Washington D.C. 20549

FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017,

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-15827

VISTEON CORPORATION

(Exact name of registrant as specified in its charter)

State of Delaware

(State or other jurisdiction of incorporation or organization)

One Village Center Drive, Van Buren Township, Michigan

(Address of principal executive offices)

Registrant's telephone number, including area code: (800)-VISTEON

Not applicable

38-3519512

(I.R.S. Employer Identification No.)

48111

(Zip code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant: has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes ☒ No ☐

As of July 20, 2017, the registrant had outstanding 31,171,820 shares of common stock.

VISTEON CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. Description of Business

Visteon Corporation (the "Company" or "Visteon") is a global automotive supplier that designs, engineers and manufactures innovative electronics products for nearly every original equipment vehicle manufacturer ("OEM") worldwide including Ford, Mazda, Nissan/Renault, General Motors, Honda, BMW and Daimler. Visteon is headquartered in Van Buren Township, Michigan and has an international network of manufacturing operations, technical centers and joint venture operations, supported by approximately 10,000 employees, dedicated to the design, development, manufacture and support of its product offerings and its global customers. The Company's manufacturing and engineering footprint is principally located outside of the United States. Visteon delivers value for its customers and stockholders through its technology-focused core vehicle cockpit electronics business. The Company's cockpit electronics product portfolio includes instrument clusters, information displays, infotainment systems, audio systems, telematics solutions, and head up displays. The Company's vehicle cockpit electronics business is comprised of and reported under the Electronics segment. In addition to the Electronics segment, the Company had operations in South America and Europe associated with the former Climate business, not subject to discontinued operations classification, that comprised Other, and were exited by December 31, 2016.

NOTE 2. Summary of Significant Accounting Policies

The unaudited consolidated financial statements of the Company have been prepared in accordance with the rules and regulations of the U.S. Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") have been condensed or omitted pursuant to such rules and regulations. These interim consolidated financial statements include all adjustments (consisting of normal recurring adjustments, except as otherwise disclosed) that management believes are necessary for a fair presentation of the results of operations, financial position and cash flows of the Company for the interim periods presented. Interim results are not necessarily indicative of full-year results.

Reclassifications: Certain prior period amounts have been reclassified to conform to the current period presentation.

Other (Income) Expense, Net:

	Three Months Ended June 30		Six Months Ended June 30	
	2017	2016	2017	2016
	(Dollars in Millions)			
Transformation initiatives	\$ —	\$ 1	\$ —	\$ 4
Transaction exchange (gains) losses	—	(1)	—	—
Gain on non-consolidated affiliate transactions, net	(3)	—	(2)	—
	<u>\$ (3)</u>	<u>\$ —</u>	<u>\$ (2)</u>	<u>\$ 4</u>

Transformation initiative costs include information technology separation costs, integration of acquired business, and financial and advisory services incurred in connection with the Company's transformation into a pure play cockpit electronics business. The gain on non-consolidated affiliate transactions represents the Company's sale of two cost method investments and an equity method investment during the six months ended June 30, 2017 as further described in Note 4, "Non-Consolidated Affiliates."

Restricted Cash: Restricted cash represents amounts designated for uses other than current operations and includes \$3 million related to the Letter of Credit Facility, and \$1 million related to cash collateral for other corporate purposes as of June 30, 2017.

Recently Issued Accounting Pronouncements: In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-9, "Revenue from Contracts with Customers," which is the new comprehensive revenue recognition standard that will supersede existing revenue recognition guidance under U.S. GAAP. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to a customer in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods and services. This ASU allows for both retrospective and prospective methods of adoption.

The Company has, with other industry leaders, interacted with the FASB on certain interpretation issues as well as interacted with non-authoritative industry groups with respect to the implementation of the standard and will continue to monitor the interactions between its industry group and the standard setters. The Company does not expect any changes to how it accounts for reimbursable

pre-production costs, currently accounted for as a cost reduction. In addition, the Company continues to evaluate its contracts with customers, analyzing the impact, if any, on revenue from the sale of production parts. Currently, the Company does not expect the adoption of this standard to have a material impact on its results of operations or financial position; however, the Company expects to expand disclosures in line with the requirements of the new standard. The Company will adopt this standard January 1, 2018 and has selected the modified retrospective transition method. Under the modified retrospective method, the Company would recognize the cumulative effect of initially applying the standard as an adjustment to opening retained earnings at the date of initial application. As a policy election, the Company plans to exclude all shipping and handling costs from revenue, which is consistent with current accounting.

