ABOUT THIS PROSPECTUS SUPPLEMENT

This document consists of two parts. The first part is this prospectus supplement, which describes the specific terms of this offering. The second part is the accompanying prospectus, which describes more general information, some of which may not apply to this offering. You should read both this prospectus supplement and the accompanying prospectus, together with the documents incorporated by reference and the additional information described below under the heading “Where You Can Find More Information.”

If the description of the offering varies between this prospectus supplement and the accompanying prospectus, you should rely on the information in this prospectus supplement.

Any statement made in this prospectus supplement or in a document incorporated or deemed to be incorporated by reference in this prospectus supplement will be deemed to be modified or superseded for purposes of this prospectus supplement to the extent that a statement contained in this prospectus supplement or in any other subsequently filed document that is also incorporated or deemed to be incorporated by reference in this prospectus supplement modifies or supersedes that statement. Any statement so modified or superseded will not be deemed, except as so modified or superseded, to constitute a part of this prospectus supplement. See “Incorporation of Certain Documents By Reference” in this prospectus supplement.

Unless the context otherwise requires or as otherwise expressly stated, references in this prospectus to “Visteon,” “we,” “us” and “our” and similar terms refer to Visteon Corporation and its direct and indirect subsidiaries on a consolidated basis. References to our “common stock” or our “preferred stock” refer to the common stock or preferred stock of Visteon Corporation.

We emerged from bankruptcy protection and adopted fresh-start accounting on October 1, 2010 (the “Effective Date”). We became a new entity for financial reporting purposes as of the Effective Date. Therefore, the consolidated financial statements for the reporting entity subsequent to the Effective Date (the “Successor”) are not comparable to the consolidated financial statements for the reporting entity prior to the Effective Date (the “Predecessor”). Additional details regarding the adoption of fresh-start accounting are included in our 2011 Annual Report on Form 10-K.

RISK FACTORS

Investing in our common stock involves risk. If any of the risks described below or in any document incorporated by reference herein actually occurs, our business, financial condition and results of operations would likely suffer. In that event, the market price of our common stock could decline and an investor in our common stock could lose all or part of their investment. You should consider carefully all of the information set forth in this prospectus and the documents incorporated by reference herein, and, in particular, the risk factors described in our Annual Report on Form 10-K for the year ended December 31, 2011 filed with the SEC, which is incorporated by reference in this prospectus. The risks described in any document incorporated by reference herein are not the only ones we face, but are considered to be the most material. There may be other unknown or unpredictable economic, business, competitive, regulatory or other factors that could have material adverse effects on our future results. Past financial performance may not be a reliable indicator of future performance and historical trends should not be used to anticipate results or trends in future periods.

Risks Related to Fresh Start Accounting

Information contained in our historical financial statements will not be comparable to the information contained in our financial statements after the application of fresh start accounting.

Our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 reflects the consummation of the Plan of Reorganization and the adoption of fresh start accounting. As a result, our financial statements from and after the Effective Date will not be comparable to our financial statements for prior periods. This will make it difficult for stockholders to assess our performance in relation to prior periods.

Risks Related to Ownership of Our Common Stock

There may be future sales or other dilution of our equity, which may adversely affect the market price of our common stock.

We are not restricted from issuing additional common stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. The issuance of any additional shares of common stock or of preferred stock or convertible securities or the exercise of such securities could be substantially dilutive to holders of our common stock. Holders of our shares of common stock have no preemptive rights that entitle holders to purchase their pro rata share of any offering of shares of any class or series.

The market price of our common stock could decline as a result of sales of shares of our common stock made after this offering or the perception that such sales could occur. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, our shareholders bear the risk of our future offerings reducing the market price of our common stock and diluting their stock holdings in us.

The market price of our common stock may be volatile, which could cause the value of your investment to decline.

Numerous factors, including many over which we have no control, may have a significant impact on the market price of our common stock. These risks include those described or referred to in this “Risk Factors” section and in the other documents incorporated herein by reference as well as, among other things:

- our operating and financial performance and prospects;
- our ability to repay our debt;
- our access to financial and capital markets to refinance our debt or replace the existing credit facilities;
- investor perceptions of us and the industry and markets in which we operate;

[Table of Contents](#)

- our dividend policy;
- future sales of equity or equity-related securities;
- changes in earnings estimates or buy/sell recommendations by analysts; and
- general financial, domestic, economic and other market conditions.

Certain provisions of our corporate documents and the laws of the State of Delaware as well as change of control provisions in our debt and other agreements could delay or prevent a change of control, even if that change would be beneficial to stockholders, or could have a material negative impact on our business.

Certain provisions in our second amended and restated certificate of incorporation and credit facility agreements may have the effect of deterring transactions involving a change in control of us, including transactions in which stockholders might receive a premium for their shares.

Our second amended and restated certificate of incorporation provides for the issuance of up to 50,000,000 shares of preferred stock with such designations, rights and preferences as may be determined from time to time by our board of directors. The authorization of preferred shares empowers our board of directors, without further stockholder approval, to issue preferred shares with dividend, liquidation, conversion, voting or other rights which could adversely affect the voting power or other rights of the holders of the common stock. If issued, the preferred stock could also dilute the holders of our common stock and could be used to discourage, delay or prevent a change of control.

If the common stock is listed on a national securities exchange or held of record by more than 2,000 holders, we will be subject to the anti-takeover provisions of the Delaware General Corporation Law, which could have the effect of delaying or preventing a change of control in some circumstances.

Our credit facility agreements contain provisions pursuant to which it is an event of default if any “person” or “group of persons” becomes the beneficial owner of more than 51% of our common stock. This could deter certain parties from seeking to acquire us and if any “person” or “group of persons” were to become the beneficial owner of more than 51% of our common stock, we would not be able to repay such indebtedness.

All of these factors could materially adversely affect the price of our common stock.

Our operations may be restricted by the terms of our credit facility agreements.

Our credit facility agreements include a number of significant restrictive covenants. These covenants could impair our financing and operational flexibility and make it difficult for us to react to market conditions and satisfy our ongoing capital needs and unanticipated cash requirements. Specifically, such covenants may restrict our ability and, if applicable, the ability of our subsidiaries to, among other things:

- incur additional debt;
- make certain investments;
- enter into certain types of transactions with affiliates;
- limit dividends or other payments by our restricted subsidiaries to us;
- use assets as security in other transactions;
- pay dividends on our common stock or repurchase our equity interests;
- sell certain assets or merge with or into other companies;
- guarantee the debts of others;
- enter into new lines of business;

Table of Contents

- make capital expenditures;
- prepay, redeem or exchange our debt; and
- form any joint ventures or subsidiary investments.

In addition, our credit facility agreements require us to periodically meet various financial ratios and tests, including maximum capital expenditure, maximum leverage, minimum excess availability and minimum interest coverage levels. These financial covenants and tests could limit our ability to react to market conditions or satisfy extraordinary capital needs and could otherwise restrict our financing and operations.

Our ability to comply with the covenants and other terms of our credit facility agreements will depend on our future operating performance. If we fail to comply with such covenants and terms, we would be required to obtain waivers from our lenders to maintain compliance under such agreements. If we are unable to obtain any necessary waivers and the debt under our credit facility agreements is accelerated, it would have a material adverse effect on our financial condition and future operating performance.

