitivity analysis would generally be offset by gains and losses on the underlying exposures being hedged.

Interest Rate Risk

The Company monitors its exposure to interest rate risk principally in relation to fixed-rate and variable-rate debt. The Company uses derivative financial instruments to reduce exposure to fluctuations in interest rates in connection with its risk management policies. Accordingly, the Company has entered into certain fixed-for-variable and variable-for-fixed interest rate swap agreements to manage such interest rate exposures. The Company has entered into interest rate swaps for a portion of the 8.25% notes due August 1, 2010 (\$125 million) and a portion of the 7.00% notes due March 10, 2014 (\$225 million). These interest rate swaps effectively convert the designated portions of these notes from fixed interest rate to variable interest rate instruments. Additionally, the Company has entered into interest rate swaps for a portion of the \$1.5 billion term loan due in 2013 (\$200 million), effectively converting the designated portion of this loan from a variable interest rate to a fixed interest rate instrument. Approximately 34% and 43% of the Company's borrowings were effectively on a fixed rate basis as of June 30, 2007 and December 31, 2006, respectively.

As of June 30, 2007 and December 31, 2006, the net fair value of interest rate swaps was a liability of \$20 million and \$18 million, respectively. The potential loss in fair value of these swaps from a hypothetical 50 basis point adverse change in interest rates would be approximately \$4 million as of June 30, 2007 and December 31, 2006. The annual increase in pre-tax interest expense from a hypothetical 50 basis point adverse change in variable interest rates (including the impact of interest rate swaps) would be approximately \$9 million and \$6 million as of June 30, 2007 and December 31, 2006, respectively. This analysis may overstate the adverse impact on net interest expense because of the short-term nature of the Company's interest bearing investments.

Commodity Risk

The Company's exposure to market risks from changes in the price of commodities including steel products, plastic resins, aluminum, natural gas and diesel fuel are not hedged due to a lack of acceptable hedging instruments in the market. The Company's exposures to price changes in such commodities are attempted to be addressed through negotiations with the Company's suppliers and customers, although there can be no assurance that the Company will not have to absorb any or all price increases and/or surcharges. When and if acceptable hedging instruments are available in the market, management will determine at that time if financial hedging is appropriate, depending upon the Company's exposure level at that time, the effectiveness of the financial hedge and other factors.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports the Company files with the SEC under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

The Company's management carried out an evaluation, under the supervision and with the participation of the CEO and the CFO, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2007. Based upon that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the quarter ended June 30, 2007 that have materially effected, or are reasonably likely to materially effect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See the information above under Note 19. "Commitments and Contingencies," to the consolidated financial statements which is incorporated herein by reference.

ITEM 1A. RISK FACTORS

For information regarding factors that could affect the Company's results of operations, financial condition and liquidity, see the risk factors discussed in Part I, "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. See also, "Cautionary Statements Regarding Forward-Looking Information" included in Part I, Item 2 of this Quarterly Report on Form 10-Q.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Annual Meeting of Stockholders was held on May 16, 2007. At the meeting, the following matters were submitted to a vote of the stockholders:

- | (1) | The election of three directors to serve for a one-year term beginning at the 2007 annual meeting of stockholders and expiring at the 2008 annual meeting of stockholders. | <table border="0"> <thead> <tr> <th style="text-align: center;">Nominee</th> <th style="text-align: center;">For</th> <th style="text-align: center;">Withheld</th> </tr> </thead> <tbody> <tr> <td>Patricia L. Securities and Exchange Commission
100 F Street, N.E.
Washington, DC 20549

Commissioners:

We are aware that our report dated August 8, 2007 on our review of interim financial information of Visteon Corporation (the "Company") for the three and six month periods ended June 30, 2007 and June 30, 2006 included in the Company's quarterly report on Form 10-Q for the quarter ended June 30, 2007 is incorporated by reference in its Registration Statements on Form S-3 (No. 333-85406) dated April 2, 2002, and Form S-8 (Nos. 333-39756, 333-39758, 333-40202, 333-87794, 333-115463 and 333-145106) dated June 21, 2000, June 21, 2000, June 26, 2000, May 8, 2002, May 13, 2004 and August 3, 2007, respectively.

Very truly yours,

/s/ PricewaterhouseCoopers LLP

PricewaterhouseCoopers LLP

CERTIFICATION PURSUANT TO EXCHANGE ACT RULE 13a-14(a)

I, Michael F. Johnston, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Visteon Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO EXCHANGE ACT RULE 13a-14(a)

I, William G. Quigley III, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Visteon Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
