**NEWS RELEASE****Visteon Announces First-Quarter 2021 Results**

- ***\$746 million Q1 net sales; 14% increase Y/Y excluding currency***
- ***Net income of \$16 million in Q1 or \$0.56 per diluted share***
- ***Adjusted EBITDA of \$64 million, 8.6% of sales***
- ***\$1.8 billion in new business wins***
  - ***First microZone™ display award with large North American OEM***
  - ***Two significant SmartCore™ wins with global OEMs***

VAN BUREN TOWNSHIP, Mich., April 29, 2021 — Visteon Corporation (NASDAQ: VC) today announced first-quarter net sales of \$746 million, representing a year-over-year increase of 14% excluding the impact of currency. Visteon's sales performance represented a 14% growth-over-market compared to the production volumes of its customers.

Gross margin in the first quarter was \$73 million, and net income attributable to Visteon was \$16 million or \$0.56 per diluted share. Adjusted EBITDA, a non-GAAP measure as defined below, was \$64 million for the first quarter or 8.6% of sales, an increase of \$31 million or 350 basis points compared to the prior year. Adjusted EBITDA margin benefited from higher volumes as well as cost improvements initiated throughout 2020, partially offset by incremental supply chain costs that impacted margins by approximately 190 basis points.

During the first quarter, the company won \$1.8 billion in new business, including its first win for microZone™ display technology. MicroZone™ is the first display technology in the industry to offer premium optical performance without sacrificing reliability or lifespan, thereby providing OEMs a superior alternative to OLED displays. Also notable is the company's continued SmartCore™ domain controller momentum with approximately \$850 million total SmartCore™ wins in the first quarter.

The company launched six new products in the first quarter, with more than 50 total launches expected for the full year. Most first-quarter launches were for digital clusters, which are based on Visteon's industry-leading platform that enables quick market introduction of this technology across multiple OEMs. Highlights include a 12-inch digital cluster for Nissan, a multi-display digital cluster for Jiangling Motors in China, and a 10-inch digital display for Hyundai.

Cash from operations for the first three months was \$11 million and capital expenditures were \$18 million. Adjusted free cash flow, a non-GAAP financial measure as defined below, for the first three months of 2021 was positive \$9 million, compared to a use of cash of \$14 million for the same period in 2020. The company ended the first quarter with cash of \$486 million and debt of \$349 million, representing a net cash position of \$137 million.

"Following our strong performance in the second half of 2020, Visteon continued to execute its growth strategy in the first quarter of 2021," said President and CEO Sachin Lawande. "The \$1.8 billion of new business booked in the first quarter shows the strength of our core products and their alignment with the key industry trends of digitalization and electrification."

### *Use of Non-GAAP Financial Information*

Because not all companies use identical calculations, adjusted EBITDA, adjusted net income, adjusted EPS, free cash flow and adjusted free cash flow used throughout this press release may not be comparable to other similarly titled measures of other companies.

In order to provide the forward-looking non-GAAP financial measures for full-year 2021, the company provides reconciliations to the most directly comparable GAAP financial measures on the subsequent slides. The provision of these comparable GAAP financial measures is not intended to indicate that the company is explicitly or implicitly providing projections on those GAAP financial measures, and actual results for such measures are likely to vary from those presented. The reconciliations include all information reasonably available to the company at the date of this press release and the adjustments that management can reasonably predict.

### *Forward-looking Information*

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. The words "will," "may," "designed to," "outlook," "believes," "should," "anticipates," "plans," "expects," "intends," "estimates," "forecasts" and similar expressions identify certain of these forward-looking statements. Forward-looking statements are not guarantees of future results and conditions but rather are subject to various factors, risks and uncertainties that could cause our actual results to differ materially from those expressed in these forward-looking statements, including, but not limited to:

- continued and future impacts of the coronavirus (COVID-19) pandemic on our financial condition and business operations including global supply chain disruptions, market downturns, reduced consumer demand and new government actions or restrictions;
- significant or prolonged shortage of critical components from our suppliers, including but not limited to semiconductors, and particularly those who are our sole or primary sources;
- conditions within the automotive industry, including (i) the automotive vehicle production volumes and schedules of our customers, (ii) the financial condition of our customers and the effects of any restructuring or reorganization plans that may be undertaken by our customers, including work stoppages at our customers, and (iii) possible disruptions in the supply of commodities to us or our customers due to financial distress, work stoppages, natural disasters or civil unrest;
- our ability to execute on our transformational plans and cost-reduction initiatives in the amounts and on the timing contemplated;
- our ability to satisfy future capital and liquidity requirements; including our ability to access the credit and capital markets at the times and in the amounts needed and on terms acceptable to us; our ability to comply with financial and other covenants in our credit agreements; and the continuation of acceptable supplier payment terms;
- our ability to access funds generated by foreign subsidiaries and joint ventures on a timely and cost-effective basis;
- general economic conditions, including changes in interest rates and fuel prices; the timing and expenses related to internal restructurings, employee reductions, acquisitions or dispositions and the effect of pension and other post-employment benefit obligations;
- increases in raw material and energy costs and our ability to offset or recover these costs; increases in our warranty, product liability and recall costs or the outcome of legal or regulatory proceedings to which we are or may become a party;
- changes in laws, regulations, policies or other activities of governments, agencies and similar organizations, domestic and foreign, that may tax or otherwise increase the cost of, or otherwise affect, the manufacture, licensing, distribution, sale, ownership or use of our products or assets; and
- those factors identified in our filings with the SEC (including our Annual Report on Form 10-K for the fiscal year ended December 31, 2020, as updated by our subsequent filings with the Securities and Exchange Commission).