Offerings of debt, which would be senior to our common stock upon liquidation, or preferred equity securities which may be senior to our common stock for purposes of dividend distributions or upon liquidation, may adversely affect the market price of our common stock.

We may increase our capital resources or raise additional capital by making additional offerings of debt, such as senior or subordinated notes, or by offering preferred stock. Upon liquidation, holders of our debt securities and shares of preferred stock and lenders with respect to other borrowings would receive distributions of our available assets prior to the holders of our common stock. Additional equity offerings may dilute the holdings of our existing stockholders or reduce the market price of our common stock, or both. Holders of our common stock are not entitled to preemptive rights or other protections against dilution.

Our second amended and restated certificate of incorporation authorizes our board of directors to issue preferred stock without shareholder approval. Our board of directors also has the power, without shareholder approval, subject to our second amended and restated certificate of incorporation, to set the terms of any such preferred stock that may be issued, including the preferences over our common stock with respect to dividends or upon our dissolution, winding-up and liquidation and other terms. If we issue preferred stock in the future that has a preference over our common stock with respect to the payment of dividends or upon our liquidation, dissolution or winding up, the rights of holders of our common stock or the market price of our common stock could be adversely affected.

Risks Related to Our Business and Industry

Please see “Risk Factors” contained in our Annual Report on Form 10-K for the year ended December 31, 2011 and all subsequent filings under Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which are incorporated by reference herein, for additional risk factors related to investing in our common stock, our business and our industry.

FORWARD-LOOKING STATEMENTS

Certain statements contained or incorporated by reference in this prospectus which are not statements of historical fact constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements give current expectations or forecasts of future events. Words such as “anticipate,” “expect,” “intend,” “plan,” “believe,” “seek,” “estimate” and other words and terms of similar meaning in connection with discussions of future operating or financial performance signify forward-looking statements. We do not intend to update any of these forward-looking statements to reflect circumstances or events that occur after the date the statement is made and qualify all of our forward-looking statements by these cautionary statements.

You should understand that various factors, in addition to those discussed elsewhere in this document, could affect our future results and could cause results to differ materially from those expressed in such forward-looking statements, including:

- our ability to satisfy future capital and liquidity requirements, including our ability to access the credit and capital markets at the times and in the amounts needed and on terms acceptable to us, our ability to comply with applicable covenants and the continuation of acceptable supplier payment terms;

- our ability to compete favorably with automotive parts suppliers with lower cost structures and greater ability to rationalize operations; and to exit non-performing businesses on satisfactory terms, particularly due to limited flexibility under existing labor agreements;
- restrictions in labor contracts with unions that restrict our ability to close plants, divest unprofitable, noncompetitive businesses, change local work rules and practices at a number of facilities and implement cost-saving measures;

INDUSTRY AND MARKET DATA

Certain market and industry data included or incorporated by reference in this prospectus supplement and in the accompanying prospectus has been obtained from third party sources. We did not commission any publications or reports. Some data is also based on our good faith estimates, which are derived from our review of internal surveys and the third party sources referred to above. Independent industry publications and surveys generally state that they have obtained information from sources believed to be reliable but do not guarantee the accuracy and completeness of such information. Forecasts are particularly likely to be inaccurate, especially over long periods of time. While we are not aware of any misstatements regarding any market, industry or similar data presented herein, such data involves risks and uncertainties and is subject to change based on various factors, including those discussed under the headings “Risk Factors” and “Forward-Looking Statements” in this prospectus supplement as well as those listing under the headings “Risk Factors” and “Forward-Looking Statements” in the documents enumerated under the heading “Incorporation of Certain Information by Reference” in this prospectus supplement.

USE OF PROCEEDS

All of the shares of common stock offered by the Selling Stockholder pursuant to this prospectus supplement will be sold by the Selling Stockholder for its own account. We will not receive any proceeds from the sale of the shares by the Selling Stockholder.

SELLING STOCKHOLDER

On January 9, 2012, we entered into an agreement to contribute an aggregate of 1,453,489 shares of our common stock to the Selling Stockholder, a tax-qualified trust that holds the assets of a certain defined benefit pension plans of Visteon. The plans are subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The shares of common stock are held by the Visteon Defined Benefit Master Trust, One Village Center Drive, Van Buren, Michigan 48111, in a segregated investment account. Evercore Trust Company, N.A., in its capacity as an independent, third-party investment fiduciary with respect to the assets held in the segregated investment account, has been appointed as independent investment manager to direct the disposition of the shares of common stock. The independent investment manager has sole discretionary authority, subject to general investment guidelines approved by the Visteon Defined Benefit Plan Committee, to act on behalf of the Visteon Defined Master Trust with respect to the assets held in the segregated account. The Visteon Defined Benefit Plan Investment Committee has the power to revoke the appointment of the independent investment manager and appoint a new independent investment manager or to change the scope of the appointment of the independent investment manager.

Pursuant to the registration rights agreement between us, the Selling Stockholder and the independent investment manager dated as of January 9, 2012, we agreed, among other things, to supplement our shelf registration statement of which the accompanying prospectus is a part with this prospectus supplement to register the disposition from time to time of the shares contributed to the Selling Stockholder.

The Selling Stockholder may offer and sell all or any portion of the shares of common stock covered by this prospectus supplement from time to time. Because the Selling Stockholder may sell, transfer or otherwise dispose of all or a portion of the shares of common stock covered by this prospectus supplement in separate transactions from time to time, we cannot determine the number of such shares of common stock that will be sold, transferred or otherwise disposed of by the Selling Stockholder in any particular offering or the amount or percentage of shares of common stock that will be held by the Selling Stockholder upon termination of any particular offering. See “Plan of Distribution.”

Based upon information provided to us by the Selling Stockholder, the 1,453,489 shares contributed by us to the Selling Stockholder on January 9, 2012 are the only shares of common stock beneficially owned by the Selling Stockholder as of that date.

The Selling Stockholder may, upon the instructions of the independent investment manager, sell all or a portion of the common stock covered by this prospectus supplement from time to time directly or through one or more broker-dealers or agents. If the shares are sold through broker-dealers, the Selling Stockholder will be responsible for discounts or commissions. The shares may, upon the instructions of the independent investment manager, be sold by or for the account of the Selling Stockholder on the New York Stock Exchange or any national securities exchange or quotation service on which the securities may be listed or quoted at the time of sale, in the over-the-counter market or otherwise. - a fixed price or prices, which may be changed;
- market prices prevailing at the time of the sale;

The Selling Stockholder may, upon the instructions of the independent investment manager, use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- privately negotiated transactions;
- a combination of any such methods of sale; and
- any other method permitted pursuant to applicable law.

The Selling Stockholder also may resell all or a portion of the shares in transactions in reliance upon Rule 144 under the Securities Act, as permitted by that rule, rather than under this prospectus supplement, provided that it meets the criteria and conforms to the requirements of Rule 144.

The Selling Stockholder will act independently of us in making decisions regarding the timing, manner and size of each sale.