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)." The amendments in Topic 842 supersede current lease requirements in Topic 840 which require lessees to recognize most leases on their balance sheets as lease liabilities with corresponding right-of-use assets. The objective of Topic 842 is to establish the principles that lessees and lessors shall apply to report useful information to users of financial statements about the amount, timing, and uncertainty of cash flows arising from a lease. This new guidance is effective for interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, "Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting." The ASU includes multiple provisions intended to simplify various aspects of the accounting for share-based payments. While aimed at reducing the cost and complexity of the accounting for share-based payments, these amendments are not expected to significantly impact net income, earnings per share, and the statement of cash flows. This new guidance was effective for interim and annual reporting periods beginning after December 15, 2016, with early adoption permitted. The Company's adoption of this standard did not have a material impact on its consolidated financial statements. The Company has adopted an entity-wide accounting policy election to account for forfeitures in compensation cost when they occur.

In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows (Topic 230): Classification of certain cash receipts and cash payments." The ASU addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice in how certain transactions are classified in the statement of cash flows. The ASU will be applied using a retrospective transition method to each period presented. This new guidance is effective for interim and annual reporting periods beginning after December 15, 2017 with early adoption permitted. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

In March 2017, the FASB issued ASU 2017-07, "Compensation - Retirement Benefits (Topic 715): Improving the presentation of net periodic pension cost and net periodic postretirement benefit cost." The ASU requires entities to present the service cost component of the net periodic benefit cost in the same income statement line item(s) as other employee compensation costs arising from services rendered during the period. In addition, only the service cost component will be eligible for capitalization in assets. Entities will present the other components separately from the line item(s) that includes the service cost and outside of any subtotal of operating income, if one is presented, and disclose the line(s) used to present the other components of net periodic benefit cost, if the components are not presented separately in the income statement. The standard will be applied retrospectively for the presentation of the service cost component and the other components of net periodic pension cost and net periodic postretirement benefit cost in the income statement and prospectively, for the guidance limiting the capitalization of net periodic benefit cost in assets to the service cost. This new guidance is effective for interim and annual reporting periods beginning after December 15, 2017 and interim periods, with early adoption permitted. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, "Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting." The ASU amends the scope of modification accounting for share-based payment arrangements, provides guidance on the types of changes to the terms or conditions of share-based payment awards to which an entity would be required to apply modification accounting. The new guidance will allow companies to make certain changes to awards without accounting for them as modifications. It does not change the accounting for modifications. The new guidance will be applied prospectively to awards modified on or after the adoption date. This new guidance is effective for interim and annual reporting periods beginning after December 15, 2017 with early adoption permitted. The Company is currently evaluating the impact of adopting this standard on its consolidated financial statements.

NOTE 3. Discontinued Operations

During 2014 and 2015, the Company divested the majority of its global Interiors business (the "Interiors Divestiture") and completed the sale of its Argentina and Brazil interiors operations on December 1, 2016. Separately, the Company completed the sale of the majority of its global Climate business (the "Climate Transaction") during 2015. As the operations subject to the Interiors Divestiture

and Climate Transaction met conditions required to qualify for discontinued operations reporting, the results of operations for the Interiors and Climate businesses have been reclassified to income (loss) from discontinued operations, net of tax in the consolidated statements of comprehensive income for the three and six month periods ended June 30, 2017 and 2016.