Caution should be taken not to place undue reliance on our forward-looking statements, which represent our view only as of the date of this release, and which we assume no obligation to update. The financial results presented herein are preliminary and unaudited; final financial results will be included in the company's Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2021. New business wins and re-wins do not represent firm orders or firm commitments from customers, but are based on various assumptions, including the timing and duration of product launches, vehicle production levels, customer price reductions and currency exchange rates.

**Adjusted EBITDA:** Adjusted EBITDA is presented as a supplemental measure of the Company's performance that management believes is useful to investors because the excluded items may vary significantly in timing or amounts and/or may obscure trends useful in evaluating and comparing the Company's operating activities across reporting periods. The Company defines adjusted EBITDA as net income attributable to the Company adjusted to eliminate the impact of depreciation and amortization, restructuring expense, net interest expense, loss on divestiture, equity in net income of non-consolidated affiliates, gain on non-consolidated affiliate transactions, provision for income taxes, discontinued operations, net income attributable to non-controlling interests, non-cash stock-based compensation expense, and other gains and losses not reflective of the Company's ongoing operations. Because not all companies use identical calculations, this presentation of adjusted EBITDA may not be comparable to similarly titled measures of other companies.

Adjusted EBITDA	<u>\$ 64</u>	<u>\$ 33</u>

Adjusted EBITDA is not a recognized term under U.S. GAAP and does not purport to be a substitute for net income as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. Adjusted EBITDA has limitations as an analytical tool and is not intended to be a measure of cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. In addition, the Company uses adjusted EBITDA (i) as a factor in incentive compensation decisions, (ii) to evaluate the effectiveness of the Company's business strategies, and (iii) because the Company's credit agreements use similar measures for compliance with certain covenants.

**Free Cash Flow and Adjusted Free Cash Flow:** Free cash flow and adjusted free cash flow are presented as supplemental measures of the Company's liquidity that management believes are useful to investors in analyzing the Company's ability to service and repay its debt. The Company defines free cash flow as cash flow provided from operating activities less capital expenditures, including intangibles. The Company defines adjusted free cash flow as cash flow provided from operating activities less capital expenditures, including intangibles as further adjusted for restructuring related payments. Because not all companies use identical calculations, this presentation of free cash flow and adjusted free cash flow may not be comparable to other similarly titled measures of other companies.

Free cash flow and adjusted free cash flow are not recognized terms under U.S. GAAP and do not purport to be a substitute for cash flows from operating activities as a measure of liquidity. Free cash flow and adjusted free cash flow have limitations as analytical tools as they do not reflect cash used to service debt and do not reflect funds available for investment or other discretionary uses. In addition, the Company uses free cash flow and adjusted free cash flow (i) as factors in incentive compensation decisions and (ii) for planning and forecasting future periods.

**Adjusted Net Income (Loss) and Adjusted Earnings (Loss) Per Share:** Adjusted net income and adjusted earnings per share are presented as supplemental measures that management believes are useful to investors in analyzing the Company's profitability, providing comparability between periods by excluding certain items that may not be indicative of recurring business operating results. The Company believes management and investors benefit from referring to these supplemental measures in assessing company performance and when planning, forecasting and analyzing future periods. The Company defines adjusted net income as net income attributable to Visteon adjusted to eliminate the impact of restructuring, net, loss on divestiture, gain on non-consolidated affiliate transactions, discontinued operations, other gains and losses not reflective of the Company's ongoing operations and related tax effects. The Company defines adjusted earnings per share as adjusted net income divided by diluted shares. Because not all companies use identical calculations, this presentation of adjusted net income and adjusted earnings per share may not be comparable to other similarly titled measures of other companies.

Adjusted net income and adjusted earnings per share are not recognized terms under U.S. GAAP and do not purport to be a substitute for profitability. Adjusted net income and adjusted earnings per share have limitations as analytical tools as they do not consider certain restructuring and transaction-related payments and/or expenses. In addition, the Company uses adjusted net income and adjusted earnings per share for internal planning and forecasting purposes.