Broker-dealers engaged by the Selling Stockholder may arrange for other broker-dealers to participate in sales. If the Selling Stockholder effects such transactions by selling the shares to or through broker-dealers or agents, such broker-dealers or agents may receive compensation in the form of discounts, concessions or commissions from the Selling Stockholder or commissions from purchasers of the common stock for whom they may act as agent or to whom they may sell as principal. Such compensation will be in amounts to be negotiated, but in the case of an agency transaction will not be in excess of a customary brokerage commission in compliance with FINRA Conduct Rule 2440, and in the case of a principal transaction a markup or markdown in compliance with IM-2440-1.

The Selling Stockholder and any broker-dealer or agents participating in the distribution of the common stock may be deemed to be “underwriters” within the meaning of Section 2(11) of the Securities Act in connection with such sales. underwriting commissions or discounts under the Securities Act. If the Selling Stockholder is an “underwriter” within the meaning of Section 2(11) of the Securities Act, the Selling Stockholder will be subject to the applicable prospectus delivery requirements of the Securities Act and may be subject to certain statutory liabilities of, including but not limited to, Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act.

Under the securities laws of some states, the shares may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

The Selling Stockholder has advised us that it has not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of its shares. Upon our notification by the Selling Stockholder that any material arrangement has been entered into with an underwriter or broker-dealer for the sale of shares through a block trade, special offering, exchange distribution, secondary distribution or a purchase by an underwriter or broker-dealer, we will file a supplement to this prospectus, if required, pursuant to Rule 424(b) under the Securities Act, disclosing certain material information, including:

- the name of the Selling Stockholder;
- the names of the participating underwriters, broker-dealers or agents;
- the number of shares being offered;
- the terms of the offering;
- any discounts, commissions or other compensation paid to underwriters or broker-dealers and any discounts, commissions or concessions allowed or reallocated or paid by any underwriters to dealers;

The Selling Stockholder is subject to the applicable provisions of the Exchange Act, and the rules and regulations under the Exchange Act, including Regulation M. This regulation may limit the timing of purchases and sales of any of the shares of common stock offered in this prospectus by the Selling Stockholder. The anti-manipulation rules under the Exchange Act may apply to sales of shares in the market and to the activities of the Selling Stockholder and its affiliates. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of the shares to engage in market-making activities for the particular securities being distributed for a period of up to five business days before the distribution. The restrictions may affect the marketability of the shares and the ability of any person or entity to engage in market-making activities for the shares.

To the extent required, this prospectus may be amended and/or supplemented from time to time to describe a specific plan of distribution.

The Selling Stockholder is a trust that is subject to ERISA and Section 4975 of the Internal Revenue Code of 1986, as amended (the “Code”). Prohibited transactions under Title I of ERISA and Section 4975 of the Code could arise if, absent an available exemption, a person or entity which is a “party in interest,” as defined under ERISA, or a “disqualified person,” as defined under the Code, were to purchase any of the shares of common stock being offered by the Selling Stockholder, other than in a blind transaction over a national securities exchange. Any such potential purchaser should consult with counsel to determine whether an exemption is available with respect to any such purchase.

We will pay all expenses of the registration of the shares pursuant to the registration rights agreement, including, without limitation, SEC filing fees and expenses of compliance with state securities or “blue sky” laws, and the reasonable fees and expenses (not to exceed \$15,000 without our prior written consent) of legal

counsel to the independent investment manager incurred in connection with the registration and sale of the shares; provided, however, that the Selling Stockholder, to the extent permitted by applicable law, will bear the expense of any broker's commission, agency fee, underwriter's discount or commission, or transfer taxes, if any. We have agreed to indemnify the Selling Stockholder and the independent investment manager against certain losses, claims, damages and liabilities, including liabilities under the Securities Act, or to contribute to payments the Selling Stockholder or the independent investment manager may be required to make because of those liabilities, in accordance with the registration rights agreement. The Selling Stockholder may agree to indemnify an underwriter, broker-dealer or agent against certain liabilities related to the selling of the common stock, including liabilities arising under the Securities Act.

Broker-dealers and agents, and their respective affiliates, may be engaged in transactions with, or perform commercial or investment banking or other services for, us or our subsidiaries or affiliates, in the ordinary course of business.

We emerged from bankruptcy protection and adopted fresh-start accounting on October 1, 2010 (the “Effective Date”). We became a new entity for financial reporting purposes as of the Effective Date. Therefore, the consolidated financial statements for the reporting entity subsequent to the Effective Date (the “Successor”) are not comparable to the consolidated financial statements for the reporting entity prior to the Effective Date (the “Predecessor”). Additional details regarding the adoption of fresh-start accounting are included in our 2010 Annual Report on Form 10-K.

Our largest customers are Hyundai Kia Automotive Group and Ford, accounting for 29% and 25%, respectively, of 2010 net product sales.

Our History

Effective October 1, 2005, the Company transferred 23 of its North American facilities and certain other related assets and liabilities to Automotive Components Holdings, LLC (“ACH”), an indirect, wholly-owned subsidiary of Ford (the “ACH Transactions”). The transferred facilities included all of the Company’s plants that leased hourly workers covered by Ford’s Master Agreement with the United Auto Workers Union (“UAW”), and accounted for approximately \$6.1 billion of the Company’s total product sales for 2005, the majority being products sold to Ford.

In January 2006, the Company announced a multi-year improvement plan that involved the restructuring of certain underperforming and non-strategic plants and businesses to improve operating and financial performance and to reduce costs. The multi-year improvement plan, which was initially expected to affect up to 23 facilities, was completed during 2008 and addressed a total of 30 facilities and businesses, including 7 divestitures and 14 closures. These activities resulted in sales declines of \$1 billion during the year ended December 31, 2008.

During the latter part of 2008 and through 2009, weakened economic conditions, largely attributable to the global credit crisis, and erosion of consumer confidence, negatively impacted the automotive sector.

Our Reorganization

On May 28, 2009, we filed voluntary petitions in the United States Bankruptcy Court for the District of Delaware (the “Bankruptcy Court”), to reorganize under chapter 11 (“Chapter 11”) of the United States Bankruptcy Code (the “Bankruptcy Code”). The Chapter 11 cases were jointly administered under the caption Visteon Corporation, et al., Case No. 09-11786. We continued to operate our businesses as a debtor-in-possession under the jurisdiction of the Bankruptcy Court in accordance with the applicable provisions of the Bankruptcy Code.

On August 31, 2010, we filed a Fifth Amended Joint Plan of Reorganization (the “Plan of Reorganization”) with the Bankruptcy Court. The Plan of Reorganization was confirmed by the Bankruptcy Court on August 31, 2010 (the “Confirmation Order”), and became effective on October 1, 2010 (the “Effective Date”), the date on which we emerged from protection under Chapter 11 of the Bankruptcy Code. Additional details regarding the status of our Chapter 11 Proceedings are included in our 2010 Annual Report on Form 10-K, incorporated herein by reference.

Our Industry

In general, the automotive industry is cyclical, highly competitive, capital intensive, and sensitive to changes in overall economic conditions. During 2010, the global automotive industry began to recover from the unprecedented downturn of 2009, as evidenced by double digit production volume increases for most global

[Table of Contents](#)

OEMs. However, while industry production volumes increased from the trough of 2009 levels, current volumes remain lower than peak levels of the recent past, driven largely by the U.S. market. Significant developments and trends affecting the global automotive industry are summarized below.