Discontinued operations are summarized as follows:

	Three Months Ended June 30		Six Months Ended June 30	
	2017	2016	2017	2016
	(Dollars in Millions)			
Sales	\$ —	\$ 11	\$ —	\$ 20
Cost of sales	—	15	—	28
Gross margin	—	(4)	—	(8)
Selling, general and administrative expenses	—	2	—	2
Loss (gain) on Climate Transaction	—	2	(7)	2
Loss and impairment on Interiors Divestiture	—	1	—	2
Other expense, net	—	1	—	1
(Loss) income from discontinued operations before income taxes	—	(10)	7	(15)
(Benefit) provision for income taxes	—	(1)	(1)	7
Net (loss) income from discontinued operations, net of tax, attributable to Visteon	\$ —	\$ (9)	\$ 8	\$ (22)

In connection with the Climate Transaction, the Company completed the repurchase of the electronics operations located in India during the first quarter of 2017 for \$47 million, recognizing a \$7 million gain on settlement of purchase commitment contingencies. The Company had previously consolidated the India operations based on the Company's controlling financial interest as a result of the repurchase obligation, operating control, and the obligation to fund losses or benefit from earnings.

During the six months ended June 30, 2016, the Company recorded currency impacts of \$8 million in connection with the Korean capital gains withholding tax recovered during the first quarter of 2016.

NOTE 4. Non-Consolidated Affiliates

Non-Consolidated Affiliate Transactions

Visteon and Yangfeng Visteon Automotive Trim Systems Co. Ltd. ("YFV") each own 50% of a joint venture under the name of Yanfeng Visteon Electronic (China) Investment Co., Ltd. ("YFVIC"). In October 2014, YFVIC completed the purchase of YFV's 49% direct ownership in Yanfeng Visteon Automotive Electronics Co., Ltd ("YFVE") a consolidated joint venture of the Company. The purchase by YFVIC was financed through a shareholder loan from YFV and external borrowings which were guaranteed by Visteon, of which \$18 million is outstanding as of June 30, 2017. The guarantee contains standard non-payment provisions to cover the borrowers in event of non-payment of principal, accrued interest, and other fees, and the loan is expected to be fully paid by September 2019.

During the first quarter of 2017, the Company completed the sale of its 50% interest in an equity method investment for proceeds of \$7 million, consistent with its carrying value. Additionally, the Company sold a cost method investment for proceeds of approximately \$3 million and recorded a pretax loss of \$1 million classified as "Other (income) expense, net."

During the second quarter of 2017, the Company sold a cost method investment for proceeds of approximately \$3 million. The Company recorded a pretax gain of \$3 million classified as "Other (income) expense, net."

Investments in Affiliates

The Company recorded equity in net income of affiliates of \$3 million for both three month periods ended June 30, 2017 and 2016. For the six month periods ended June 30, 2017 and 2016, the Company recorded net income of affiliates of \$5 million and \$3 million, respectively.

Investments in affiliates were \$39 million and \$45 million as of June 30, 2017 and December 31, 2016, respectively. As of June 30, 2017 and December 31, 2016, investments in affiliates accounted for under the equity method totaled \$38 million and \$40 million, respectively, while investments in affiliates accounted for under the cost method were \$1 million and \$5 million as of June 30, 2017 and December 31, 2016, respectively.

Variable Interest Entities

The Company determines whether joint ventures in which it has invested are Variable Interest Entities (“VIE”) at the start of each new venture and when a reconsideration event has occurred. An enterprise must consolidate a VIE if it is determined to be the primary beneficiary of the VIE. The primary beneficiary has both the power to direct the activities of the VIE that most significantly impact the entity’s economic performance and the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE.

The Company determined that YFVIC, is a VIE. The Company holds a variable interest in YFVIC primarily related to its ownership interests and subordinated financial support. The Company and YFV each own 50% of YFVIC and neither entity has the power to control the operations of YFVIC, therefore the Company is not the primary beneficiary of YFVIC and does not consolidate the joint venture.

A summary of the Company's investments in YFVIC is provided below.

	June 30 2017	December 31 2016
	(Dollars in Millions)	
Payables due to YFVIC	\$ 7	\$ 14
<u>Exposure to loss in YFVIC</u>		
Investment in YFVIC	\$ 26	\$ 22
Receivables due from YFVIC	16	15
Subordinated loan receivable	22	22
Loan guarantee	18	22
Maximum exposure to loss in YFVIC	\$ 82	\$ 81

NOTE 5. Restructuring Activities

Given the economically-sensitive and highly competitive nature of the automotive electronics industry, the Company continues to closely monitor current market factors and industry trends, taking action as necessary which may include restructuring actions. However, there can be no assurance that any such actions will be sufficient to fully offset the impact of adverse factors on the Company or its results of operations, financial position and cash flows. During the three and six months ended June 30, 2017, the Company recorded \$3 million and \$4 million of restructuring expenses, net of reversals, respectively.

