You are invited to attend the Annual Meeting and vote your shares directly. However, even if you do not attend, you may vote by proxy. As shown in the Notice of Annual Meeting, the Annual Meeting will be held on Wednesday, June 5, 2019, at the Grace Lake Lodge in Van Buren Township, Michigan. Directions to the meeting location can be found in Appendix B.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON JUNE 5, 2019

Our Notice of Annual Meeting and Proxy Statement, Annual Report to Stockholders, electronic proxy card and other Annual Meeting materials are available on the Internet at www.proxyvote.com, together with any amendments to any of these materials that are required to be furnished to stockholders. The Notice of Internet Availability of Proxy Materials contains important information, including instructions on how to access and review the proxy materials online and how to vote your shares over the Internet or by telephone. If you receive a Notice, you will not receive a paper or email copy of the proxy materials unless you request one in the manner set forth in the Notice.

Meeting Admission

To attend the meeting, you will need to bring an admission ticket and photo identification. You will need to print an admission ticket in advance by visiting www.proxyvote.com and following the instructions there. You will need the 12-digit control number to access www.proxyvote.com. Voting

How to Vote Your Shares

If you are a registered stockholder, you can vote at the meeting any shares that were registered in your name as the stockholder of record as of the record date. If your shares are held in “street name” through a broker, bank or other nominee, you are not a holder of record of those shares and cannot vote them at the Annual Meeting unless you have a legal proxy from the holder of record. If you plan to attend and vote your street name shares at the Annual Meeting, you should request a legal proxy from your broker, bank or holder of record and bring it with you to the meeting.

Whether or not you plan to attend the meeting, we strongly encourage you to vote by proxy prior to the meeting. You may vote your shares prior to the meeting by following the instructions provided in the Notice of Internet Availability of Proxy Materials, this proxy statement and the voter website, www.proxyvote.com. If you requested a paper copy of the proxy materials, voting instructions are also contained on the proxy card enclosed with those materials.

If you are a *registered* stockholder, there are three ways to vote your shares before the meeting:

By Internet (www.proxyvote.com): Use the Internet to transmit your voting instructions until 11:59 p.m. EDT on June 4, 2019. Have your Notice of Internet Availability of Proxy Materials or proxy card with you when you access the website and follow the instructions to obtain your records and to create an electronic voting instruction form.

By telephone (1-800-690-6903): Use any touch-tone telephone to submit your vote until 11:59 p.m. EDT on June 4, 2019. Have your Notice of Internet Availability of Proxy Materials or proxy card in hand when you call and then follow the instructions you receive from the telephone voting site.

By mail: If you requested a paper copy of the proxy materials, mark, sign and date the proxy card enclosed with those materials and return it in the postage-paid envelope we have provided. To be valid, proxy cards must be received before the start of the Annual Meeting. Proxy cards should be returned to Vote Processing, c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717.

If your shares are held in street name, your broker, bank or other holder of record may provide you with a voting instruction card. Follow the instructions on the card to access our proxy materials and vote online or to request a paper or email copy of our proxy materials. If you received these materials in paper form, the materials included a voting instruction card so you can instruct your broker, bank or other holder of record how to vote your shares.

You should provide voting instructions for all proposals appearing on the proxy/voting instruction card. The persons named as proxies on the proxy card will vote your shares according to your instructions. However, if you do not provide voting instructions with your proxy, then the designated proxies will vote your shares for the election of the nominated directors, for the ratification of the Company's independent registered public accounting firm, and for the approval of the Company's executive compensation. If any nominee for election to the Board is unable to serve, which is not anticipated, or if any other matters properly come before the meeting, then the designated proxies will vote your shares in accordance with their best judgment.

How to Revoke Your Proxy

If you are a registered stockholder, you can revoke your proxy and change your vote at any time prior to the Annual Meeting by:

Notifying our Corporate Secretary in writing at One Village Center Drive, Van Buren Township, Michigan 48111 (the notification must be received by the close of business on June 4, 2019);

Voting again by Internet or telephone prior to 11:59 p.m. EDT on June 4, 2019 (only the latest vote you submit will be counted); or

Submitting a new properly signed and dated paper proxy card with a later date (your proxy card must be received before the start of the Annual Meeting).

If your shares are held in street name, you should contact your broker, bank or other holder of record about revoking your voting instructions and changing your vote prior to the meeting.

If you are eligible to vote at the Annual Meeting, you also can revoke your proxy or voting instructions and change your vote at the Annual Meeting by submitting a written ballot before the polls close.

Stockholders Entitled to Vote and Ownership

You are entitled to one vote at the Annual Meeting for each share of the Company's common stock that you owned of record at the close of business on April 12, 2019. As of April 12, 2019, the Company had issued and outstanding 28,273,189 shares of common stock. Information regarding the holdings of the Company's stock by directors, executive officers and certain other beneficial owners can be found beginning on page [16](#).

A list of the stockholders of record entitled to vote at the Annual Meeting will be available for review by any stockholder, for any purpose related to the meeting, between 9:00 a.m. and 5:00 p.m. at the principal offices of the Company, located at One Village Center Drive, Van Buren Township, Michigan 48111, for ten days before the meeting.

Required Vote to Approve the Proposals

The Company's Bylaws require that a majority of the Company's common stock be represented at the Annual Meeting, whether in person or by proxy, for the quorum that is needed to transact any business.

Election of Directors. To be elected, directors must receive a majority of the votes cast (the number of shares voted "For" a director nominee must exceed the number of votes cast "Against" that nominee), except in the event of a contested election. A properly executed proxy marked "Abstain" with respect to such matter will not be counted as votes "For" or "Against" a director, although it will be counted for purposes of determining whether there is a quorum. In the event of a contested election (where the number of nominees exceeds the number of vacancies), the affirmative vote of a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors would be required for the election of directors. A properly executed proxy marked to withhold authority with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum.

Other Proposals. For each proposal other than the election of directors, the affirmative vote of the holders of a majority of the shares represented in person or by proxy and entitled to vote on the item will be required for approval. A properly executed proxy marked "Abstain" with respect to any such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum. Accordingly, an abstention will have the effect of a negative vote.

If you hold your shares in street name through a broker or other nominee and you do not give voting instructions at least ten days before the meeting to your broker or other nominee, then your broker or other nominee may exercise voting discretion only with respect to matters considered to be "routine" by stock exchange rules, such as the ratification of the appointment of the independent registered public accounting firm. On non-routine matters, such as the election of directors and other proposals, the brokers or other nominees cannot vote your shares absent voting instructions from the beneficial holder, resulting in so-called "broker non-votes." Broker non-votes are not deemed to be votes cast, and as a result have no effect on the outcome of any matters presented, but will be counted in determining whether there is a quorum.

Where to Find Voting Results

The Company will publish the voting results in a Current Report on Form 8-K to be filed with the SEC within four business days after the voting results are known. You will also find the results in the investor information section of the Company's website at <https://investors.visteon.com/sec-filings>.

Cost of Solicitation

The Company's directors, officers and employees may solicit proxies in person or by telephone, mail, email, telecopy or letter. The Company will pay for soliciting these proxies as well as reimburse brokers and other nominees for their reasonable out-of-pocket expenses for forwarding proxy materials to beneficial owners.

ITEM 1. ELECTION OF DIRECTORS

The first proposal on the agenda for the Annual Meeting will be electing ten directors to hold office until the Annual Meeting of Stockholders to be held in 2020. We expect each nominee for election as a director to be able to serve if elected. If any nominee is not able to serve, proxies will be voted in favor of the remainder of those nominated and may be voted for substitute nominees, unless the Board chooses to reduce the number of directors serving on the Board.

The Company's Bylaws provide that in any uncontested election (an election in which the number of nominees for director is not greater than the number to be elected), each director shall be elected if the number of votes cast "for" the nominee's election exceed the number of votes cast "against" that nominee's election. The Bylaws also provide that any nominee who does not receive more votes cast "for" the nominee's election than the number of votes cast "against" that nominee in an uncontested election is expected to promptly tender his or her resignation to the Chairman of the Board, which resignation shall be promptly considered through a process managed by the Corporate Governance and Nominating Committee, to determine if a compelling reason exists for concluding that it is in the best interests of the Company for such incumbent to remain a director based on certain factors. The Corporate Governance and Nominating Committee shall provide its recommendation to the Board with respect to any tendered resignation within 14 days of the certification of the election voting results and such recommendation shall be acted on by the Board within 30 days of the certification of the voting results. If a resignation offer is not accepted by the Board, it will publicly disclose its decision, including a summary of reasons for not accepting the offer of resignation. In a contested election (an election in which the number of nominees for director is greater than the number to be elected), the directors shall be elected by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors.

Director Nomination Process

The Corporate Governance and Nominating Committee assesses all director candidates, whether submitted by management, a stockholder or otherwise, and recommends nominees for election to the Board. In March 2019, the Corporate Governance and Nominating Committee determined that all incumbent directors wishing to stand for election this year should be re-nominated to stand for election at this Annual Meeting. The key considerations for Board candidates in this process included: specific skills and intellectual capital aligned with the Company's future strategic and operating plans, strong commitment to increasing shareholder value, core business competencies, including a record of success, financial literacy, a high degree of ethics and integrity, interpersonal skills, enthusiasm, independence and prior board experience. The Board considers diversity to be an important factor in the selection and nomination of director candidates. Although the Board does not establish specific goals with respect to diversity, the Board's overall diversity is a significant consideration in the nomination process. This process resulted in selecting a Board that would have a diversity of international perspectives and technology expertise in light of the Company's global cockpit electronics and autonomous driving business. The current nominees range in age from forty-seven to sixty-nine, two are female, one resides outside of the United States, and the average tenure of the directors on the Board is 4.8 years.

The Board concurred with the recommendations of the Corporate Governance and Nominating Committee. The specific experiences, qualifications and skills that were considered in their initial selection, and considered by the Board in their nomination, are included in the matrix below and after each of the individual biographies. All the nominees are current directors who have been elected by stockholders at the last annual meeting of stockholders.

Summary of Qualifications of Director Nominees

CORPORATE GOVERNANCE

The following table summarizes certain highlights of our corporate governance practices and policies:

- | | |

| ✓ Share ownership guidelines for directors and executives | |

Corporate Governance Guidelines

The Board has adopted Corporate Governance Guidelines to define the role of the Board, its structure and composition, as well as set forth principles regarding director commitment expectations and compensation. The guidelines also limit the number of other boards a director may serve on and the maximum age of directors.