- **Globalization** — The automotive sector is rapidly globalizing. To lower costs, OEMs are expected to continue to shift their production facilities from high-cost regions such as North America and Western Europe to lower-cost regions such as Brazil, Russia, India and China. The continued globalization of the automotive industry is pushing OEMs and suppliers to move to a more collaborative “design-to-cost” approach, where innovative solutions are applied to technology available in current products resulting in a much simpler variant with a lower cost, while ensuring safety and performance.
- **Regulatory environment** — Governments in all major countries have a significant influence on the automotive sector through various environmental, energy, economic, labor and consumer safety policies and regulations. Such policies and regulations can impact vehicle design, as well as production and assembly processes. Recent policy-making and regulatory efforts have resulted in more stringent automobile emissions standards in North America and Western Europe, and increasingly in emerging markets, requiring smaller and lighter vehicles and steering innovation efforts toward cleaner energy sources.
- **Fuel efficiency and green initiatives** — In the wake of the increased cost of petroleum-based fuel, global regulatory momentum to reduce emissions, and consumer demand for more environmentally friendly products, OEMs have turned to alternative fuel combustion engines, electric vehicles and other environmentally conscious technologies. Additionally, OEMs are designing their vehicles with more renewable materials and are reducing the level of volatile organic compounds in their vehicles.
- **Vehicle safety, comfort and convenience** — OEMs are incorporating more safety oriented technologies into their vehicles such as air bags, anti-lock brakes, traction control, adaptive and driver visibility enhancing lighting and driver awareness capabilities. Digital and portable technologies have dramatically influenced the lifestyle of today’s consumers who expect products that enable such a lifestyle. This requires increased electronic and technical content such as in-vehicle communication, navigation and entertainment capabilities.
- **Customer price pressures and raw material cost inflation** — The highly competitive nature of the automotive industry drives a focus on cost and price throughout the entire automotive supply chain. Virtually all OEMs have aggressive price reduction initiatives each year with their suppliers. Further, suppliers are continually challenged by the volatile nature of critical manufacturing inputs, specifically, commodity-driven raw material and energy costs.

The term “debt securities” includes debt securities denominated in U.S. dollars or, if specified in the applicable prospectus supplement, in any other freely transferable currency or units based on or relating to foreign currencies.

We expect most debt securities to be issued in fully registered form without coupons and in denominations of \$1,000 and any integral multiples thereof.

Transfer and Exchange

Unless otherwise stated in the applicable prospectus supplement, each debt security will be represented by either one or more global securities registered in the name of The Depository Trust Company, as depositary, or a nominee (we will refer to any debt security represented by a global debt security as a “book-entry debt security”), or a certificate issued in definitive registered form (we will refer to any debt security represented by a certificated security as a “certificated debt security”) as set forth in the applicable prospectus supplement. Except as set forth under the heading “Global Debt Securities and Book-Entry System” below, book-entry debt securities will not be issuable in certificated form.

Certificated Debt Securities. You may transfer or exchange certificated debt securities at any office we maintain for this purpose in accordance with the terms of the indenture. No service charge will be made for any transfer or exchange of certificated debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange.

You may effect the transfer of certificated debt securities and the right to receive the principal of, and any premium or interest on, certificated debt securities only by surrendering the certificate representing those certificated debt securities and either reissuance by us or the trustee of the certificate to the new holder or the issuance by us or the trustee of a new certificate to the new holder.

Global Debt Securities and Book-Entry System. Each global debt security representing book-entry debt securities will be deposited with, or on behalf of, the depositary, and registered in the name of the depositary or a nominee of the depositary.

We anticipate that the depositary will follow the following procedures with respect to book-entry debt securities.

Ownership of beneficial interests in book-entry debt securities will be limited to persons that have accounts with the depositary for the related global debt security, which we refer to as participants, or persons that may hold interests through participants. Upon the issuance of a global debt security, the depositary will credit, on its book-entry registration and transfer system, the participants’ accounts with the respective principal amounts of the book-entry debt securities represented by such global debt security beneficially owned by such participants. The accounts to be credited will be designated by any dealers, underwriters or agents participating in the distribution of the book-entry debt securities. Ownership of book-entry debt securities will be shown on, and the transfer of such ownership interests will be effected only through, records maintained by the depositary for the related global debt security (with respect to interests of participants) and on the records of participants (with respect to interests of persons holding through participants). The laws of some states may require that certain purchasers of securities take physical delivery of such securities in definitive form. These laws may impair the ability to own, transfer or pledge beneficial interests in book-entry debt securities.

So long as the depositary for a global debt security, or its nominee, is the registered owner of that global debt security, the depositary or its nominee, as the case may be, will be considered the sole owner or holder of the book-entry debt securities represented by such global debt security for all purposes under the indenture. Except as described below, beneficial owners of book-entry debt securities will not be entitled to have securities registered in their names, will not receive or be entitled to receive physical delivery of a certificate in definitive

[Table of Contents](#)

form representing securities and will not be considered the owners or holders of those securities under the indenture. Accordingly, each person beneficially owning book-entry debt securities must rely on the procedures of the depositary for the related global debt security and, if such person is not a participant, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the indenture.

We understand, however, that under existing industry practice, the depositary will authorize the persons on whose behalf it holds a global debt security to exercise certain rights of holders of debt securities, and the indenture provides that we, the trustee and our respective agents will treat as the holder of a debt security the persons specified in a written statement of the depositary with respect to that global debt security for purposes of obtaining any consents or directions required to be given by holders of the debt securities pursuant to the indenture.

We will make payments of principal of, and any premium or interest on, book-entry debt securities to the depositary or its nominee, as the case may be, as the registered holder of the related global debt security. We, the trustee and any other agent of ours or agent of the trustee will not have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global debt security or for maintaining, supervising or reviewing any records relating to beneficial ownership interests.

We expect that the depositary, upon receipt of any payment of principal of, and any premium or interest on, a global debt security, will immediately credit participants' accounts with payments in amounts proportionate to the respective amounts of book-entry debt securities held by each participant as shown on the records of such depositary. We also expect that payments by participants to owners of beneficial interests in book-entry debt securities held through those participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of those participants.

We will issue certificated debt securities in exchange for each global debt security if the depositary is at any time unwilling or unable to continue as depositary or ceases to be a clearing agency registered under the Exchange Act, and a successor depositary registered as a clearing agency under the Exchange Act is not appointed by us within 90 days. In addition, we may at any time and in our sole discretion determine not to have the book-entry debt securities of any series represented by one or more global debt securities and, in that event, will issue certificated debt securities in exchange for the global debt securities of that series. Global debt securities will also be exchangeable by the holders for certificated debt securities if an event of default with respect to the book-entry debt securities represented by those global debt securities has occurred and is continuing. Any certificated debt securities issued in exchange for a global debt security will be registered in such name or names as the depositary shall instruct the trustee. We expect that such instructions will be based upon directions received by the depositary from participants with respect to ownership of book-entry debt securities relating to such global debt security.