Electronics

During the fourth quarter of 2016, the Company announced a restructuring program impacting engineering and administrative functions to further align the Company's engineering and related administrative footprint with its core product technologies and customers. Through June 30, 2017, the Company has recorded approximately \$31 million of restructuring expenses under this program, and expects to incur up to \$45 million of restructuring costs associated with approximately 250 employees. During the three and six months ended June 30, 2017, the Company has recorded approximately \$3 million and \$4 million, respectively, of restructuring expenses under this program, and \$18 million remains accrued as of June 30, 2017. The Company expects to record additional restructuring costs related to this program as the underlying plan is finalized.

During the first quarter of 2016, the Company announced a restructuring program to transform the Company's engineering organization and supporting functional areas to focus on execution and technology. The organization will be comprised of regional engineering, product management and advanced technologies, and global centers of competence. For the three and six month periods ended June 30, 2016, the Company recorded \$1 million and \$12 million, respectively, of restructuring expenses under this program, associated with approximately 100 employees. As of June 30, 2017 the plan is considered substantially complete.

During 2015, the Company announced a restructuring program designed to reduce the workforce at a European Electronics facility, of which \$5 million remains accrued as of June 30, 2017.

In connection with the acquisition of substantially all of the global automotive electronic business of Johnson Controls Inc. (the "Electronics Acquisition") in 2014, the Company commenced a restructuring program designed to achieve cost savings through transaction synergies. Charges for the program are considered substantially complete and approximately \$1 million remains accrued as of June 30, 2017.

Other and Discontinued Operations

During 2016, the Company recorded restructuring expenses related to severance and termination benefits primarily related to the wind-down of certain operations in South America. As of June 30, 2017, the plan is considered substantially complete.

As of June 30, 2017, the Company retained approximately \$6 million of restructuring reserves as part of the Interiors Divestiture associated with previously announced programs for the fundamental reorganization of operations at facilities in Brazil and France.

Restructuring Reserves

Restructuring reserve balances of \$30 million and \$40 million as of June 30, 2017 and December 31, 2016, respectively, are classified as "Other current liabilities" on the consolidated balance sheets. The Company anticipates that the activities associated with the current restructuring reserve balance will be substantially complete within one year. The Company's consolidated restructuring reserves and related activity are summarized below, including amounts associated with discontinued operations.

	Electronics	Other	Total
	(Dollars in Millions)		
December 31, 2016	\$ 31	\$ 9	\$ 40
Expense	1	—	1
Utilization	(8)	(1)	(9)
March 31, 2017	24	8	32
Expense	6	—	6
Utilization	(6)	(1)	(7)
Reversals	(2)	(1)	(3)
Foreign currency	2	—	2
June 30, 2017	<u>\$ 24</u>	<u>\$ 6</u>	<u>\$ 30</u>

NOTE 6. Inventories

Inventories consist of the following components:

	June 30 2017	December 31 2016
	(Dollars in Millions)	
Raw materials	\$ 92	\$ 83
Work-in-process	45	34
Finished products	28	34
	<u>\$ 165</u>	<u>\$ 151</u>

NOTE 7. Other Assets

Other current assets are comprised of the following components:

	June 30	December 31
	2017	2016
	(Dollars in Millions)	
Recoverable taxes	\$ 65	\$ 60
Prepaid assets and deposits	35	35
Joint venture receivables	31	39
Notes receivable	18	18
Contractually reimbursable engineering costs	8	7
Foreign currency hedges	—	6
Other	2	5
	<u>\$ 159</u>	<u>\$ 170</u>

Notes receivable represent bank notes generally maturing within six months. The Company has entered into arrangements with a financial institution to sell customer notes receivable in Asia. The receivables under the arrangement are sold with recourse, but qualify as a sale as all rights to the notes have passed to the financial institution. During the six months ended June 30, 2017 the Company received cash of \$6 million for the sale of notes receivables under these arrangements, of which \$5 million remain outstanding.