Board Leadership Structure

After considering evolving governance practices and its current profile, since September 2012, the Board has separated the positions of Chairman and Chief Executive Officer by appointing a non-executive Chairman. The non-executive Chairman serves in a lead capacity to coordinate the activities of the other outside directors and to perform the duties and responsibilities as the Board of Directors may determine from time to time. Currently, these responsibilities include:

- To preside at all meetings of shareholders;
- To convene and preside at all meetings of the Board, including executive sessions of the independent directors;
- Develop, with the assistance of the Chief Executive Officer (the “CEO”), the agenda for all Board meetings;
- Collaborate with the CEO, committee Chairs, and other directors to establish meeting schedules, agendas, and materials in order to ensure that all directors can perform their duties responsibly and that there is sufficient time for discussion of all agenda items;
- Advise the CEO on the quantity, quality, and timeliness of information delivered by management to the Board and provide input so that directors can effectively and responsibly perform their duties;
- Counsel the CEO on issues of interest or concern to directors and encourage all directors to engage the CEO with their interests and concerns;
- Serve as a liaison on Board-related issues between directors and the CEO and management although directors maintain the right to communicate directly with the CEO or any member of management on any matter;
- Assist the Board and the Company’s officers in assuring compliance with and implementation of the Company’s Corporate Governance Guidelines;
- Work in conjunction with the Corporate Governance and Nominating Committee to recommend revisions, as appropriate, to the Corporate Governance Guidelines;
- Make recommendations to the Board concerning the retention of counsel and consultants who report directly to the Board on board matters (as opposed to committee counsel or consultants);
- Work with the Chair of each committee during the annual review of committee charters and work with the Chair of the Corporate Governance and Nominating Committee with respect to committee assignments and the recruitment and selection of new Board members;

- Represent the Board in shareholder engagement meetings and similar activities with other stakeholders, serve as a focal point for shareholder communications addressed to directors, and advise the CEO of the timing and substance of such communications; in each case as approved by the Board;
- Convene special meetings of the Company's shareholders consistent with the terms of the Company's Bylaws from time to time in effect; and
- Help set the tone for the highest standards of ethics and integrity.

The Board believes that a non-executive Chairman can help provide effective, independent Board leadership.

Board Risk Oversight

The Board believes that its primary responsibility is to oversee the business and affairs of the Company for the protection and enhancement of shareholder value, which includes assessing major risks facing the Company and options for mitigating these risks. The committees help the Board carry out this responsibility by focusing on specific key areas of risk inherent in our business.

- The Audit Committee oversees risks associated with financial and accounting matters, including compliance with legal and regulatory requirements, cybersecurity, and the Company's financial reporting and internal control systems.
- The Corporate Governance and Nominating Committee oversees risks associated with corporate governance, including Board structure and director succession planning.
- The Organization and Compensation Committee helps ensure that the Company's compensation policies and practices support the retention and development of executive talent with the experience required to manage risks inherent to the business and do not encourage or reward excessive risk-taking by our executives.
- The Finance and Corporate Strategy Committee oversees risks associated with financial instruments, financial policies and strategies, and capital structure.

The Board receives regular updates from the committees about their activities in this regard. The Company's enterprise risk management approach utilizes an annual risk assessment consisting of management level employee interviews and surveys which identify changes to the Company's risk exposure and overall risk environment as it relates to cybersecurity, financial, compliance, operational and strategic risk areas. The results of management's review are reported to the Board as appropriate by the chief executive officer, chief financial officer and/or general counsel.

Director Independence

The Corporate Governance Guidelines adopted by the Board of Directors provide that a majority of the members of the Board, and each member of the Audit, Organization and Compensation, Corporate Governance and Nominating, Finance and Corporate Strategy, and Technology Committees, must meet the independence criteria of applicable law and stock exchange listing standards. For a director to be considered independent, the Board must determine that the director does not have any direct or indirect material relationship with the Company. To assist it in determining director independence, the Board of Directors has adopted the Visteon Director Independence Guidelines. The Visteon Director Independence Guidelines contain categorical standards of independence which conform to, or are more exacting than applicable law and stock exchange listing standards. In addition to applying its guidelines, the Board will consider all relevant facts and circumstances that it is aware of in making an independence determination.

The Board undertook its annual review of director independence in March 2019, and, based on the listing standards of the Nasdaq Stock Market and the Visteon Director Independence Guidelines, the Board has affirmatively determined that all of the non-employee directors, namely Ms. Bergman, Ms. Maguire and Messrs. Barrese, Jones, Manzo, Scricco, Treadwell, Wilson, and Yassini-Fard, are independent. None of these non-employee directors currently has any relationship with the Company (other than as a director or stockholder). Mr. Lawande is not independent due to his employment as a senior executive of the Company.

Meetings and Executive Sessions

During 2018, the Board of Directors held nine (9) regularly scheduled and special meetings and took action by written consent two (2) times in lieu of a meeting. Under the Company's Corporate Governance Guidelines, directors are expected to attend all scheduled Board and committee meetings as well as the Company's Annual Meeting of

Stockholders. No director attended less than 75% of the aggregate number of meetings of the Board and Board committees on which he or she served during 2018. All current directors who were also on the Board at the time of such meeting attended the last Annual Meeting of stockholders in 2018.

Pursuant to the Corporate Governance Guidelines, the non-employee directors meet without management at the end of every regularly scheduled Board meeting. The presiding director at these meetings is the non-executive Chairman or if there be none, the most tenured independent director in attendance.

Board Committees

The Board has established five standing committees. The principal functions of each committee are briefly described on the following pages. Additional special committees under the direction of the Board may be established when necessary to address specific issues.

Manzo and Treadwell are each qualified as an "audit committee financial expert" within the meaning of the rules and regulations of the Securities and Exchange Commission. Jones, Manzo, Scricco, Treadwell, Wilson and Yassini-Fard each owned 4,895 stock units. Mr. Scricco also owned 8,473 stock units and Messrs. Jones and Manzo each owned 1,481 stock units granted pursuant to the 2010 Incentive Plan.

All non-employee directors currently receive an annual cash retainer of \$95,000. Committee chairs, except for the Chair of the Audit Committee, and Audit Committee members receive an additional annual committee retainer of \$10,000. The Chair of the Audit Committee and the Lead Independent Director, if any, received an additional annual retainer of \$15,000. All retainers are paid in quarterly installments. In addition, the Company reimburses its directors for expenses, including travel and entertainment, they incur in connection with attending board and committee meetings as well as other company-requested activities.

Non-employee directors may elect to defer up to 100% of their total retainer and any cash payments under the Deferred Compensation Plan for Non-Employee Directors, a nonqualified benefit plan, into a unit account. The amounts deferred into the unit account are allocated based on the average of the high and low price of the Company's common stock on the date of the deferral, and the value of this account is directly related to the performance of the Company's common stock. All amounts deferred are distributed following termination of board service in a lump sum or in ten annual installments on the later of January 15th of the year following or six months after the date of termination of service or upon a change in control.

The Company's Non-Employee Director Stock Unit Plan provides for an annual grant to each non-employee director of stock units valued at \$105,000 on the day following the Company's annual meeting. Amounts are allocated to the unit accounts based on the average of the high and low price of the Company's common stock on the date of award, and the value of this account is directly related to the performance of the Company's common stock. Amounts attributed to a director's unit account under the Non-Employee Director Stock Unit Plan will not be distributed until after termination of his or her board service, either in a lump sum or in ten annual installments on the later of January 15th of the year following or six months after the date of termination of service or upon a change in control. In 2018, the non-Executive Chairman of the Board received a restricted stock unit award valued at \$150,000 under the 2010 Incentive Plan with terms similar to awards under the Non-Employee Director Stock Unit Plan.

As noted above, stock units held under the Non-Employee Director Stock Unit Plan and the Deferred Compensation Plan for Non-Employee Directors cannot be sold or transferred during a director's service on the Company's board. The Company believes that this restriction best links director and stockholder interests. The Company's current stock ownership guidelines also require non-employee directors to hold all their equity-based awards received from the Company until termination of board service.

Executive Summary

Visteon is a global technology company that designs, engineers and manufactures innovative cockpit electronics and connected car solutions for the world’s major vehicle manufacturers. Visteon is driving the smart, learning, digital cockpit of the future, to improve safety and the user experience. Visteon is a global leader in cockpit electronic products including digital instrument clusters, information displays, infotainment, head-up displays, telematics, SmartCore™ cockpit domain controllers, and the DriveCore™ autonomous driving platform. Visteon also delivers artificial intelligence-based technologies, connected car, cybersecurity, interior sensing, embedded multimedia and smartphone connectivity software solutions.

Despite a very challenging market environment in 2018, Visteon made significant progress in the transformation of the business. Visteon launched the industry’s first production cockpit domain controller with Daimler and secured significant new business wins in the fast-growing digital cluster and infotainment segments. In addition to winning approximately \$7 billion in new business for the second consecutive year, Visteon added five new customers, which strengthens its position toward achieving long-term growth targets.

Visteon’s long-term goals are to achieve Sales of \$4.4-\$4.9 billion and expand margins by 2023. The automotive supplier business model of developing and supplying custom systems to automakers results in revenue generation that begins after an average of three years following booking the business. The delayed revenue model typically puts pressure on near-term margins, as the execution of new business requires investment in engineering and manufacturing capacity ahead of revenue generation. To support the Company’s long-term goals, the Company’s strategic initiatives included booking higher levels of new business as well as developing new technology offerings with the introduction of an Android-based infotainment system and a scalable autonomous driving controller designed for Level 2 and higher automated driving applications. Additionally, the executive team continues to focus on delivering continued cost efficiencies, improving free cash flow, optimizing the capital structure and driving savings benefits.

Highlights of key actions and other 2018 financial and strategic achievements are summarized below.

- 2018 Sales of \$2,984 million, Adjusted EBITDA⁽¹⁾ of \$330 million, and Adjusted Free Cash Flow⁽²⁾ of \$107 million;
- Winning \$6.9 billion in new business in 2018, of which 73% was next-generation digital products – with five new customers added;
- Significant capital returns to shareholders including \$300 million in share repurchases in 2018, with authorization for an additional \$400 million in repurchases remaining; more than \$4 billion returned since 2012;
- Balance sheet remains strong with Cash of \$467 million, Debt of \$405 million and 1.2x Debt/Adjusted EBITDA;
- Outperformance in China includes \$2.0 billion in new business wins, 34 product launches and Sales up 10 percentage points above market; and
- Technology innovations including the DriveCore™ ADAS platform and Android-based infotainment, as well as launching the industry's first production domain controller — SmartCore™ — with Daimler.

Pay for Performance Focus

The vast majority of the target compensation opportunity is performance-based with the amounts realized, if any, based on our financial results or stock price performance. In 2018, a significant majority (88% of the CEO's target compensation and 69% of the average target compensation of our other NEOs) was provided through annual and long-term incentive award opportunities.

Our 2018 Performance Results Are Reflected in 2018 Total Direct Compensation

The 2018 compensation for our Named Executive Officers is commensurate with the Company's 2018 performance and the goals of our executive compensation program. The mix of award types and incentive plan performance measures was selected to align with our business strategy, talent needs, and market practices. Actual pay to be realized by the executive officers was based primarily on the Company's financial and stock price performance results. A majority of pay was based on at-risk elements given our focus on performance-based pay elements (annual and long-term incentives).

⁽²⁾ Please see the reconciliation of Adjusted Free Cash Flow to Cash provided from operating activities for the year ended December 31, 2018, in Item 9.01 "Financial Statements and Exhibits" of the Company's Current Report on Form 8-K dated February 21, 2019.

The chart below shows the cash vs equity components of target compensation for 2016-2018 which was awarded to our CEO as compared to compensation received or projected to be received as of December 31, 2018 using the Company's stock price as of that date.