We have obtained the foregoing information concerning the depositary and the depositary's book-entry system from sources we believe to be reliable, but we take no responsibility for the accuracy of this information.

Change of Control

Unless otherwise stated in the applicable prospectus supplement, the debt securities will not contain any provisions which may afford holders of the debt securities protection in the event we have a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control) which could adversely affect holders of debt securities.

Covenants

We will set forth in the applicable prospectus supplement any restrictive covenants applicable to any issue of debt securities.

[Table of Contents](#)

Consolidation, Merger and Sale of Assets

Unless otherwise stated in the applicable prospectus supplement, we may not consolidate with or merge with or into, or convey, transfer or lease all or substantially all of our properties and assets to, any person, which we refer to as a successor person, unless:

- we are the surviving corporation or the successor person (if other than Visteon) is a corporation organized and validly existing under the laws of any U.S. domestic jurisdiction and expressly assumes our obligations on the debt securities and under the indenture;
- immediately after giving effect to the transaction, no event of default, and no event which, after notice or lapse of time, or both, would become an event of default, shall have occurred and be continuing under the indenture; and
- certain other conditions that may be set forth in the applicable prospectus supplement are met.

Events of Default

Unless otherwise stated in the applicable prospectus supplement, event of default means, with respect to any series of debt securities, any of the following:

- default in the payment of any interest upon any debt security of that series when it becomes due and payable, and continuance of that default for a period of 30 days (unless the entire amount of the payment is deposited by us with the trustee or with a paying agent prior to the expiration of the 30-day period);
- default in the payment of principal of any debt security of that series when due and payable at maturity, upon redemption or otherwise;
- default in the deposit of any sinking fund payment, when and as due in respect of any debt security of that series;
- default in the performance or breach of any other covenant or warranty by us in the indenture (other than a covenant or warranty that has been included in the indenture solely for the benefit of a series of debt securities other than that series), which default continues uncured for a period of 60 days after we receive written notice from the trustee or we and the trustee receive written notice from the holders of not less than a majority in principal amount of the outstanding debt securities of that series as provided in the indenture;
- certain events of bankruptcy, insolvency or reorganization; and
- any other event of default provided with respect to debt securities of that series that is described in the applicable prospectus supplement accompanying this prospectus.

No event of default with respect to a particular series of debt securities (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an event of default with respect to any other series of debt securities. The occurrence of an event of default may constitute an event of default under our bank credit agreements in existence from time to time. In addition, the occurrence of certain events of default or an acceleration under the indenture may constitute an event of default under certain of our other indebtedness outstanding from time to time.

If an event of default with respect to debt securities of any series at the time outstanding occurs and is continuing, then the trustee or the holders of not less than a majority in principal amount of the outstanding debt securities of that series may, by a notice in writing to us (and to the trustee if given by the holders), declare to be due and payable immediately the principal (or, if the debt securities of that series are discount securities, that portion of the principal amount as may be specified in the terms of that series) of and accrued and unpaid interest, if any, on all debt securities of that series. In the case of an event of default resulting from certain events of bankruptcy, insolvency or reorganization, the principal (or such specified amount) of and accrued and unpaid

interest, if any, on all outstanding debt securities will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of outstanding debt securities. At any time after a declaration of acceleration with respect to debt securities of any series has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the outstanding debt securities of that series may rescind and annul the acceleration if all events of default, other than the non-payment of accelerated principal and interest, if any, with respect to debt securities of that series, have been cured or waived as provided in the indenture. We refer you to the prospectus supplement relating to any series of debt securities that are discount securities for the particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an event of default.

The indenture provides that the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request of any holder of outstanding debt securities, unless the trustee receives indemnity reasonably satisfactory to it against any loss, liability or expense. Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series.

Unless stated otherwise in the applicable prospectus supplement, no holder of any debt security of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the indenture or for the appointment of a receiver or trustee, or for any remedy under the indenture, unless:

- that holder has previously given to the trustee written notice of a continuing event of default with respect to debt securities of that series;
- the holders of at least a majority in principal amount of the outstanding debt securities of that series have made written request to the trustee to pursue the remedy;
- the holder or holders offer and, if requested, provide to the trustee indemnity reasonably satisfactory to the trustee against any loss, liability or expense;
- the trustee does not comply with the request within 60 days; and
- the trustee has not received from the holders of a majority in principal amount of the outstanding debt securities of that series a direction inconsistent with that request and has failed to institute the proceeding within 60 days.

Notwithstanding the foregoing, the holder of any debt security will have an absolute and unconditional right to receive payment of the principal of, and any premium or interest on, that debt security on or after the due dates expressed in that debt security and to institute suit for the enforcement of payment.

The indenture requires us, within 120 days after the end of our fiscal year, to furnish to the trustee a statement as to compliance with the indenture. The indenture provides that the trustee may withhold notice to the holders of debt securities of any series of any default or event of default (except in payment on any debt securities of that series) with respect to debt securities of that series if it in good faith determines that withholding notice is in the interest of the holders of those debt securities.

Modification and Waiver

We may modify and amend the indenture with the consent of the holders of at least a majority in principal amount of the outstanding debt securities of each series affected by the modifications or amendments. We may not make any modification or amendment without the consent of the holders of each affected debt security then outstanding if that amendment will:

- reduce the amount of debt securities whose holders must consent to an amendment, supplement or waiver;

Table of Contents

- reduce the rate of or extend the time for payment of interest (including default interest) on any debt security;
- reduce the principal of, and any premium or interest on, or change the fixed maturity of, any debt security or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation with respect to any series of debt securities;
- reduce the principal amount of discount securities payable upon acceleration of maturity;
- waive a default in the payment of the principal of, or any premium or interest on, any debt security (except a rescission of acceleration of the debt securities of any series by the holders of at least a majority in aggregate principal amount of the then outstanding debt securities of that series and a waiver of the payment default that resulted from such acceleration);
- make the principal of, or any premium or interest on, any debt security payable in currency other than that stated in the debt security;
- make any change to certain provisions of the indenture relating to, among other things, the right of holders of debt securities to receive payment of the principal of, or any premium or interest on, those debt securities and to institute suit for the enforcement of any such payment and to waivers or amendments; or
- waive a redemption payment with respect to any debt security or change any of the provisions with respect to the redemption of any debt securities.

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all debt securities of that series waive our compliance with provisions of the indenture. The holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all the debt securities of such series waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of, or any premium or interest on, any debt security of that series or in respect of a covenant or provision which cannot be modified or amended without the consent of the holder of each outstanding debt security of the series affected; provided, however, that the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration.

Defeasance of Debt Securities and Certain Covenants in Certain Circumstances

Legal Defeasance. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, we may be discharged from any and all obligations in respect of the debt securities of any series (except for certain obligations to register the transfer or exchange of debt securities of such series, to replace stolen, lost or mutilated debt securities of such series, and to maintain paying agencies and certain provisions relating to the treatment of funds held by paying agents). We will be so discharged upon the deposit with the trustee, in trust, of money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. dollars, foreign government obligations, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants to pay and discharge each installment of principal, premium and interest on and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities.

This discharge may occur only if, among other things, we have delivered to the trustee an opinion of counsel stating that we have received from, or there has been published by, the United States Internal Revenue Service a ruling or, since the date of execution of the indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the

[Table of Contents](#)

holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred.