Other non-current assets are comprised of the following components:

	June 30	December 31
	2017	2016
	(Dollars in Millions)	
Deferred tax assets	\$ 51	\$ 48

Joint venture receivables	26	25
Contractually reimbursable engineering costs	15	11
Long term notes receivable	10	10
Other	14	18
	<u>\$ 151</u>	<u>\$ 146</u>

In conjunction with the Interiors Divestiture, the Company entered into a three year term loan with the buyer for \$10 million, which matures on December 1, 2019.

Current and non-current contractually reimbursable engineering costs of \$8 million and \$15 million, respectively, as of June 30, 2017 and \$7 million and \$11 million, respectively, as of December 31, 2016, are related to pre-production design and development costs incurred pursuant to long-term supply arrangements that are contractually guaranteed for reimbursement by customers. The Company expects to receive cash reimbursement payments of approximately \$6 million during the remainder of 2017, \$4 million in 2018, and \$13 million in 2019 and thereafter.

NOTE 8. Intangible Assets, net

Intangible assets, net as of June 30, 2017 and December 31, 2016, are comprised of the following:

	Estimated Weighted Average Useful Life (years)	June 30, 2017			December 31, 2016		
		Gross Carrying Value	Accumulated Amortization	Net Carrying Value	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
		(Dollars in Millions)					
<u>Definite-Lived:</u>							
Developed technology	10	\$ 41	\$ 27	\$ 14	\$ 40	\$ 25	\$ 15
Customer related	9	84	29	55	83	25	58

Other	32	8	1	7	8	1	7
Subtotal		138	57	81	135	51	84
<u>Indefinite-Lived:</u>							
Goodwill		46	—	46	45	—	45
Total		\$ 184	\$ 57	\$ 127	\$ 180	\$ 51	\$ 129

The Company recorded approximately \$3 million and \$6 million of amortization expense related to definite-lived intangible assets for the three and six months ended June 30, 2017. The Company currently estimates annual amortization expense to be \$13 million for 2017, \$14 million for 2018 and 2019, \$11 million for 2020, and \$10 million for 2021. Indefinite-lived intangible assets are not amortized but are tested for impairment at least annually, or earlier when events and circumstances indicate that it is more likely than not that such assets have been impaired. There were no indicators of potential impairment during the six months ended June 30, 2017.

The Company capitalizes software development costs after the software product development reaches technological feasibility and until the software product becomes releasable to customers. The capitalized software development costs are amortized over the useful life of the technology on a straight-line basis.

A roll-forward of the carrying amounts of intangible assets is presented below:

	Definite-lived intangibles				Indefinite-lived intangibles	
	Developed Technology	Customer Related	Capitalized Software Development	Other	Goodwill	Total

Other	27		29
	<u>\$ 234</u>	\$	<u>309</u>

On December 1, 2015, Visteon completed the sale and transfer of its equity ownership in Visteon Deutschland GmbH, which operated the Berlin, Germany interiors plant ("Germany Interiors Divestiture"). The Company contributed cash, of approximately \$141 million, assets of \$27 million, and liabilities of \$198 million including pension related liabilities. The Company will make a final contribution payment of approximately \$34 million during 2017 upon fulfillment of buyer contractual commitments.

On January 22, 2016 the Company paid to shareholders a special distribution of \$1.74 billion, an additional \$14 million will be paid over a two-year period upon vesting and settlement of restricted stock units and performance-based share units previously granted to the Company's employees. The special cash distribution was funded from the Climate Transaction proceeds.

Following the initial sale as part of the Climate Transaction, the Company repurchased an Electronics operation located in India on March 27, 2017 as further described in Note 3, "Discontinued Operations."