The relationship between target and realizable compensation is attributable to several factors:

- Annual Incentive actual payouts relative to target levels
- The difference between the grant-based value of Performance Stock Unit ("PSU") awards and the relative performance as of December 31, 2018
- The value of Restricted Stock Unit ("RSU") awards at the grant date as compared to the value as of December 31, 2018
- The value of options at the grant date as compared to value realized through and "in-the-money" value as of December 31, 2018

These factors, which resulted in realizable compensation for 2018 falling below target compensation, reinforce the performance orientation of our program and the alignment of interests between our executives and our shareholders.

Short-Term Incentive Compensation

Adjusted EBITDA is the primary metric for determining Annual Incentive ("AI") awards with modifiers for new business wins, free cash flow and quality metrics. The AI program yields a threshold payment of 50% of target for threshold performance. Since that level of payout would have caused Adjusted EBITDA to fall below the performance threshold, the Organization and Compensation Committee of the Board of Directors (hereafter referred to as the "Committee") exercised its discretion to reduce the payout amount, first by reducing the payout to a level of funding which resulted in Adjusted EBITDA of \$330 million including the reduction for the Annual Incentive funding and second by not paying any amounts on the modifiers. This resulted in funding of awards at approximately 23% of target.

Long-Term Incentive Compensation Awards

All Named Executive Officers received annual Long-Term Incentive ("LTI") awards in March 2018 which included stock options, restricted stock units and performance stock units. Mr. Pynnonen also received a special one-time restricted stock unit award during 2018 to recognize his efforts as the interim Chief Human Resources Officer.

PSUs granted to NEOs are based on relative total shareholder return over a three year period. The table below shows the PSUs granted over the last three years and their actual or estimated performance through December 31, 2018. The PSUs granted in 2016 were paid out in the first quarter of 2019.

Year Granted	Applicable NEOs	Performance Period	Metric	Actual or Estimated Payout Pct.
2018	All NEOs	Jan 2018-Dec 2020	Relative TSR	Estimated: 35%
2017	All NEOs	Jan 2017-Dec 2019	Relative TSR	Estimated: 81%
2016	All NEOs	Jan 2016-Dec 2018	Relative TSR	Actual: 113%

2018 Say-on-Pay Advisory Vote Outcome

In 2018, our executive compensation program received favorable support of approximately 94% of votes cast by our shareholders. Management and the Committee reviewed this result and believe it to be a strong indication of support for the Company's executive compensation program and alignment of the program with shareholder interests. As detailed throughout this Compensation Discussion & Analysis, we believe the officer compensation program is strongly aligned with shareholder value creation, and reflects solid corporate governance practices.

Executive Compensation Program Design and Governance Practices

Our executive compensation program is designed to provide strong alignment between executive pay, shareholder interests, and Company performance, and incorporates best practices. Here are some of the compensation practices we follow and those we avoid.

What We Do	✓	The Organization and Compensation Committee of the Board of Directors (hereafter referred to as the "Committee") approves all aspects of officer pay
	✓	Target pay levels, on average, to be within a competitive range of the median of comparable companies, considering an individual's responsibilities, business impact, performance and other factors
	✓	Provide the majority of pay through performance-based annual and long-term programs
	✓	Balance short- and long-term incentives using multiple performance metrics, covering individual, financial and total shareholder return ("TSR") performance
	✓	Cap incentive awards that are based on performance goals
	✓	Have "double trigger" (qualified termination of employment following a change in control) equity acceleration for all of the NEOs' outstanding awards
	✓	Have change in control agreements with a "double trigger" for cash severance payments to be made
	✓	Maintain guidelines for significant stock ownership by our NEOs to ensure ongoing and meaningful alignment with shareholders
	✓	Have a compensation recoupment ("clawback") policy for executive officers in the event of a financial restatement
	✓	Prohibit hedging transactions, purchasing the Company's common stock on margin or pledging such shares
	✓	Review key elements of the officer pay program annually, as conducted by the Committee, which also considers our business and talent needs, and market trends
	✓	Use an independent compensation consultant
What We Don't Do	✗	Do not provide excise tax gross-ups
	✗	Do not have compensation practices that encourage unnecessary and excessive risk taking
	✗	Do not grant stock options or stock appreciation rights with an exercise price less than the fair market value on the grant date
	✗	Do not provide dividends or dividend equivalents on unearned PSUs
	✗	Do not provide car allowances, club memberships or similar perquisites

Executive Compensation Program Administration

The Committee is primarily responsible for administering the Company's executive compensation program. The Committee reviews and approves all elements of the executive compensation program that cover the Named Executive Officers. In fulfilling its responsibilities, the Committee is assisted by its independent compensation consultant and takes into account recommendations from the CEO. The primary roles of each party are summarized below.

Party:	Primary Roles:
Organization and Compensation Committee (composed solely of independent directors)	<ul style="list-style-type: none"> • Oversee all aspects of the executive compensation program • Approve officer compensation levels, incentive plan goals, and award payouts • Approve specific goals and objectives, as well as corresponding compensation, for the CEO • Ensure the executive compensation program best achieves the Company's objectives, considering the business strategy, talent needs, and market trends
Senior Management (CEO, CFO, CHRO, and General Counsel)	<ul style="list-style-type: none"> • Make recommendations regarding the potential structure of the executive compensation program, including input on key business strategies and objectives • Make recommendations regarding the pay levels of the officer team (excluding the CEO) • Provide any other information requested by the Committee
Compensation Consultant (FW Cook)	<ul style="list-style-type: none"> • Advise the Committee on competitive market practices and trends • Provide proxy pay data for our compensation peer group • Present information and benchmarking regarding specific executive compensation matters, as requested by the Committee • Review management proposals and provide recommendations regarding CEO pay

Additional information about the role and processes of the Committee is presented above under "Corporate Governance — Organization & Compensation Committee."

Executive Compensation Program Philosophy

The primary objectives of the Company's executive compensation program are to recruit, motivate, and retain highly qualified executives who are key to our long-term success and will focus on maximizing shareholder value. As such, the Company's executive compensation program is structured to accomplish the following:

- Drive achievement of the Company's strategic plans and objectives;
- Create strong alignment of the interests of executives with the creation of shareholder value, particularly as measured by total shareholder return/stock price appreciation;
- Provide a market competitive total compensation package customized to fit our business and talent needs; and
- Be cost-effective and straightforward to understand and communicate.

For each element of compensation and in total, the Company generally targets annualized compensation to be within a competitive range of market median, while also considering an individual's experience, performance, and business impact, as well as our organizational structure and cost implications. The target compensation mix is set based on position responsibilities, individual considerations, and market competitive practices. The proportion of variable, or "at risk," compensation, provided through incentive programs, increases as an employee's level of responsibility increases commensurate with the position's impact on the business. The actual pay earned, if any, for annual and long-term incentives reflects Company and individual performance and will vary above or below the targeted level.

Market Compensation Practices

As one of the inputs in determining executive compensation each year, the Company reviews general industry survey and proxy compensation data regarding market practices. When general industry compensation data are used, the Company is not aware of the specific participant companies in the analysis. In 2018, the Company reviewed NEO base salaries, target annual and long-term incentive award opportunities, as well as selected pay program design practices. In conducting this review, the Committee selected the 14 companies listed below whose aggregate profile was comparable to Visteon in terms of industry, size and other operations-related metrics as comparators for purposes of determining the range of market medians with respect to compensation elements (the "Compensation Peer Group"). When compared to the peer group utilized for 2017, the 2018 peer group removed Metaldyne Performance Group and Harman International Industries. We believe the Compensation Peer Group represents a reasonable comparator group of direct automotive supplier, technology peers and other related companies with which we compete for executive talent.

American Axle & Manufacturing	Garmin Ltd.	Rockwell Automation Inc.
Ametek Inc.	Gentex Corporation	Rockwell Collins Inc.
Cooper-Standard Holdings Inc.	Harris Corporation	Sensata Technologies Holding NV
Dana Holding Corporation	Motorola Solutions Inc.	Trimble Navigation Limited
FLIR Systems Inc.	Nuance Communications Inc.	

For purposes of determining 2019 compensation, the Committee removed Rockwell Collins (due to an acquisition) and added Spirit AeroSystems.

Executive Compensation Program — Description of Primary Elements

An overview of the primary elements of the executive compensation program is presented below. Consistent with our emphasis on aligning pay and performance, the largest portion of the target compensation opportunity is provided through annual and long-term incentive programs.

Each primary element of the executive compensation program is described below.

Base Salary

Base salaries provide basic security for our employees at levels necessary to attract and retain a highly qualified and effective salaried workforce. Base salaries are determined taking into account market data as well as an individual's position, responsibilities, experience, and value to the Company. During 2018 two NEOs received base salary increases. Messrs. Bilollikar and Vallance received 5% market- and merit-based increases to \$405,020 and \$404,884, respectively. The actual salaries paid to each Named Executive Officer for 2018 are presented in the "Summary Compensation Table."

Annual Incentive Awards

The Company's Annual Incentive program provides key salaried employees the opportunity to earn during their tenure an annual cash bonus based on specified individual, financial, operational and/or strategic goals. This program is designed to motivate executives to achieve key short-term financial and operational goals of the Company. The target incentive opportunities are expressed as a percentage of base salary, which are set by the Committee after considering the potential impact on the business of each role, the relationships among the roles and market competitive levels for the positions. The target annual incentive opportunities, as a percentage of base salary as of December 31, 2018 were: Mr. Lawande 125%, Mr. Garcia 80%, Messrs. Bilollikar, Pynnonen and Vallance 65% (up from 50% in 2017 for Mr. Pynnonen). Actual awards earned can range from 0% to 200% of target based on Company and individual performance.

On March 1, 2018, the Committee approved 2018 AI award opportunities for the Named Executive Officers as well as the AI program metrics. Under the 2018 AI program, Adjusted EBITDA is the primary metric to determine whether any amount will be paid to employees. The resulting Adjusted EBITDA award level is then modified based upon the Company's performance against new business wins, adjusted free cash flow and quality metrics with the Committee retaining discretion to adjust the incentive pool outside of the specified measurements.

TABLE OF CONTENTS

Specific threshold, target, and maximum goals for the 2018 AI primary metric are set forth below, as well as the percentage of the target award earned and 2018 actual results, including the modifiers.

Primary Measure (\$ in millions)	2018 Threshold	2018 Target	2018 Maximum	2018 Actual% of Target Awarded
Adjusted EBITDA ⁽¹⁾	\$ 330	\$ 370-380	\$ 460	\$ 330
Payout as a % of Target	50%	100%	200%	23.2%

Modifiers (\$ in millions)	Metric Range	Modifier Range Possible	Modifier Achieved	Modifier Applied
New Business Wins	Less than \$5,400 to \$7,200+	-/+ 10%	+ 6%	0%
Adjusted Free Cash Flow	Less than \$99 to \$235+	-/+ 5%	- 4%	0%
Written Quality Concerns	Greater than 551 to less than 410	-/+ 5%	0%	0%
Total Annual Incentive Earned				23.2%

(1) Adjusted EBITDA was defined as net income attributable to the Company, adjusted to eliminate the impact of depreciation and amortization, restructuring expense, net interest expense, equity in net income of non-consolidated affiliates, loss on divestiture, provision for income taxes, discontinued operations, net income attributable to non-controlling interests, non-cash stock-based compensation expense, and other gains and losses not reflective of the Company's ongoing operations.