Defeasance of Certain Covenants. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, upon compliance with certain conditions:

- we may omit to comply with the covenant described under the heading “Consolidation, Merger and Sale of Assets” and certain other covenants set forth in the indenture, as well as any additional covenants which may be set forth in the applicable prospectus supplement; and
- any omission to comply with those covenants will not constitute a default or an event of default with respect to the debt securities of that series, or covenant defeasance.

The conditions include:

- depositing with the trustee money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. dollars, foreign government obligations, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants to pay and discharge each installment of principal of, and any premium and interest on, and any mandatory sinking fund payments in respect of the debt securities of that series on the stated maturity of those payments in accordance with the terms of the indenture and those debt securities; and
- delivering to the trustee an opinion of counsel to the effect that the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit and related covenant defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit and related covenant defeasance had not occurred.

Covenant Defeasance and Events of Default. In the event we exercise our option to effect covenant defeasance with respect to any series of debt securities and the debt securities of that series are declared due and payable because of the occurrence of any event of default, the amount of money and/or U.S. government obligations or foreign government obligations on deposit with the trustee will be sufficient to pay amounts due on the debt securities of that series at the time of their stated maturity but may not be sufficient to pay amounts due on the debt securities of that series at the time of the acceleration resulting from the event of default. However, we shall remain liable for those payments.

Guarantees

Any debt securities may be guaranteed by one or more of our direct or indirect subsidiaries. Each prospectus supplement will describe any guarantees for the benefit of the series of debt securities to which it relates, including required financial information of the subsidiary guarantors, as applicable. Any guarantees will be joint and several obligations of the guarantors.

Governing Law

The indenture, the debt securities and the guarantees shall be construed in accordance with and governed by the laws of the State of New York, without giving effect to the principles thereof relating to conflicts of law.

DESCRIPTION OF CAPITAL STOCK

The following summary of the terms of our capital stock is not meant to be complete and is qualified in its entirety by reference to our second amended and restated certificate of incorporation, our second amended and restated bylaws and the provisions of applicable law. Copies of our second amended and restated certificate of incorporation and our second amended and restated bylaws are filed as exhibits to the Registration Statement on Form 8-A filed with the SEC on September 30, 2010 and are incorporated herein by reference.

Authorized Capital Stock upon Emergence

Visteon has the authority to issue a total of 300,000,000 shares of capital stock, consisting of:

- 250,000,000 shares of common stock, par value \$0.01 per share; and
- 50,000,000 shares of preferred stock, par value \$0.01 per share.

Common Stock

The rights, preferences and privileges of holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of our preferred stock which we may designate and issue in the future.

Dividend Rights. Subject to limitations under Delaware law, preferences that may apply to any outstanding shares of preferred stock, and contractual restrictions, holders of our common stock are entitled to receive ratably dividends or other distributions when and if declared by the board of directors. In addition to such restrictions, whether any future dividends are paid will depend on decisions that will be made by the board of directors and will depend on then existing conditions, including our financial condition, contractual restrictions, corporate law restrictions, capital requirements and business prospects. The ability of the board of directors to declare dividends also will be subject to the rights of any holders of outstanding shares of our preferred stock and the availability of sufficient funds under the Delaware General Corporation Law (“DGCL”) to pay dividends.

Liquidation Rights. In the event of any liquidation, dissolution or winding up of Visteon, the holders of our common stock will be entitled to share in the net assets of Visteon available after the payment of all debts and other liabilities and subject to the prior rights of any outstanding class of our preferred stock.

Preemptive Rights. Pursuant to our second amended and restated certificate of incorporation, the holders of our common stock have no preemptive rights.

Conversion Rights. Shares of our common stock are not convertible.

Voting Rights. Subject to the rights of the holders of any series of our preferred stock, each outstanding share of our common stock is entitled to one vote on all matters submitted to a vote of stockholders. The holders of our common stock will not have cumulative voting rights.

Warrants to Purchase Common Stock

Pursuant to the Plan of Reorganization, we issued warrants to purchase 2,355,000 shares of our common stock to holders of our 12.25% senior notes issued (the “Ten Year Warrants”). The Ten Year Warrants have an exercise price of \$9.66 per share of common stock. Each of the Ten Year Warrants expires ten years after the date of issuance. The warrants provide for a cashless exercise by the warrant holder. The warrant exercise price and the number of shares issuable upon exercise of the warrants are subject to adjustment upon certain events including: stock subdivisions, combinations, splits, stock dividends, capital reorganizations, or capital reclassifications of common stock and in connection with certain distributions of cash, assets or securities. The Ten Year Warrants are not redeemable.

[Table of Contents](#)

Pursuant to the Plan of Reorganization, we issued 1,552,774 warrants to purchase shares of our common stock to holders of shares of our previously outstanding common stock, which were cancelled pursuant to the Plan of Reorganization (the “Five Year Warrants”). The Five Year Warrants have an exercise price of \$58.80 per share. Each of the Five Year Warrants expires five years after the date of issuance. The Five Year Warrants provide for a cashless exercise by the warrant holder. The warrant exercise price and the number of shares issuable upon exercise of the warrants are subject to adjustment upon certain events including: stock subdivisions, combinations, splits, stock dividends, capital reorganizations, or capital reclassifications of common stock and in connection with certain distributions of cash, assets or securities. The Five Year Warrants are not redeemable.

Preferred Stock

Under the terms of our second amended and restated certificate of incorporation, the board of directors is authorized to issue from time to time up to an aggregate of 50,000,000 shares of preferred stock and to fix or alter the designations, preferences, rights and any qualifications, limitations or restrictions of the shares of each series, including the dividend rights, dividend rates, conversion rights, voting rights, rights and terms of redemption (including sinking fund provisions), redemption price or prices, liquidation preferences and the number of shares constituting any series. These additional shares may be used for a variety of corporate purposes, including future public offerings, to raise additional capital or to facilitate acquisitions. If the board of directors decides to issue shares of preferred stock to persons supportive of current management, this could render it more difficult or discourage an attempt to obtain control of Visteon by means of a merger, tender offer, proxy contest or otherwise. Authorized but unissued shares of preferred stock also could be used to dilute the stock ownership of persons seeking to obtain control of Visteon. To the extent required by 11 U.S.C. §1123(a)(6), Visteon is prohibited from issuing shares of nonvoting equity securities (within the meaning of such statute).

Certain Anti-Takeover Effects of our Certificate of Incorporation, our Bylaws and Delaware Law

Provisions of Delaware Law. Visteon is a Delaware corporation subject to Section 203 of the DGCL. Section 203 provides that, subject to certain exceptions specified in the law, a Delaware corporation shall not engage in certain “business combinations” with any “interested stockholder” for a three-year period after the date of the transaction in which the person became an interested stockholder unless:

- prior to such time, the board of directors of the corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding certain shares; or
- at or subsequent to that time, the business combination is approved by the board of directors of the corporation and authorized by the affirmative vote of holders of at least 66²/₃% of the outstanding voting stock that is not owned by the interested stockholder.