Other non-current liabilities are summarized as follows:

	June 30		December 31
	2017		2016
	(Dollars in Millions)		
Deferred income	\$ 16	\$	18

Other	14		15
	<u>\$ 62</u>	\$	<u>69</u>

NOTE 10. Debt

The Company's short and long-term debt consists of the following:

	June 30 2017	December 31 2016
	(Dollars in Millions)	
<u>Short-Term Debt:</u>		
Current portion of long-term debt	\$ 1	\$ 3
Short-term borrowings	41	33
	<u>\$ 42</u>	<u>\$ 36</u>
<u>Long-Term Debt:</u>		
Term debt facility	\$ 347	\$ 346

Short-Term Debt

Short-term borrowings are primarily related to the Company's non-U.S. consolidated joint ventures and are payable in U.S. Dollars, Chinese Renminbi and India Rupee. The Company had short-term borrowings of \$41 million and \$33 million as of June 30, 2017 and December 31, 2016, respectively. Short-term borrowings increased in the second quarter of 2017 primarily due to changes in working capital needs.

Available borrowings on outstanding affiliate credit facilities as of June 30, 2017 are approximately \$24 million and certain of these facilities have pledged assets as security.

Long-Term Debt

As of December 31, 2016, the Company had an amended credit agreement (the "Credit Agreement") which included a \$350 million Term Facility maturing April 9, 2021 and a Revolving Credit Facility with capacity of \$200 million maturing April 9, 2019. Borrowings under the Term Facility accrued interest at the greater of LIBOR or 0.75%, plus 2.75%, with an option by the Company to specify the LIBOR tenor of either 1, 2, 3, or 6 months. Loans drawn under the Revolving Credit Facility had an interest rate equal to LIBOR plus a margin ranging from 2.00% to 2.75% as specified by a ratings grid contained in the Credit Agreement. As of December 31, 2016, borrowings under the Revolving Credit Facility would accrue interest at LIBOR plus 2.50%. There were no outstanding borrowings at year-end.

On March 24, 2017, the Company entered into a second amendment to the Credit Agreement to, among other things, extend the maturity dates of both facilities by three years and increase the Revolving Credit Facility capacity to \$300 million. The amended Revolving Credit Facility will mature on March 24, 2022 and the amended Term Facility will mature on March 24, 2024. The amendment reduced the LIBOR spread applicable to each of the Revolving Credit Facility and the Term Facility by 0.50% and reduced the LIBOR floor related to the Term Facility from 0.75% to 0.00%. The \$350 million of borrowings under the amended Term Facility now accrue interest at a rate of LIBOR plus 2.25%. In conjunction with the refinancing the Company received a credit rating upgrade from Standard & Poor's to BB from BB-. Pursuant to the ratings grid in the amended Revolving Credit Facility, any borrowing thereunder will accrue interest at LIBOR plus 1.75%. As of June 30, 2017, there were no outstanding borrowings under the amended Revolving Credit Facility.

The Revolving Credit Facility also provides \$75 million availability for the issuance of letters of credit and a maximum of \$20 million for swing line borrowing. Any amount of the facility utilized for letters of credit or swing line loans outstanding will reduce the amount available under the amended Revolving Credit Facility. The Company may request increases in the limits under the amended Term Facility and the amended Revolving Credit Facility and may request the addition of one or more term loan facilities under the Credit Agreement. Outstanding borrowings may be prepaid without penalty (other than borrowings made for the purpose of reducing the effective interest rate margin or weighted average yield of the loans). There are mandatory prepayments of principal in connection with: (i) excess cash flow sweeps above certain leverage thresholds, (ii) certain asset sales or other dispositions, (iii) certain refinancing of indebtedness and (iv) over-advances under the Revolving Credit Facility. No excess cash flow sweeps are required at the Company's current leverage ratios.

The Credit Agreement requires the Company and its subsidiaries to comply with customary affirmative and negative covenants, and contains customary events of default. The Revolving Credit Facility also requires that the Company maintain a total net leverage ratio no greater than 3.00:1.00. During any period when the Company's corporate and family ratings meet investment

grade ratings, certain of the negative covenants shall be suspended. As of June 30, 2017, the Company was in compliance with all covenants.

All obligations under the Credit Agreement and obligations in respect of certain cash management services and swap agreements with the lenders and their affiliates are unconditionally guaranteed by certain of the Company's subsidiaries. Under the terms of the Credit Agreement, all obligations under the Credit Agreement are secured by a first-priority perfected lien (subject to certain exceptions) on substantially all property of the Company and the subsidiaries party to the Security Agreement, subject to certain limitations.