The AI program yields a payment of 50% of target for threshold performance. Since that level of payout would have caused Adjusted EBITDA to fall below the performance threshold, the Committee exercised its discretion to reduce the payout amount, first by reducing the payout to a level of funding which resulted in Adjusted EBITDA of \$330 million including the reduction for the Annual Incentive funding and second by not paying any amounts on the modifiers. This resulted in funding of awards at 23.2% of target. As a result of the foregoing, 2018 annual incentive awards were paid at 23.2% of target for all Named Executive Officers. The amounts paid to the NEOs are set forth in the "Summary Compensation Table" under the column "Non-Equity Incentive Plan Compensation."

Long-Term Incentive Awards

The Company's Long-Term Incentive program is designed to reward executives for the achievement of specified multi-year goals that are linked to the Company's long-term financial performance, to align the delivery of incentive value with increases in the Company's stock price and to retain key employees. Typically awards are granted each year with a vesting or performance period of three years; however, in some situations, such as the recruitment of new executives or to focus on objectives with a different duration, the Company may use a shorter or longer period. The annualized total targeted long-term incentive award opportunity is determined by considering market data, organization level and/or impact of the position on the Company's performance.

2018 Long-Term Incentive Grants

On March 1, 2018, Mr. Lawande received regular long-term incentive grants with a targeted grant date value, in total, of \$6 million, while Messrs. Garcia (275%), Bilolikar (90%), Pynnonen (90%) and Vallance (90%) received regular long-term incentive grants with targeted grant date values, in total, equal to a percentage of base salary. The LTI grant mix consisted of performance stock units, stock options and restricted stock units, as described below.

Award Type and Weighting	Primary Role	Design Features
Performance Stock Units (50% of the total LTI value)	Reward the achievement of TSR results from 2018 through 2020 relative to returns of 16 similar companies	<ul style="list-style-type: none"> • PSUs provide executives the opportunity to earn shares based on the Company's three-year TSR relative to 16 automotive sector peer companies (listed below) • The awards are divided among three periods with all earned awards paid at the end of the three-year cycle (paid in early 2021) • 2018 TSR performance (25% of award opportunity) which was earned at 35% based on the Company's 25th percentile rank • 2018 through 2019 TSR performance (25% of award opportunity) • 2018 through 2020 TSR performance (50% of award opportunity) • The awards for the first and second performance periods will be increased to reflect the performance over the entire three-year cycle, if greater. If the Company's actual TSR is negative during a performance period, the award earned for that period cannot exceed 100% of target (regardless of percentile rank within the peer group). • Awards can be earned up to 150% of the target award opportunity based on the Company's TSR performance percentile ranking within the comparator group (Visteon plus the 16 TSR peer companies) • No award earned if Visteon's performance is below the 25th percentile • At the 25th percentile, 35% of the target award is earned • At the 55th percentile, 100% of the target award is earned • At the 80th percentile, 150% of the target award is earned • Award payouts for performance between the percentiles specified above is determined based on interpolation • TSR is calculated using the 20-trading day average closing price at the start and end of the performance period, adjusted for dividends
Stock Options (25% of the total LTI value)	Reward for appreciation in the Company's stock price	<ul style="list-style-type: none"> • Exercise price equal to the average of the high and low trading prices on the date of grant • Vest one-third per year beginning one year after the date of grant • Seven-year term, upon which any unexercised options would expire
Restricted Stock Units (25% of the total LTI value)	Facilitate retention and provide an ownership-like stake	<ul style="list-style-type: none"> • Vest one-third per year beginning one year after the date of grant

Relative TSR Peer Group (16 companies)

The TSR Peer Group companies listed below differ from the Compensation Peer Group discussed previously as the companies with which we compete for talent are more technology-based, whereas the companies with which we compete for investor dollars are more automotive-based, lower-margin companies.

Mr. Pynnonen's 2018 Special Long-Term Incentive Compensation

In recognition of Mr. Pynnonen's service as the interim Chief Human Resources Officer, on March 1, 2018, the Committee granted him four-year, cliff vesting restricted stock units with an approximate value of \$200,000.

2019 Long-Term Incentive Program Changes

Changes to the 2019 long-term incentive program include updated target grant values for Mr. Garcia (\$1,625,000), Mr. Bilollikar (\$365,000), Mr. Pynnonen (\$440,000) and Mr. Vallance (\$460,000). In addition, the maximum which can be earned on PSU awards has been increased from 150% to 200% of target for 80th percentile TSR performance within the comparator group to align with market practices.

Other Compensation Elements

Stock Ownership Guidelines

The Company has adopted stock ownership goals for elected officers of the Company at or above Senior Vice President, which includes all NEOs. The goal for these officers is to own common stock worth a multiple of salary, ranging from three to six times. Effective January 1, 2018, the Committee implemented a retention requirement until the multiple of salary threshold is met. All executives subject to the stock ownership guidelines must retain 50% of net shares which vest from restricted and performance stock units and 50% of the shares remaining after the payment of option exercise prices and any taxes owed. Any pre-existing 10b5-1 trading plans were exempted from this new retention requirement by the Committee. Under the guidelines, only actual shares owned satisfy the guidelines. As of December 31, 2018 all officers continue to be subject to the retention requirement and all pre-existing 10b5-1 trading plans have expired. The stock ownership guidelines are as follows:

- Chief Executive Officer — six times (6x) base salary; and
- Executive and Senior Vice Presidents — three times (3x) base salary.

Executive Perquisites and International Service Employee Program

The Company had historically provided the Named Executive Officers with a flexible perquisite allowance program during their tenure to provide basic competitive benefits. The flexible perquisite allowance program was eliminated in 2016. The Company continues to maintain an Executive Security Program that permits the CEO to use commercially available private air transportation services for personal and business travel, and provides the benefit of various personal health and safety protections. The CEO does not receive a tax "gross-up" for personal use of such aircraft and all use requires advance approval by one of the following: Chairman of the Board or Chairman of the Compensation or Audit Committees of the Board. Additionally, the Company maintains an Executive Relocation Policy to assist executives with relocation expenses including home sales and searches, temporary living, moving and related expenses. There was no personal use of commercially available private air transportation services by or relocation benefits provided to NEOs during 2018.

As a global organization, senior executives of the Company are located in key business centers around the world. To facilitate the assignment of experienced employees to support the business, the Company has an International Long Term Assignment Policy to address incremental costs incurred by assignees as a result of their international assignments. The policy provides for the reimbursement of incremental housing, cost of living, education and other costs incurred in conjunction with international assignments as well as the tax costs associated with these payments. The Company provides tax equalization to employees on international assignment. The tax equalization policy is intended to ensure that the employee bears a tax burden that would be comparable to the home country tax burden on income that is not related to the international assignment. It is the objective of the Company's International Long Term Assignment Policy that the employee not be financially disadvantaged as a result of the international assignment nor that the employee experience windfall gains. During 2018, Mr. Bilollikar was on an international assignment based in Kerpen, Germany, the cost of which is included in the "All Other Compensation" column of the "Summary Compensation Table."

Retirement Benefits Overview

The Named Executive Officers participate during their tenure in the Company's qualified retirement and savings plans in their respective home countries on the same basis as other similarly situated employees. Over the last several years, the Company has made changes to the type of retirement plans and the level of benefits provided under such plans, based on an assessment of the Company's business and talent needs, costs, market practices, and other factors. Effective December 31, 2011, the U.S. defined benefit pension plan was frozen for all participants. All of the NEOs participate in U.S.-based plans.

The Named Executive Officers, as well as most U.S. salaried employees, are entitled during their tenure to participate in the Visteon Investment Plan (Visteon's 401(k) investment and savings plan). The Company's match is 100% of the employee's eligible contributions up to 6% of eligible pay (subject to IRS limits), which was designed to attract and retain employees in light of the Company's freezing of other retirement benefit plans. Amounts deferred for each Named Executive Officer are reflected in the "Salary" column of the "Summary Compensation Table." The Company also maintains a Savings Parity Plan, which provides eligible participants during their tenure with Company contributions of 6% of eligible pay that are restricted due to IRS limits under the broad-based, qualified 401(k) plan. The Company's Supplemental Executive Retirement Plan (SERP) provides eligible participants during their tenure with annual Company contributions of 6% (Vice Presidents), 9% (Executive and Senior Vice Presidents), or 14.5% (CEO) of pay in place of the prior defined benefit formulas in the plan for service after January 1, 2012. The SERP is closed to new entrants other than for those employees at or above Senior Vice President or those employees who are specifically designated for participation by the Committee. Company contributions to these plans on behalf of the NEOs are included in the "All Other Compensation" column of the "Summary Compensation Table."

Additional details about the Company's prior and current retirement plans are presented in a later section, under "Retirement Benefits."

Severance and Change in Control Benefits

The Company has entered into change in control agreements with all of its executive officers (except Mr. Lawande, whose change in control benefits are included in his employment agreement), including the Named Executive Officers. These agreements, which were last revised in October 2012, provide for certain benefits if a qualifying termination occurs following a change in control of the Company, as defined by the agreements. For the Named Executive Officers, and subject to the terms of the agreements, change in control cash severance benefits are provided during their tenure as a multiple of 1.5 (SVPs) or 2.0 (EVPs and Mr. Lawande) times the sum of the executive's annual base salary and target annual incentive. In addition, the agreements provide for other severance benefits, such as the continuation of medical benefits and outplacement assistance, pursuant to their terms. The agreements have a "double trigger" provision, which would require that the executive's employment terminate without cause or for good reason following a change in control, as defined in the agreements, in order to receive benefits under the agreements. No excise tax gross-up provisions are contained in the change in control severance arrangements.

Upon the involuntary termination of employment by the Company (other than for specified reasons, including disability, availability of other severance benefits, and inappropriate conduct), executive officers are entitled to severance benefits under the 2010 Visteon Executive Severance Plan, which was revised effective February 2017 (except Mr. Lawande whose severance benefits are included in his employment agreement). Subject to the terms of the Severance Plan, a specific and consistent level of severance benefits are provided with a cash severance payment of 1.5 (SVPs, EVPs and CEO) times the sum of an executive's annual base salary and target annual incentive. Executives would also be entitled to, subject to the terms of the severance plan, the reimbursement of medical coverage premiums under COBRA for up to eighteen months following termination, the provision of outplacement services for up to twelve months, and the payment of a pro-rated portion of any outstanding annual incentive based on actual Company performance during the performance period.

The severance plan and change in control agreements provide that outstanding stock-based awards vest only in accordance with the applicable terms and conditions of such awards. For additional details about the change in control agreements, the severance plan, the terms and conditions of awards, and the estimated value of these potential payouts, see the section "Potential Payments Upon Termination." The terms of Mr. Lawande's compensation package, including potential severance and change in control benefits, are detailed in his employment agreements. See the section "Employment Agreement with Mr. Lawande" for additional details regarding such agreements.

Executive Compensation Policies

Stock Awards Granting Policy. In 2018, the Company granted regular stock awards to its Named Executive Officers and other eligible key employees. Stock awards made to executives at the time they become employees or officers of the Company have a grant date on the later of the date employment commences or the date the Committee approves the awards. In all cases, the exercise price of stock options and stock appreciation rights is the average of the high and low trading price on the grant date. Stock price is not a factor in selecting the timing of equity-based awards.