Generally, a “business combination” includes a merger, asset or stock sale or other transaction resulting in a financial benefit to the interested stockholder. Subject to certain exceptions, an “interested stockholder” is a person who, together with that person’s affiliates and associates, owns, or within the previous three years did own, 15% or more of the voting stock of the corporation.

Under certain circumstances, Section 203 makes it more difficult for a person who would be an “interested stockholder” to effect various business combinations with a corporation for a three-year period. The provisions of Section 203 may encourage companies interested in acquiring Visteon to negotiate in advance with our board of directors because the stockholder approval requirement would be avoided if our board of directors approves

[Table of Contents](#)

either the business combination or the transaction that results in the stockholder becoming an interested stockholder. These provisions also may make it more difficult to accomplish transactions that stockholders may otherwise deem to be in their best interests.

Board of Directors. Our second amended and restated certificate of incorporation and our second amended and restated bylaws provide that the number of directors shall be fixed by the board of directors from time to time. The board of directors shall initially consist of the nine members identified in the Plan of Reorganization and shall always consist of not less than 3 nor more than 15 members. Under our second amended and restated bylaws, at all meetings of stockholders for the election of directors at which a quorum is present, a plurality of the votes cast shall be sufficient to elect a director. Under our second amended and restated certificate of incorporation and our second amended and restated bylaws, a vote of a majority of all then outstanding capital stock entitled to vote at an election of directors is required to remove a director with or without cause and fill the resulting vacancy, except that any director elected separately by the holders of any class or series of stock shall be subject to removal with or without cause at any time by such stockholders, who will fill the resulting vacancy. Vacancies resulting from newly created directorships by reason of an increase in the size of the board of directors shall be filled by a majority vote of the board of directors, provided a quorum is present. Further, vacancies resulting from reasons other than removal or an increase in the size of the board of directors shall be filled by a majority vote of the board of directors, even if less than a quorum. These provisions may deter a stockholder from removing incumbent directors and simultaneously gaining control of the board of directors by filling the vacancies created by this removal with its own nominees.

Advance Notice Procedures. Our second amended and restated bylaws establish an advance notice procedure for stockholder proposals to be brought before a meeting of stockholders, including proposed nominations of persons for election to the board of directors. Stockholders at a meeting will only be able to consider proposals or nominations specified in the notice of meeting or brought before the meeting by or at the direction of the board of directors or by a stockholder who was a stockholder of record on the record date for the meeting, who is entitled to vote at the meeting and who has given our corporate secretary timely written notice, in proper form, of the stockholder's intention to bring that business before the meeting. Although our second amended and restated bylaws will not give the board of directors the power to approve or disapprove stockholder nominations of candidates or proposals regarding other business to be conducted at a special or annual meeting, our second amended and restated bylaws may have the effect of precluding the conduct of certain business at a meeting if the proper procedures are not followed or may discourage or deter a potential acquirer from conducting a solicitation of proxies to elect its own slate of directors or otherwise attempting to obtain control of the company.

Action by Written Consent; Special Meetings of Stockholders. Our second amended and restated certificate of incorporation provides that stockholder action can be taken only at an annual or special meeting of stockholders and cannot be taken by written consent in lieu of a meeting. Our second amended and restated certificate of incorporation and our second amended and restated bylaws provide that, except as otherwise required by law, special meetings of the stockholders can only be called by our chairman of the board, our chief executive officer, pursuant to a resolution adopted by a majority of our board of directors or by our secretary following receipt of one or more demands to call a special meeting of the stockholders, in accordance with the provisions of our second amended and restated bylaws, from stockholders who hold, in the aggregate, at least twenty percent of the voting power of all shares entitled generally to on the election of directors (without reference to any terms of any preferred stock).

Authorized but Unissued Shares. Our authorized but unissued shares of common stock and preferred stock will be available for future issuance without stockholder approval, subject to the rules and regulations of any applicable stock exchange or similar rules. These additional shares may be utilized for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of authorized but unissued shares of common stock and preferred stock could render more difficult or discourage an attempt to obtain control of a majority of our common stock by means of a proxy contest, tender offer, merger or otherwise.

Table of Contents

Limitations on Directors' and Officers' Liability. Our second amended and restated certificate of incorporation contains a provision eliminating the personal liability of our directors to Visteon or any of its stockholders for monetary damages for breach of fiduciary duty to the fullest extent permitted by applicable law. Our second amended and restated certificate of incorporation and our second amended and restated bylaws also contain provisions generally providing for indemnification and prepayment of expenses to our directors and officers to the fullest extent permitted by applicable law.

Amendment of Certificate of Incorporation and Bylaws. Our second amended and restated certificate of incorporation expressly authorizes the board of directors to adopt, amend, alter or repeal most provisions of our second amended and restated bylaws by a majority vote. The stockholders may also adopt, amend, alter or repeal our second amended and restated bylaws. Stockholder approval is also required to amend, alter, change or repeal any provision of our second amended and restated certificate of incorporation or our second amended and restated bylaws inconsistent with any provision in our second amended and restated certificate of incorporation or our second amended and restated bylaws that requires a particular vote of stockholders in order to take the action specified in such provision.

Tax Benefit Preservation. Our second amended and restated certificate of incorporation provides, subject to certain exceptions therein, that any attempted transfer of Visteon's securities prior to the earliest of:

- December 31, 2019;
- the repeal, amendment or modification of Section 382 of the Internal Revenue Code of 1986, as amended ("Section 382") in such a way as to render the restrictions imposed by Section 382 no longer applicable to Visteon;
- the beginning of a taxable year of Visteon in which no net operating loss carryovers, capital loss carryovers, alternative minimum tax credit carryovers and foreign tax credit carryovers or any loss or deduction attributable to a net realized "built-in loss" within the meaning of Section 382 of Visteon or any of its direct or indirect subsidiaries ("Tax Benefits") are available; and
- the date on which the limitation amount imposed by Section 382 in the event of an ownership change of Visteon would not be materially less than the net operating loss carry forward or net unrealized built-in loss of Visteon (the earliest of such dates being the "Restriction Release Date"); or

any attempted transfer of Visteon's securities pursuant to an agreement entered into prior to the Restriction Release Date, shall be prohibited and void ab initio insofar as it purports to transfer ownership or rights in respect of such stock to the purported transferee:

- if the transferor is a person or group of persons that is identified as a "5-percent shareholder" of Visteon pursuant to Treasury Regulation §1.382-2T(g) other than a "direct public group" as defined in such regulation (a "Five-Percent Stockholder"), or
- to the extent that, as a result of such transfer, either any person or group of persons shall become a Five-Percent Stockholder or the percentage stock ownership interest in Visteon of any Five-Percent Stockholder shall be increased.

These restrictions could prohibit or delay the accomplishment of an ownership change with respect to Visteon by (i) discouraging any person or group from being a Five-Percent Stockholder and (ii) discouraging any existing Five-Percent Stockholder from acquiring more than a minimal number of additional shares of Visteon's stock.

Business Opportunities. In recognition that our investors and their officers, directors, agents, stockholders, members, partners, affiliates and subsidiaries may serve as our directors and/or officers and that our investors may engage in similar activities or lines of business that we do, our second amended and restated certificate of incorporation provides for the allocation of certain business opportunities between us and our investors.