During the six months ended June 30, 2017, the Company recorded \$1 million of interest expense and deferred \$2 million of costs as a non-current asset in connection with amending both the Term Facility and Revolving Credit Facility. The deferred costs will be amortized over the term of the debt facilities. As of June 30, 2017, the amended Term Facility remains at \$350 million of aggregate principal and there were no outstanding borrowings under the amended Revolving Credit Facility.

Other

The Company has a \$15 million letter of credit facility whereby the Company must maintain a collateral account equal to 103% of the aggregate stated amount of issued letters of credit (or 110% for non-U.S. currencies) and must reimburse any amounts drawn under issued letters of credit. The Company had \$3 million of outstanding letters of credit issued under this facility secured by restricted cash, as of June 30, 2017.

Additionally, the Company had \$17 million of locally issued letters of credit as of June 30, 2017, to support various tax appeals, customs arrangements and other obligations at its local affiliates.

NOTE 11. Employee Benefit Plans

Defined Benefit Plans

The Company's net periodic benefit costs for all defined benefit plans for the three month periods ended June 30, 2017 and 2016 were as follows:

	U.S. Plans		Non-U.S. Plans	
	2017	2016	2017	2016
	(Dollars in Millions)			
<u>Costs Recognized in Income:</u>				
Service cost	\$ —	\$ —	\$ 1	\$ 1
Interest cost	7	7	2	3
Expected return on plan assets	(10)	(11)	(2)	(3)
Settlements and curtailments	—	—	—	1
Amortization of losses and other	—	—	1	—
Net pension (income) expense	<u>\$ (3)</u>	<u>\$ (4)</u>	<u>\$ 2</u>	<u>\$ 2</u>

The Company's net periodic benefit costs for all defined benefit plans for the six month periods ended June 30, 2017 and 2016 were as follows:

	U.S. Plans		Non-U.S. Plans	
	2017	2016	2017	2016
	(Dollars in Millions)			
<u>Costs Recognized in Income:</u>				
Service cost	\$ —	\$ —	\$ 1	\$ 2
Interest cost	14	14	4	5
Expected return on plan assets	(20)	(21)	(4)	(5)
Settlements and curtailments	—	—	—	1
Amortization of losses and other	—	—	1	—
Net pension (income) expense	<u>\$ (6)</u>	<u>\$ (7)</u>	<u>\$ 2</u>	<u>\$ 3</u>

During the six months ended June 30, 2017, cash contributions to the Company's defined benefit plans were less than \$1 million for the U.S. plans and were \$3 million for the non-U.S. plans. The Company expects to make cash contributions to its defined benefit pension plans of \$7 million in 2017, which may be revised.

On April 28, 2016, the Company purchased a non-participating annuity contract for all participants of the Canada non-represented plan. The annuity purchase covered 52 participants and resulted in the use of \$5 million of plan assets for pension benefit obligation settlements of approximately \$5 million. In connection with the annuity purchase, the Company recorded a settlement loss of approximately \$1 million during the the three months ended June 30, 2016.

NOTE 12. Income Taxes

During the three and six month periods ended June 30, 2017, the Company recorded a provision for income tax on continuing operations of \$10 million and \$26 million, respectively, which reflects income tax expense in countries where the Company is profitable; withholding taxes; changes in uncertain tax benefits; and the inability to record a tax benefit for pretax losses and/or recognize expense for pretax income in certain jurisdictions (including the U.S.) due to valuation allowances. Pretax losses from continuing operations in jurisdictions where valuation allowances are maintained and no income tax benefits are recognized totaled

\$9 million and \$12 million for the six months ended June 30, 2017 and June 30, 2016, respectively, resulting in an increase in the Company's effective tax rate in those years.

The Company provides for U.S. and non-U.S. income taxes and non-U.S. withholding taxes on the projected future repatriations of the earnings from its non-U.S. operations that are not considered permanently reinvested at each tier of the legal entity structure.

During the six month periods ended June 30, 2017 and 2016, the Company recognized expense primarily related to non-U.S. withholding taxes of \$4 million and \$2 million, respectively, reflecting the Company's forecasts which contemplate numerous financial and operational considerations that impact future repatriations.