Securities Trading and Anti-Hedging/Anti-Pledging Policy. The Company maintains a Policy Regarding Purchases and Sales of Company Stock that imposes specific standards on directors and officers of the Company. The policy is intended not only to forbid such persons from trading in Company stock on the basis of inside information, but to avoid even the appearance of improper conduct on the part of such persons. In addition to the specific restrictions set forth in the policy, the policy requires that all transactions in Company stock by such persons and by others in their households be pre-cleared by the General Counsel. The only exceptions to the pre-clearance requirement are 10b5-1 trading plans and regular, ongoing acquisition of Company stock resulting from continued participation in employee benefit plans that the Company or its agents may administer. The policy also expressly prohibits directors and officers from engaging in hedging transactions involving the Company's stock or pledging the Company's stock.

Pay Clawbacks. In April 2013, the Company adopted a compensation recovery policy, which requires each executive officer of the Company to repay or forfeit a portion or all of any annual incentive, performance stock units or other performance-based compensation granted to him or her on or after September 29, 2012 if:

- the payment, grant, or vesting of such compensation was based on the achievement of financial results that were subsequently the subject of a restatement of the Company's financial statements filed with the Securities and Exchange Commission;
- the amount of the compensation that would have been received by the executive officer, had the financial results been properly reported, would have been lower than the amount actually received; and
- the Board determines in its sole discretion that it is in the best interests of the Company and its shareholders for the executive officer to repay or forfeit all or any portion of the compensation.

Tax Deductibility of Executive Compensation. Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"), limits the Company's federal income tax deduction to \$1 million per year for compensation to its CEO and certain other highly compensated executive officers (and beginning for 2018, certain former executive officers). Historically, qualified performance-based compensation for the CEO and certain "covered officers" was not, however, subject to the deduction limit, provided certain requirements of Section 162(m) were satisfied. This exception has now been repealed, effective for taxable years beginning after December 31, 2017, unless certain transition relief for certain compensation arrangements in place as of November 2, 2017 is available. It has been our policy to consider the impact of this rule when developing and implementing our executive compensation program. Annual Incentive awards, performance-based stock units, and stock options (and stock appreciation rights) generally were designed to meet the deductibility requirements. We also believe that it is important to preserve flexibility in administering compensation programs in a manner designed to promote varying business and talent goals. Accordingly, we have not adopted a policy that all compensation must qualify as deductible under Section 162(m).

Statement Regarding Compensation Risk Assessment

The Company annually conducts a risk assessment and believes that its compensation programs, policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company. Specifically, as detailed previously, the Company maintains a market competitive, balanced executive compensation program with varying incentive award types, performance metrics, performance/vesting periods and includes governance features that mitigate potential risk (including Committee oversight, maximum potential payouts are set under incentive plans, stock ownership guidelines, and a pay clawback policy).

COMPENSATION COMMITTEE REPORT

The Committee oversees the Company's programs for compensating executive officers and other key management employees, including the administration of the Company's equity-based compensation plans, and approves the salaries, bonuses and other awards to executive officers. The Committee has reviewed and discussed the Compensation Discussion and Analysis with management of the Company, and, based on such review and discussion, the Committee has recommended to the Board of Directors that the Compensation Discussion and Analysis so stated be included in this Proxy Statement.

- (1) This column is composed of sign-on bonus payments to Messrs. Garcia and Pynnonen.
- (2) The amounts shown in this column represent the grant date fair values for PSU and RSU awards in 2018, 2017 and 2016. Messrs. Bilolikar and Vallance received special retention RSU grants in 2017 valued at approximately \$500,000 and \$900,000, respectively, which cliff vest four years from the grant date. The grant date fair values have been determined based on the assumptions and methodologies set forth in Note 15 "Stock-Based Compensation" to the consolidated financial statements included in Item 8 "Financial Statements and Supplementary Data" of the Company's 2018 10-K. Assuming the maximum performance levels are achieved for the NEOs' PSUs granted in 2018 and based on the grant date share price, the values in the "Stock Awards" column would be \$5,741,103 for Mr. Lawande; \$1,552,487 for Mr. Garcia; \$348,680 for Mr. Bilolikar; \$581,414 for Mr. Pynnonen; and \$348,494 for Mr. Vallance. These amounts may not reflect the actual value realized upon vesting or settlement, if any.
- (3) The amounts shown in this column represent the grant date fair values for stock options granted in 2018, 2017 and 2016. The grant date fair values have been determined based on the assumptions and methodologies set forth in Note 15 "Stock-Based Compensation" to the consolidated financial statements included in Item 8 "Financial Statements and Supplementary Data" of the Company's 2018 10-K.
- (4) For 2018, this column is composed of the amounts payable to each of the Named Executive Officers under the 2018 annual incentive performance program, as further described in the "Compensation Discussion and Analysis," above. There were no earnings on non-equity incentive plan compensation earned or paid to the Named Executive Officers in or for 2018.

Employment Agreement with Mr. Lawande

In June 2015, the Company and Mr. Lawande entered into an employment agreement and Mr. Lawande commenced employment on June 29, 2015. Under the terms of the employment agreement, Mr. Lawande serves as the Chief Executive Officer and President of the Company, with an initial term of three years. Pursuant to the Employment Agreement, Mr. Lawande received an initial annualized base salary of \$1 million, with a target annual cash bonus opportunity of no less than 100% of his base salary and annual long-term incentive opportunity of \$5 million. This agreement was amended and restated effective February 12, 2018, to extend the term to June 29, 2021. Base salary was established at an annual rate of \$1,030,000 with a target annual cash bonus opportunity of at least 125%.

Under the initial agreement, and in connection with the forfeiture of significant outstanding long-term incentive awards at his prior employer, Mr. Lawande received a \$3.25 million cash sign-on/buy-out payment ("Sign-On/Buy-Out Payment") and a \$3.25 million grant of time-based restricted stock units ("Sign-On/Buy-Out RSUs"). The Sign-On/Buy-Out Payment and RSUs are now fully vested and no longer subject to clawback. The Sign-On/Buy-Out RSUs had a grant date value equal to \$3.25 million, vested on the third anniversary of the commencement of Mr. Lawande's employment and were subject to the terms and conditions of the 2010 Incentive Plan, as amended. The Sign-On/Buy-Out RSUs also provided for dividend equivalents in the form of additional shares of the Company's common stock in the event of the issuance of dividends on shares of the Company's common stock (with such additional shares subject to the same terms and conditions of the Sign-On/Buy-Out RSUs), and, generally in the event Mr. Lawande's employment was terminated by the Company without Cause or by Mr. Lawande for Good Reason, the Sign-On/Buy-Out RSUs would fully vest.

If Mr. Lawande is terminated without cause or his employment is voluntarily terminated for good reason, he will receive (generally subject to a customary release of claims and certain restrictive covenants) (i) a cash payment equal to 1.5 times the sum of his annual base salary and target bonus, (ii) a pro rata annual bonus for the year of termination based on corporate achievement levels for the entire year, (iii) up to 18 months of health benefits and (iv) outplacement services for a period of up to one year in an amount not to exceed \$50,000. If, within two (2) years after the occurrence of a Change in Control (as defined in the employment agreement), Mr. Lawande is terminated without Cause or his employment is voluntarily terminated for good reason, he will receive (i) a cash payment equal to 2 times the sum of his annual base salary and target bonus, (ii) a pro rata portion of the annual bonus awarded to Mr. Lawande for the fiscal year in which the termination occurs, assuming the achievement at target level, (iii) up to 18 months of life, accident and health insurance benefits, (iv) accelerated vesting of any benefits under the Company's 2010 Supplemental Executive Retirement Plan and Savings Parity Plan or any successor to any such plans or similar plans and payment of benefits under such plans in accordance with their terms and (v) reimbursement for outplacement services for a period of up to one year in an amount not to exceed \$50,000. Mr. Lawande is entitled to participate in the Company's standard benefits and perquisites on the same basis as other

senior executives of the Company, as well as receive reimbursement of up to \$10,000 of professional fees incurred in connection with finalizing the employment agreement and related agreements. The employment agreement includes a clawback provision whereby Mr. Lawande may be required, upon certain triggering events, to repay all or a portion of his compensation, pursuant to any clawback policy adopted by or applicable to the Company, including under the Dodd-Frank Wall Street Reform and Consumer Protection Act. The employment agreement also contains customary confidentiality, ownership of works and non-disparagement provisions, as well as standard non-competition and non-solicitation provisions.

Visteon Corporation 2010 Incentive Plan

The Visteon Corporation 2010 Incentive Plan, as amended, permits grants of stock options, stock appreciation rights, performance stock units, restricted stock, restricted stock units and other rights relating to our common stock, as well as performance and time-based cash bonuses. In 2018, the Company implemented an annual incentive cash bonus program for eligible employees and a long-term equity-based incentive program for eligible employees, including the Named Executive Officers. These programs are discussed further under “Compensation Discussion and Analysis,” above. Except under certain circumstances such as retirement or involuntary termination, an executive must be employed in good standing with the Company at the conclusion of a performance period to be eligible for a bonus payment. The Committee retains discretion under the 2010 Incentive Plan to modify or adjust any award at any time.

The stock options awarded under the 2018 long-term incentive program vest ratably over three years from the date of grant. The exercise price of the stock options is the average of the high and low selling prices of our common stock on the Nasdaq Global Select Market (Nasdaq) on the date of grant, unless otherwise approved by the Committee. Any unexercised stock options will expire after seven years. If a holder of a stock option retires, becomes disabled, or dies, his or her stock options continue to be exercisable up to the normal expiration date. See “Potential Payments Upon Termination,” below. The stock options are subject to certain conditions, including not engaging in competitive activity, and generally cannot be transferred. The restricted stock units awarded under the 2018 long-term incentive program vest ratably over three years from the date of grant and, at the election of the Company, will be paid in common stock or cash based on the average of the high and low selling prices of our common stock on the Nasdaq on such vesting date. The performance stock units awarded under the 2018 long-term incentive program vest on January 31, 2021 based on the achievement of certain relative total shareholder return metrics and will be paid in cash based on the average of the high and low selling prices of our common stock on Nasdaq on such vesting date or common stock, at the election of the Company. Holders of restricted stock units and performance stock units (to the extent earned) may receive the same cash dividends or dividend equivalents as other stockholders owning common stock.

The Special Distribution paid to shareholders in January 2016 qualified as a dividend under the 2010 Incentive Plan, as amended. As such, Mr. Lawande received dividend equivalent units for outstanding restricted stock units and performance stock units in accordance with the terms and conditions of his awards granted in 2015. Messrs. Bilollikar and Vallance received accrued cash dividends on their outstanding restricted stock units and performance stock units. Such dividend equivalent units and accrued cash dividends are earned by the executives as the underlying restricted stock units or performance stock units vest. In regard to stock options outstanding as of the January 2016 Special Distribution, the exercise prices of Messrs. Lawande, Bilollikar and Vallance's stock options were reduced in accordance with the 2010 Incentive Plan document, so as not to put the executives in a disadvantaged position.

The closing price of the Company's shares on March 1, 2018 was \$123.46. The grant date fair value for the PSUs was determined using a Monte Carlo simulation and was based on a price of \$131.12 per target unit. The grant date fair value for the RSUs was based on price of \$124.34, the average high and low market price of the Company's stock on the grant date. The grant date fair value for the Options was determined using the Black-Scholes option pricing model and was based on a price of \$31.89 per option. The ultimate value of stock-based awards, if any, will depend on the future value of the common stock and the holder's investment decisions, neither of which can be accurately predicted.