Table of Contents

Specifically, none of our investors or any officer, director, agent, stockholder, member, partner or affiliate of an investor has any duty to refrain from engaging directly or indirectly in the same or similar business activities or lines of business that we do. In the event that any investor acquires knowledge of a potential transaction or matter which may be a business opportunity for itself and us, we will not have any expectancy in such business opportunity, and the investor will not have any duty to communicate or offer such business opportunity to us and may pursue or acquire such business opportunity for itself or direct such opportunity to another person. In addition, if a director or officer of us who is also an officer, director, agent, stockholder, member, partner or affiliate of any investor acquires knowledge of a potential transaction or matter which may be a business opportunity for us and an investor, we will not have any expectancy in such business opportunity unless such business opportunity is expressly offered to such person solely in his or her capacity as a director or officer of us.

No such person shall be liable to Visteon or any of its subsidiaries for breach of any fiduciary or other duty, as a director or officer or otherwise, by reason of the fact that such person pursues or acquires such business opportunity, directs such business opportunity to another person or fails to present such business opportunity, or information regarding such business opportunity, to Visteon or its subsidiaries.

These provisions of our certificate of incorporation are permitted by Section 122 of the DGCL, and, accordingly, we and all of our stockholders will be subject to them.

Transactions with Interested Directors or Officers. In recognition that we may engage in material business transactions with one or more of our directors or officers, an entity in which one or more of our directors or officers are its directors or officers or have a financial interest, our second amended and restated bylaws provide that such a contract or transaction will not be void or voidable solely because a director or officer is interested, or solely because the director or officer is present at or participates in the meeting which authorizes the contract or transaction, or solely because such person's votes are counted for such purpose if:

- the material facts as to such person's or persons' relations or interest as to the contract or transaction are disclosed or are known to the board of directors or the committee, and the board of directors or committee in good faith authorizes the contract or transaction by the affirmative vote of a majority of disinterested directors, even though the number of disinterested directors may be less than a quorum; or
- the material facts as to such person's or person's relationship or interest as to the contract or transaction are disclosed or are known to the stockholders entitled to vote thereon, and the contract or transaction is specifically approved in good faith by vote of the stockholders; or
- the contract or transaction is fair as to us as of the time it is authorized, approved or ratified by the board of directors, a committee thereof or the stockholders.

DESCRIPTION OF WARRANTS

We may issue warrants for the purchase of debt securities, common stock or preferred stock. We may issue warrants independently or together with any other securities offered by any prospectus supplement and warrants may be attached to or separate from the other offered securities. Each series of warrants will be issued under a separate warrant agreement to be entered into by us with a warrant agent. The warrant agent will act solely as our agent in connection with the series of warrants and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of the warrants. Further terms of the warrants and the applicable warrant agreements will be set forth in the applicable prospectus supplement.

The applicable prospectus supplement will describe the terms of the warrants in respect of which this prospectus is being delivered, including, where applicable, the following:

- the title of the warrants;
- the aggregate number of the warrants;
- the price or prices at which the warrants will be issued;
- the designation, terms and number of shares of debt securities, common stock or preferred stock purchasable upon exercise of the warrants;
- the designation and terms of the offered securities, if any, with which the warrants are issued and the number of the warrants issued with each offered security;
- the date, if any, on and after which the warrants and the related debt securities, common stock or preferred stock will be separately transferable;
- the price at which each share of debt securities, common stock or preferred stock purchasable upon exercise of the warrants may be purchased;
- the date on which the right to exercise the warrants shall commence and the date on which that right shall expire;
- the minimum or maximum amount of the warrants which may be exercised at any one time;
- information with respect to book-entry procedures, if any;
- a discussion of certain Federal income tax considerations; and
- any other terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the warrants.

DESCRIPTION OF DEPOSITARY SHARES

We may, at our option, elect to offer fractional or multiple shares of preferred stock, rather than single shares of preferred stock. In the event we exercise this option, we will issue receipts for depositary shares, each of which will represent a fraction or multiple of (as described in an applicable prospectus supplement) shares of a particular series of preferred stock. The preferred stock represented by depositary shares will be deposited under a deposit agreement between us and a bank or trust company selected by us and having its principal office in the United States and having a combined capital and surplus of at least \$50,000,000. Subject to the terms of the deposit agreement, each owner of a depositary share will be entitled, in proportion to the applicable preferred stock or fraction or multiple thereof represented by the depositary share, to all of the rights and preferences of the preferred stock or other equity stock represented thereby, including any dividend, voting, redemption, conversion or liquidation rights. For an additional description of our common stock and preferred stock, see the descriptions in this prospectus under the heading “Description of Capital Stock.”

The depositary shares will be evidenced by depositary receipts issued pursuant to the deposit agreement. The particular terms of the depositary shares offered by any prospectus supplement will be described in the prospectus supplement, which will also include a discussion of certain U.S. federal income tax consequences.

A copy of the form of deposit agreement, including the form of depositary receipt, will be included as an exhibit to the registration statement or a current report on Form 8-K incorporated by reference herein.

**DESCRIPTION OF STOCK PURCHASE UNITS
AND STOCK PURCHASE CONTRACTS**

We may issue stock purchase contracts, including contracts obligating holders to purchase from us, and us to sell to the holders, a specified number of shares of common stock at a future date or dates. The price per share of common stock and the number of shares of common stock may be fixed at the time the stock purchase contracts are issued or may be determined by reference to a specific formula stated in the stock purchase contracts.

The stock purchase contracts may be issued separately or as part of units that we call “stock purchase units.” Stock purchase units consist of a stock purchase contract and either our debt securities or debt obligations of third parties, including U.S. treasury securities, securing the holders’ obligations to purchase the common stock under the stock purchase contracts.

The stock purchase contracts may require us to make periodic payments to the holders of the stock purchase units or vice versa, and these payments may be unsecured or refunded on some basis. The stock purchase contracts may require holders to secure their obligations in a specified manner.

The applicable prospectus supplement will describe the terms of the stock purchase contracts or stock purchase units. The description in the prospectus supplement will only be a summary, and you should read the stock purchase contracts, and, if applicable, collateral or depositary arrangements, relating to the stock purchase contracts or stock purchase units. Material United States federal income tax considerations applicable to the stock purchase units and the stock purchase contracts will also be discussed in the applicable prospectus supplement.

PLAN OF DISTRIBUTION

We may sell the securities offered pursuant to this prospectus in any of the following ways:

- directly to one or more purchasers;
- through agents;
- through underwriters, brokers or dealers; or
- through a combination of any of these methods of sale.

We will identify the specific plan of distribution, including any underwriters, brokers, dealers, agents or direct purchasers and their compensation, in a prospectus supplement.

Selling securityholders may use this prospectus in connection with resales of the securities. The applicable prospectus supplement will identify the selling securityholders, the terms of the securities and any material relationships between us and the selling securityholders. Selling securityholders may be deemed to be underwriters under the Securities Act of 1933, as amended (the "Securities Act"), in connection with the securities they resell and any profits on the sales may be deemed to be underwriting discounts and commissions under the Securities Act. Unless otherwise set forth in a prospectus supplement, the selling securityholders will receive all the proceeds from the resale of the securities.
