PART III — NARRATIVE

State below in reasonable detail the reasons why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR or the transition report or portion thereof, could not be filed within the prescribed time period.

Visteon Corporation’s Quarterly Report on Form 10-Q for the quarter ended September 30, 2005 could not be filed within the prescribed time period because Visteon could not complete the preparation of the required information without unreasonable effort and expense as a result of its determination to restate certain prior period financial statements. As previously reported in its Current Reports on Form 8-K filed on May 10, 2005, August 1, 2005 and October 21, 2005, the Audit Committee of the Board of Directors, with the assistance of outside counsel, conducted an independent review of the accounting for certain transactions originating in the company’s North American purchasing activity. In a Current Report on Form 8-K of Visteon filed on October 21, 2005, Visteon disclosed that the independent review was complete and that the company has determined that certain expenses for freight, raw materials and other supplier costs originating in North America were recorded in periods after December 31, 2004, and should have been recorded in prior periods. Based on the results of this review, the company concluded that its financial statements for the years ended December 31, 2004, 2003 and 2002 included in its 2004 Form 10-K (and the related 2004 Management Report on Internal Control Over Financial Reporting) should no longer be relied upon, and that restatements will be required for these periods. The Audit Committee’s independent review has also determined that many of the accounting errors resulted principally from improper conduct on the part of two former, non-executive finance employees responsible for the accounting oversight of these matters, and specifically from the periodic setting of accruals for freight expenses at inadequate levels, as well as delays in the processing of freight payments and raw material price increases without adequate consideration of applicable accounting standards.

Visteon plans to complete its review of the proposed adjustments to facilitate the filing of restated quarterly and annual financial results for 2004, 2003 and 2002, to be included in an amended 2004 annual report on Form 10-K/A and quarterly reports on Form 10-Q for 2005, with the SEC in the fourth quarter of 2005.

Although management has not completed its analysis of the impact of the matters noted on its internal controls over financial reporting, management expects that there are one or more material weaknesses (as defined by the Public Company Accounting Oversight Board’s Auditing Standard No. 2) as of December 31, 2004, in addition to those previously reported.

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

Explanation:

Visteon announced a preliminary net loss of \$200 million for the third quarter ended September 30, 2005 compared with a net loss of \$1.4 billion for the comparable fiscal period in the prior year as reported in its Annual Report on Form 10-K for the year ended December 31, 2004 and filed on March 16, 2005. Visteon's press release announcing these preliminary third quarter 2005 financial results was furnished to the Securities and Exchange Commission pursuant to Item 2.02 in Visteon's Current Report on Form 8-K filed on November 8, 2005.