Outstanding Equity Awards at 2018 Fiscal Year-End

Retirement Benefits

Pension Benefits for 2018

The following table sets forth the actuarial present value of Mr. Bilolikar's accumulated benefit under each defined benefit plan, assuming benefits are paid at normal retirement age. The table also shows the number of years of credited service under each such plan, computed as of the same pension plan measurement date used in the Company's audited financial statements for the year ended December 31, 2018. The table also reports any pension benefits paid to each Named Executive Officer during the year. Messrs. Lawande, Garcia, Pynnonen and Vallance are not entitled to defined benefits as they joined the Company after the defined benefit plans were frozen as described below.

Name	Plan Name	Number of Years of Credited Service (#)	Present Value of Accumulated Benefit (\$) ⁽¹⁾	Payments During Last Fiscal Year (\$)
Sunil K. Bilolikar	Visteon Pension Plan	17.0	\$ 509,677	\$ —
	Pension Parity Plan	17.0	\$ 54,249	\$ —
	Supplemental Executive Retirement Plan	17.0	\$ 413,901	\$ —

(1) The present value of the accumulated benefits was determined using the discount rate, mortality assumptions, interest crediting rate and measurement date (December 31, 2018) used by the Company for financial reporting purposes as further described in Note 14 "Employee Benefit Plans" to the consolidated financial statements included in Item 8 "Financial Statements and Supplementary Data" of the Company's 2018 Form 10-K. The benefits were assumed to be payable at normal retirement ages or such earlier ages at which the executives could commence an unreduced retirement benefit. The present value of Mr. Bilolikar's pension benefits assuming an early retirement as of December 31, 2018 is approximately \$1,203,000.

The Company froze compensation and service in its defined benefit pension plan for U.S. employees effective December 31, 2011. The frozen plan, the Visteon Pension Plan (the "Qualified Pension Plan"), is a defined benefit plan qualified under Section 401(a) of the Internal Revenue Code (the "Code"). Visteon provides additional pension benefits to its U.S. executives under the following nonqualified supplemental pension arrangements: the 2010 Supplemental Executive Retirement Plan ("SERP"); and the 2010 Pension Parity Plan ("Pension Parity Plan"). The defined benefit component of the SERP and the Pension Parity Plan were also frozen on December 31, 2011.

In order to reduce the costs and volatility of these benefits to permit the Company to compete on a global basis, Visteon has made a number of modifications to its retirement programs over time. As a result, participation in these plans, and certain features of the plans, depend on when each executive was hired by the Company.

Qualified Pension Plan

The non-contributory feature of the Qualified Pension Plan provides a monthly benefit, payable in the form of a life annuity, equal to a flat rate (fixed dollar rate) times years of employment prior to July 1, 2006. The highest flat rate in effect on June 30, 2006 was \$47.45. Prior to July 1, 2006, following three months of employment, a participant could elect to be covered by the contributory feature of the plan and receive a contributory benefit in lieu of the non-contributory benefit. The contributory benefit, payable in the form of a life annuity, is equal to 1.5% of Final Average Monthly Salary times years of employment (prior to July 1, 2006) while a contributory participant plus 0.4% of Final Average Monthly Salary in excess of the Social Security Breakpoint times years of employment (prior to July 1, 2006, not to exceed 35 years) while a contributory participant. Final Average Monthly Salary is the highest average monthly salary paid as of any five consecutive December 31 dates during the last 120 consecutive months prior to January 1, 2012 while a contributory participant. Normal retirement is age 65 and portions of early retirement benefits are available at age 62 unreduced for age. Early retirement benefits are available as early as age 55 with 10 years of service or at any age with 30 years of service with portions reduced from age 62. Mr. Bilollikar is currently eligible for early retirement benefits. If the employee was contributing to the plan as of June 30, 2006, future December 31 base pay amounts continue to be recognized for purposes of determining the Final Average Monthly Salary through December 31, 2011. Effective July 1, 2006, salaried employees accrue monthly cash balance benefits under the pension plan. The Cash Balance benefit is based on a hypothetical account which grows with 4% pay credits through December 31, 2011 and interest credits based on the 30-year Treasury bond rate which continue until commencement of benefit payments. The cash balance vesting requirement for service after January 1, 2008 is three years. At retirement, the vested account balance is payable as a lump sum or converted into a monthly benefit payable in the form of a life annuity. The benefit payable from the cash balance feature is reduced for early commencement if payment begins before age 65. Effective January 1, 2013, participants may elect to receive the entire value of the Qualified Pension Plan benefit as a lump sum.

Nonqualified Pension Plans

Since the Qualified Pension Plan is a qualified plan, it is subject to the rules of the Code. The Code limits the amount of benefits that may be paid by a qualified plan and it limits the amount of salary that may be recognized in computing plan benefits. The maximum accrued benefit for 2018 is \$220,000 and the maximum annual salary the plan may recognize for 2011, the year the plan was frozen is \$245,000. The Pension Parity Plan, an unfunded, nonqualified pension plan, restores any benefits lost due to the limitations on benefits and compensation imposed by the Code. The changes to the Qualified Pension Plan that took effect on July 1, 2006 and December 31, 2011 also apply to the Pension Parity Plan.

For eligible executives hired prior to January 1, 2002, the SERP, a nonqualified, unfunded pension benefit, provides an additional monthly benefit, calculated in the form of a life annuity, equal to the participant's Final Average Monthly Salary (without regard to the Code compensation limit) times years of employment times a percentage determined by job classification at retirement. The percentages range between 0.20% and 0.90%. Credited service earned under this formula ceased to accrue under the SERP as of June 30, 2006. Effective as of July 1, 2006 through December 31, 2011, eligible executives participate in the "BalancePlus SERP" feature of the SERP. The BalancePlus SERP provides an additional monthly benefit based upon a hypothetical account balance that is in excess of the amount calculated under the Qualified Pension Plan BalancePlus Program and the Pension Parity Plan. The account balance from the BalancePlus SERP before offset is calculated under the formulas in the BalancePlus Program with the following modifications: 1) Annual Salary is calculated without regard to the Code compensation limit; 2) Final Average Monthly Salary is increased by the average of the three highest consecutive Annual Incentive amounts; and 3) a 15% benefit multiplier is used under the Pension Equity formula in lieu of the 12.5% benefit multiplier. The Pension Equity account under the BalancePlus SERP has its own early retirement reduction factors, which are applied at early retirement before offsetting the amount calculated under the BalancePlus Program and the Pension Parity Plan. Unlike the Qualified and Pension Parity Plans, the service under the Pension Equity formula was not frozen in 2006, but continued to be recognized through December 31, 2011.

Defined Contribution Qualified Plan — All NEOs

The Named Executive Officers, as well as most U.S. salaried employees, are also entitled to participate in the Visteon Investment Plan (Visteon's 401(k) investment and savings plan). The amounts that may be deferred are limited by the Code. From January 1, 2012, the Company matched employee contributions of up to 6% of pay at a rate of 100% of the employee's eligible contributions. Amounts deferred for each Named Executive Officer are reflected in the "Salary" column of the above "Summary Compensation Table."

Nonqualified Defined Contribution Plans (Savings Parity and Amended SERP) — All NEOs

Effective January 1, 2012, the Company adopted a new Savings Parity Plan that restores company matching contributions under the Visteon Investment Plan lost due to Code limitations, and amended the SERP to provide benefits through a defined contribution approach: eligible employees will receive credits equal to 6%, 9%, or 14.5% of base compensation and annual incentive, dependent upon their organizational levels. The account balances in both the Savings Parity Plan and the amended SERP will be increased or reduced to reflect earnings and losses on hypothetical investments designated by the employee.

Nonqualified Deferred Compensation for 2018

The following table provides information about the nonqualified defined contribution deferred compensation plans in which our NEOs participate, subject to the terms of such plans. Our NEOs participate during their tenure in the Savings Parity Plan and the Defined Contribution SERP ("DC SERP") Plan, both of which became effective on January 1, 2012. The Savings Parity Plan restores company matching contributions under the Visteon Investment Plan, Visteon's investment and savings plan, lost due to IRS Code limitations. The DC SERP plan provides benefits through a defined contribution approach where eligible employees receive credits equal to 6%, 9% or 14.5% of base compensation and annual incentive, dependent upon their organizational levels. Account balances in both the Savings Parity Plan and DC SERP will be increased or reduced to reflect earnings and losses on hypothetical investments designated by the employee.

(1) The Savings Parity Plan was adopted effective January 1, 2012. The Company contributions noted in this Table represent accrued contributions to be credited to each participant's account for the fiscal year reported in this Proxy as well as the aggregate earnings and aggregate withdrawals/distributions made to the participants' accounts during fiscal year 2018.

(2) The Defined Contribution SERP ("DC SERP") was adopted effective January 1, 2012. This Table reflects Company contributions, aggregate earnings, aggregate gains/losses, and aggregate withdrawals/distributions made to the participants' accounts during fiscal year 2018.

(3) These amounts are included in the All Other Compensation column of the Summary Compensation Table.

Potential Payments Upon Termination

Set forth below are estimated accelerated payments and benefits that would have been provided to the Named Executive Officers remaining employed by the Company at the end of 2018 upon their hypothetical termination of employment (or that would have been accelerated upon a change in control) under specified circumstances as provided in the relevant agreements and plans, assuming that the relevant triggering event occurred at December 31, 2018 and based on the Company's closing common stock price as of December 31, 2018. These disclosed amounts are estimates only and do not necessarily reflect the actual amounts that would be paid to those Named Executive Officers, which amounts would only be known at the time that they become eligible for payment and would only be payable if any of the triggering events were to occur under the terms of the relevant agreements. Accrued amounts (other than the accelerated vesting of retirement benefits noted below) under the Company's pension and defined contribution plans are not included in this table.

- (1) Vesting for all unvested stock options would be accelerated in the event of a change in control followed by a qualifying termination, as defined by the terms and conditions of the relevant awards; no amounts are included in the table as the exercise prices of the unvested stock options are in excess of the market price of Visteon common stock as of December 31, 2018.
- (2) Mr. Lawande's RSU and PSU awards are prorated based on service under an involuntary termination without cause or for Good Reason and fully vest under a qualifying termination after a change in control. The value of the units under each scenario is based upon the market price of Visteon common stock on December 31, 2018 and for PSUs, estimated performance through that date. Additionally, it is assumed that all units are converted or assumed by an acquirer in the event of a change in control, and, thus, such awards do not accelerate upon a change in control with continuing employment.
- (3) Represents the unvested values as of December 31, 2018 payable under each scenario for the participant's accounts in the DC SERP and Savings Parity Plan, nonqualified deferred compensation plans.
- (4) The estimated cost of continuing health and welfare benefits is based on current insurance premiums.
- (5) The amount of covered or reimbursed services was assumed to be the maximum amount allowable under change in control agreements and the severance plan, as described further below. The amounts to be reimbursed will be only for those expenses actually incurred by the executive, and may be significantly less than the amount presented in the table.
- (6) Messrs. Garcia, Bilollikar, Pynnonen and Vallance's RSU and PSU awards are prorated based on service under an involuntary termination without cause and fully vest under a qualifying termination after a change in control as defined under the terms and conditions of the relevant awards. The value of the units under each scenario is based upon the market price of Visteon common stock on December 31, 2018 and for the PSUs, estimated performance through that date. Additionally, it is assumed that all units are converted or assumed by an acquirer in the event of a change in control, and, thus, such awards do not accelerate upon a change in control with continuing employment.

Potential Payments Upon Change in Control

The 2010 Incentive Plan was amended in June 2015 to change the default on acceleration of awards under the plan upon a change in control from a "single-trigger" to a "double-trigger." Thus, awards under the amended plan will be accelerated upon a change in control (without a subsequent termination of employment) only if the awards are not assumed, converted or replaced by the acquirer or continuing entity.

Change in Control followed by Qualifying Termination

The Company has entered into change in control agreements with all of its Named Executive Officers, except Mr. Lawande. Mr. Lawande's employment agreement includes similar change in control provisions. These agreements provide for certain benefits if a qualifying termination occurs following a change in control of the Company, as defined by the agreements. For the Named Executive Officers, a qualifying termination includes a termination of the executive's employment without cause or a resignation for good reason (as defined by the agreements), in each case, within two years after the change in control. The benefits are designed to retain and motivate employees during the uncertain process that precedes a change in control transaction.

Subject to the terms of the applicable agreements and plans, the Named Executive Officers are entitled to the following benefits pursuant to the change in control or employment agreements so long as the executive signs an acceptable release of claims:

- the payment of any unpaid salary or incentive compensation, together with all other compensation and benefits payable to the executive under the terms of the Company's compensation and benefits plans, earned through the date of termination;
- a severance payment in the amount of one and a half times (other than Messrs. Lawande and Garcia, which are two times) base salary plus the executive's target annual bonus;
- the continuation for 18 months following termination of life, accident and health insurance benefits for the executive and his or her dependents;
- all contingent annual bonus awards under the 2010 Incentive Plan (or other plans) for periods that have not been completed become payable on a pro-rated basis assuming the achievement at target levels of any individual or corporate performance goals;
- the benefits then accrued by or payable to the executive under the SERP, the Pension Parity Plan and the Savings Parity Plan, as applicable, or any other nonqualified plan providing supplemental retirement or deferred compensation benefits, become fully vested; and
- reimbursement for the cost of outplacement services for up to 12 months following termination, not to exceed \$50,000;

In addition to any other benefits described above or set forth in an award agreement at the time of the award, the 2010 Incentive Plan, as Amended, provides for the following benefits upon a change in control followed by a qualifying termination of employment within 24 months following such change in control when such awards have been assumed, converted or replaced by the acquirer or other continuing entity:

- plan awards will become immediately fully vested if the holder's employment is terminated without cause or for good reason (each as defined in the applicable change in control or employment agreement) within 24 months following the change in control; or
- for plan awards that relate to performance periods that have not been completed as of the date of the change in control and that are not then vested, the awards will become immediately vested to the extent that the performance metrics have been achieved as of the date of such change in control (with any remainder being forfeited) if the holder's employment is terminated without cause or for good reason (each as defined in the applicable change in control or employment agreement) within 24 months following the change in control.

Change in control payments for the Named Executive Officers are not grossed up for the payment of any section 4999 excise taxes. However, if such payments would be subject to section 4999 excise taxes, the applicable payments will be reduced to the extent necessary so that no portion of the total payments is subject to excise tax, but only if the net amount of such reduced payments is not less than the net amount of the total payments without such reduction.

"Good Reason" under the change in control agreements includes the following:

- a negative material alteration is made in the executive's duties and responsibilities;
- the executive's annual base salary is decreased (except for certain across-the-board reductions);
- the executive is required to relocate his or her residence or principal office location by more than 50 miles;
- the executive's incentive compensation or other benefits are decreased by ten percent or more (except for certain across-the-board reductions); or
- the executive is not paid any portion of his or her then current compensation or an installment under any deferred compensation program.

"Good Reason" under Mr. Lawande's amended employment agreement shall mean the occurrence of any of the following events, without the express written consent of Mr. Lawande:

- the Company's assignment of duties (including titles and reporting relationships) inconsistent in any material respect with the duties or responsibilities as contemplated by Mr. Lawande's employment agreement, any failure to re-nominate Mr. Lawande for election by the Company's stockholders as a member of the Board, or any other action by the Company that results in a significant diminution in Mr. Lawande's position, authority, duties or responsibilities (provided that any sale or other disposition of

assets by the Company shall not, in and of itself, constitute a significant diminution in Mr. Lawande's position, authority, duties or responsibilities; and provided, further, that a reduction in authority, duties or responsibilities resulting solely from the Company ceasing to be a publicly traded entity shall not constitute Good Reason hereunder); or

- the Company's material breach of any provision of Mr. Lawande's employment agreement.

Each executive agrees to comply with confidentiality, non-disparagement and non-competition covenants during the term of the agreement and for a period thereafter. In addition, in the event of a potential change of control, as defined in the change in control agreements, each executive other than Mr. Lawande agrees not to voluntarily terminate his or her employment, except for retirement or good reason, until the earlier of six months after such potential change of control or the occurrence of a change in control.

A "change in control" will be deemed to have occurred under the change in control agreements and Mr. Lawande's amended employment agreement as of the first day any one or more of the following is satisfied:

(A) any person is or becomes the beneficial owner, directly or indirectly, of securities of the Company (not including in the securities beneficially owned by such person any securities acquired directly from the Company or its affiliates) representing 40% or more of the combined voting power of the Company's then outstanding securities (subject to certain exceptions as described in the agreements);

(B) within any 12-month period, the following individuals cease for any reason to constitute a majority of the number of directors then serving: individuals who, at the beginning of the twelve month period, constitute the Board and any new director (other than a director whose initial assumption of office is in connection with an actual or threatened election contest, including but not limited to a consent solicitation, relating to the election of directors of the Company) whose appointment or election by the Board or nomination for election by the Company's shareholders was approved or recommended by a vote of at least two-thirds of the directors then still in office who either were directors at the beginning of the twelve month period or whose appointment, election or nomination for election was previously so approved or recommended (for these purposes, (x) a threatened election contest will be deemed to have occurred only if any person or entity publicly announces a bona fide intention to engage in an election contest, including but not limited to a consent solicitation, relating to the election of directors of the Company, and (y) a withhold vote campaign with respect to any director will not by itself constitute an actual or threatened election contest);

(C) there is consummated a merger or consolidation of the Company or any direct or indirect subsidiary of the Company with any other corporation, other than (a) a merger or consolidation which results in the directors of the Company immediately prior to such merger or consolidation continuing to constitute at least a majority of the board of directors of the Company, the surviving entity or any parent thereof or (b) a merger or consolidation effected to implement a recapitalization of the Company (or similar transaction) in which no Person is or becomes the Beneficial Owner, directly or indirectly, of securities of the Company (not including in the securities beneficially owned by such person any securities acquired directly from the Company or its affiliates) representing 40% or more of the combined voting power of the Company's then outstanding securities; or

(D) the shareholders of the Company approve a plan of complete liquidation or dissolution of the Company or there is consummated an agreement for the sale or disposition by the Company of more than 50% of the Company's assets, other than a sale or disposition by the Company of more than 50% of the Company's assets to an entity, at least 50% of the combined voting power of the voting securities of which are owned by shareholders of the Company in substantially the same proportions as their ownership of the Company immediately prior to such sale.

However, a "change in control" shall not be deemed to have occurred by virtue of the consummation of any transaction or series of integrated transactions immediately following which the record holders of the common stock of the Company immediately prior to such transaction or series of transactions continue to have substantially the same proportionate ownership in an entity which owns all or substantially all of the assets of the Company immediately following such transaction or series of transactions.

Voluntary Termination without "Good Reason" or Involuntary Termination for "Cause"

An executive who voluntarily resigns without good reason or whose employment is terminated by the Company for cause (each as defined in the Change in Control Agreements, Terms and Conditions of Stock Grants and the individual employment agreement applicable to Mr. Lawande) will be entitled to receive unpaid salary and benefits, if any, he has accrued through the effective date of his termination, and the executive will forfeit any outstanding, unvested equity-based awards.

Involuntary Termination without “Cause” (all NEOs) or Voluntary Termination for “Good Reason” (Mr. Lawande only)

Upon the involuntary termination of employment by the Company (other than for specified reasons, including disability, availability of other severance benefits, and inappropriate conduct), and subject to the terms of the Plan described below, all officers elected by the Board of Directors are entitled to severance benefits under the 2010 Visteon Executive Severance Plan as amended. For the NEOs that qualify for any benefits, these severance benefits include a cash payment equal to 150% of the sum of one year of base salary plus their target annual incentive opportunity, a pro-rated annual incentive bonus for the fiscal year during which the termination occurs (based on actual Company performance during the period), the reimbursement of medical coverage premiums under COBRA for eighteen months following termination, and the provision of outplacement services for up to twelve months (not to exceed \$50,000). However, if the eligible executive does not execute an acceptable release and waiver of claims, such executive will only be entitled to a cash payment equal to four weeks of base salary. The severance plan permits executives to receive both the severance benefits under the plan and, if eligible, the retirement benefits described above. For Mr. Lawande, the severance benefits provided under his amended employment agreement (as further described above under “Employment Agreement with Mr. Lawande”) apply in lieu of benefits under the severance plan during the term of such employment agreement.

The 2010 Incentive Plan does not accelerate any of the outstanding awards held by executives who are involuntarily terminated. However, the terms and conditions applicable to certain equity awards provide as follows:

- the outstanding RSUs will vest on a pro rata basis if the holder's employment is involuntary terminated generally without cause or for good reason (each as defined in the applicable terms and conditions), provided that the holder had remained in the employ of the Company for at least 180 days following the grant date; and
- the outstanding PSUs will not be forfeited and will vest on the scheduled vesting date on a pro rata basis if the holder's employment is involuntary terminated without cause or for good reason (each as defined in the applicable terms and conditions), provided that the holder had remained in the employ of the Company for at least 180 days following the grant date (and the termination is either before any change in control or more than 24 months after any change in control, as defined in the applicable terms and conditions).

Termination Upon Retirement, Death or Disability

Following termination of executive's employment for disability, the executive will receive all compensation payable under the Company's disability and medical plans and insurance policies, which are available generally to the Company's salaried employees. A termination upon the retirement, death or disability of a Named Executive Officer is generally treated the same as an involuntary termination with respect to the outstanding RSUs and PSUs. In addition, pursuant to Mr. Lawande's employment agreement, he is entitled upon death or disability to any contingent annual bonus awards under the 2010 Incentive Plan (or other plans) for periods that have not been completed on a pro-rated basis based on actual achievement of any individual or corporate performance goals.

In addition to the payments and benefits described above, the Organization and Compensation Committee of the Board may authorize additional payments when it separates a Named Executive Officer. The Company might agree to make the payments it deems necessary to negotiate a definitive termination agreement with the terms, such as a general release of claims, nondisparagement, cooperation with litigation, noncompetition and nonsolicitation agreements, as determined by the Company.

CEO Pay Ratio

The 2018 annual total compensation of the Company's CEO was \$7,858,920. The 2018 annual total compensation of the median employee identified in 2017 (excluding the CEO) was \$16,278; this employee is located in India. The ratio between the two amounts is 483:1. This ratio is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K under the Securities Exchange Act of 1934. There have been no significant changes in our workforce population or compensation arrangements for 2018 that would impact the methodology that was used to determine the median employee in 2017, and the Company has elected to use the same median employee identified last year.

As permitted by SEC rules, to identify our median employee, we selected November 30, 2017, which is within the last three months of 2017, as the date upon which we would identify the "median employee," because it enabled us to make such identification in a reasonably efficient and economical manner. As of that date, the Company and its consolidated subsidiaries employed 9,831 employees in 21 countries. All full-time, part-time and temporary hourly and salaried employees of Visteon and its consolidated subsidiaries were included.

In order to identify the median employee, the Company applied a consistent definition of fixed cash compensation, which for hourly employees included their hourly rate and a reasonable estimate of hours worked. This definition of compensation was chosen because we believe it is a compensation measure that can be applied consistently across the globe. The compensation for any permanent employee who was hired after January 1, 2017, was annualized for 2017. We did not use any statistical sampling, cost-of-living adjustments or exclusions for purposes of this pay ratio disclosure.

Because the SEC rules for identifying the median of the annual total compensation of all our employees and calculating the pay ratio based on that employee's annual total compensation allow companies to use a variety of methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their employee populations and compensation practices, the pay ratio reported by other companies may not be comparable to the pay ratio we are reporting, as those companies have different employee populations and compensation practices and may use different methodologies, exclusions, estimates and assumptions in calculating their pay ratios.

Equity Compensation Plan Information

The following table summarizes information as of December 31, 2018 relating to its equity compensation plans pursuant to which grants of stock options, stock appreciation rights, stock rights, restricted stock, restricted stock units and other rights to acquire shares of its common stock may be made from time to time.

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights (a)(1)	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights (b)(1)	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (excluding securities reflected in column(a))(c)(2)
Equity compensation plans approved by security holders	589,917	\$ 98.54	1,996,811
Equity compensation plans not approved by security holders	—	\$ —	—
Total	589,917	\$ 98.54	1,996,811

(1) Comprised of stock options and stock appreciation rights, which may be settled in stock or cash at the election of the Company, and outstanding restricted stock and performance stock units, which may be settled in stock or cash at the election of the Company without further payment by the holder, granted pursuant to the Visteon Corporation 2010 Incentive Plan. The weighted-average exercise price of outstanding options, warrants and rights does not take into account restricted stock or performance stock units that will be settled without any further payment by the holder.

(2) Excludes an indefinite number of stock units that may be awarded under the Visteon Corporation Non-Employee Director Stock Unit Plan, which units may be settled in cash or shares of the Company's common stock. Such plan provides for an annual, automatic grant of stock units worth \$105,000 to each non-employee director of the Company. There is no maximum number of securities that may be issued under this Plan; however, the Plan will terminate on December 15, 2020 unless earlier terminated by the Board of Directors.

AUDIT COMMITTEE REPORT

The Audit Committee is composed of three directors, all of whom are considered independent under the rules and regulations of the Securities and Exchange Commission, the Nasdaq Stock Market listing standards and the Visteon Director Independence Guidelines, and operates under a written charter adopted by the Board of Directors. During 2018, the Audit Committee held six meetings. Visteon management has the primary responsibility for the Company's internal controls and the financial reporting process. The independent registered public accounting firm is responsible for performing an independent audit of the Company's consolidated financial statements and issuing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States of America. The independent registered public accounting firm also expresses an opinion, based on an audit, on the effectiveness of Visteon's internal control over financial reporting. The Audit Committee oversees and monitors these processes and reports to the Board of Directors on its findings. The Audit Committee of the Board of Directors selects and hires the independent registered public accounting firm. The Audit Committee considers the impact of changing auditors when assessing whether to retain the current external auditor, and regarding the mandated rotation, has had direct involvement in the selection process for the new lead engagement partner for the Company's 2019 audit. Ernst & Young, LLP has served as Visteon's external auditor since 2012. The Audit Committee believes that the choice of Ernst & Young, LLP to serve as external auditor is in the best interests of the Company and its shareholders.

During the year, the Audit Committee met and held discussions with Visteon management and Ernst & Young LLP, the independent registered public accounting firm. The Audit Committee discussed with Ernst & Young the overall scope and plans for their audit. The Audit Committee reviewed and discussed with Visteon management and Ernst & Young LLP the audited financial statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2018, as well as the Company's internal control over financial reporting. The Audit Committee also discussed with Ernst & Young LLP the matters required to be discussed with the Audit Committee by Public Company Accounting Oversight Board Auditing Standard No. 1301, *Communications with Audit Committees*, the rules of the Securities and Exchange Commission, and other applicable regulations.

Ernst & Young LLP submitted to the Audit Committee the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence. The Audit Committee discussed with Ernst & Young LLP the firm's independence and considered whether the provision of non-audit services by Ernst & Young LLP to the Company is compatible with maintaining the independence of Ernst & Young LLP. The Audit Committee concluded that the independence of Ernst & Young LLP from Visteon and management is not compromised by the provision of such non-audit services.

Based on these reviews and discussion, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2018, and filed with the SEC.

The Audit Committee Report does not constitute soliciting material, and shall not be deemed to be filed or incorporated by reference into any other Visteon filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that Visteon specifically incorporates this Audit Committee Report by reference into any such filing.

Audit Fees

The Audit Committee selects, subject to stockholder ratification, our independent registered public accounting firm for each fiscal year. During the years ended December 31, 2018 and December 31, 2017, Ernst & Young LLP was engaged principally to perform the annual audit of the Company's consolidated financial statements and internal control over financial reporting and to provide other services. Fees paid to Ernst & Young LLP for 2018 and 2017 are listed in the following table:

Year Ended December 31	Audit Services Fees	Audit Related Fees	Tax Fees	All Other Fees
2018	\$ 4,200,000	\$ 100,000	\$ 1,100,000	\$ —
2017	\$ 4,000,000	\$ —	\$ 1,900,000	\$ —

Audit services fees include fees for services performed to comply with Sarbanes-Oxley Section 404 and Generally Accepted Auditing Standards ("GAAS") as adopted by the Public Company Accounting Oversight Board and approved by the SEC, including the recurring audit of the Company's consolidated financial statements. This category also includes fees for audits provided in connection with statutory filings or services that generally only the principal auditor reasonably can provide to a client, such as procedures related to the audit of income tax provisions and related reserves, and consents, assistance, and review of documents filed with the SEC.

Audit-related fees include fees associated with assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements. This category includes fees related to assistance in financial due diligence related to mergers and acquisitions, consultations regarding Generally Accepted Accounting Principles ("GAAP"), reviews and evaluations of the impact of new regulatory pronouncements, audit services performed related to business divestitures and restructurings, and benefit/pension plans.

Tax fees primarily represent fees for tax compliance, tax advice, tax planning and assistance with taxing authority examinations.

Audit Committee Pre-approval Policies and Procedures

The Audit Committee has adopted procedures for its annual review and pre-approval of all audit and permitted non-audit services provided by the independent registered public accounting firm. These procedures include reviewing and approving a budget for audit and permitted non-audit services by category. The Audit Committee considers whether such services are consistent with the SEC's rules on auditor independence. The Audit Committee also considers whether the independent registered public accounting firm is best positioned to provide the most effective and efficient service, for reasons such as its familiarity with the Company's business, people, culture, accounting systems, risk profile, and whether the services enhance the Company's ability to manage or control risks and improve audit quality. The Audit Committee will, as necessary, consider and, if appropriate, approve the provision of additional audit and non-audit services by its independent registered public accounting firm that are not encompassed by the Audit Committee's annual pre-approval and not prohibited by law. The Audit Committee has delegated to the Chairman of the Audit Committee the approval authority, on a case-by-case basis, for services outside of or in excess of the Audit Committee's aggregate pre-approved levels and not prohibited by law. In order to monitor services rendered and actual fees paid and commitments to be paid to the independent registered public accounting firm, the Chairman, or designee, shall report any such decisions to the Audit Committee at its next regular meeting.

ITEM 2. APPROVAL OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The next proposal on the agenda for the Annual Meeting will be ratifying the appointment of Ernst & Young LLP by the Audit Committee as the Company's independent registered public accounting firm for fiscal year 2019. Ernst & Young LLP served in such capacity for fiscal year 2018.

Representatives of Ernst & Young LLP, the Company's independent registered public accounting firm, are expected to be present at the Annual Meeting. They will have the opportunity to make a statement at the meeting if they desire to do so and are expected to be available to respond to appropriate questions. For information regarding fees paid to Ernst & Young LLP, see "Audit Fees" above.

The Board of Directors Recommends that You Vote FOR the Ratification of Ernst & Young LLP as the Company's Independent Registered Public Accounting Firm for Fiscal Year 2019.

ITEM 3. PROVIDE AN ADVISORY VOTE ON EXECUTIVE COMPENSATION

Pursuant to Section 14A of the Exchange Act, we are seeking stockholder approval of the Company's executive compensation program and practices as disclosed in this proxy statement. While this vote is advisory, and not binding on the Board, it will provide information to the Board and the Organization and Compensation Committee regarding investor sentiment about our executive compensation programs and practices, which the Organization and Compensation Committee will carefully review when evaluating our executive compensation program.

Stockholders are being asked to vote on the following advisory resolution:

"RESOLVED, that the Company's stockholders approve, on an advisory basis, the compensation of the Company's executive officers, as disclosed in the 2019 Proxy Statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the Summary Compensation Table and the other related tables and disclosures."

The Company is committed to maintaining executive compensation programs and practices that are aligned with the Company's business strategy. As a result, the Company has a strong pay-for-performance philosophy that greatly impacts its decisions regarding executive compensation. Our executive compensation programs seek to align management's interests with our stockholders' interests to support long-term value creation and pay for performance. This philosophy and the compensation structure are essential to the Company's ability to attract, retain and motivate individuals who can achieve superior financial results in the best interests of the Company and its stockholders. To that end, our program links pay to performance by delivering a significant majority of the total compensation opportunity of our Named Executive Officers in variable or performance-based compensation programs (annual and long-term incentive plans). Performance measures used in the Company's annual and long-term incentive plans support the Company's annual operating plan and longer term strategy and are tied to key Company measures of short and long-term performance. Our program also aligns the Named Executive Officers' financial interest with those of our stockholders by delivering a substantial portion of their total compensation in the form of equity awards and other long-term incentive vehicles.

We urge our stockholders to read "Compensation Discussion and Analysis" above, which describes in detail how our executive compensation program and practices operate and are designed to achieve our compensation objectives, as well as the accompanying compensation tables which provide detailed information on the compensation of our Named Executive Officers.

The Board of Directors Recommends that You Vote FOR the Approval of Executive Compensation set forth in this proxy statement.

OTHER MATTERS

Neither the Company nor its directors intend to bring before the Annual Meeting any matter other than the election of the ten directors, ratification of the Company's independent registered public accounting firm, and approval of the Company's executive compensation. Also, they have no present knowledge that any other matter will be presented by others for action at the meeting.