The Company's provision for income taxes in interim periods is computed by applying an estimated annual effective tax rate against income before income taxes, excluding equity in net income of non-consolidated affiliates for the period. Effective tax rates vary from period to period as separate calculations are performed for those countries where the Company's operations are profitable and whose results continue to be tax-effected and for those countries where full deferred tax valuation allowances exist and are maintained. In determining the estimated annual effective tax rate, the Company analyzes various factors, including but not limited to, forecasts of projected annual earnings, taxing jurisdictions in which the pretax income and/or pretax losses will be generated and available tax planning strategies. The Company's estimated annual effective tax rate is updated each quarter and may be significantly impacted by changes to the mix of forecasted earnings by tax jurisdiction. The tax impact of adjustments to the estimated annual effective tax rate are recorded in the period such estimates are revised. The Company is also required to record the tax impact of certain other non-recurring tax items, including changes in judgment about valuation allowances and uncertain tax positions, and changes in tax laws or rates, in the interim period in which they occur, rather than include them in the estimated annual effective tax rate.

The need to maintain valuation allowances against deferred tax assets in the U.S. and other affected countries will cause variability in the Company's quarterly and annual effective tax rates. Full valuation allowances against deferred tax assets in the U.S. and applicable foreign countries will be maintained until sufficient positive evidence exists to reduce or eliminate them. The factors considered by management in its determination of the probability of the realization of the deferred tax assets include, but are not limited to, recent historical financial results, historical taxable income, projected future taxable income, the expected timing of the reversals of existing temporary differences and tax planning strategies. If, based upon the weight of available evidence, it is more likely than not the deferred tax assets will not be realized, a valuation allowance is recorded. The weight given to the positive and negative evidence is commensurate with the extent to which the evidence may be objectively verified. As such, it is generally difficult for positive evidence regarding projected future taxable income exclusive of reversing taxable temporary differences to outweigh objective negative evidence of recent financial reporting losses, in particular, when there is a cumulative loss incurred over a three-year period. In regards to the full valuation allowance recorded against the U.S. net deferred tax assets, the cumulative U.S. pretax book loss adjusted for significant permanent items incurred over the three-year period ended December 31, 2016 limits the ability to consider other subjective evidence such as the Company's plans to improve U.S. profits, and as such, the Company continues to maintain a full valuation allowance against the U.S. net deferred tax assets. Based on the Company's current assessment, it is possible that within the next 12 to 24 months, the existing valuation allowance against the U.S. net deferred tax assets could be partially released. Any such release is dependent upon the sustained improvement in U.S. operating results, and, if such a release of the valuation allowance were to occur, it could have a significant impact on net income in the quarter in which it is deemed appropriate to partially release the reserve.

Unrecognized Tax Benefits

Gross unrecognized tax benefits as of June 30, 2017 and December 31, 2016, including amounts attributable to discontinued operations, were \$18 million and \$35 million, respectively. Of these amounts approximately \$9 million and \$12 million as of June, 2017 and December 31, 2016, respectively, represent the amount of unrecognized benefits that, if recognized, would impact the effective tax rate. The gross unrecognized tax benefit differs from that which would impact the effective tax rate due to uncertain tax positions embedded in other deferred tax attributes carrying a full valuation allowance. If the uncertainty is resolved while a full valuation allowance is maintained, these uncertain tax positions should not impact the effective tax rate in current or future periods. The Company records interest and penalties related to uncertain tax positions as a component of income tax expense and related amounts accrued at June 30, 2017 and December 31, 2016 were \$3 million and \$4 million, respectively.

During the first quarter of 2017, the IRS completed the audit of the Company's U.S. tax returns for the 2012 and 2013 tax years. The closing of the audit did not have a material impact on the Company's effective tax rate due to the valuation allowances maintained against the Company's U.S. tax attributes resulting in a decrease in unrecognized tax benefits of \$16 million. Also during the first quarter of 2017, the Company settled tax assessments from the Mexican tax authorities in the amount of \$2 million related to certain transfer pricing-related issues.

With few exceptions, the Company is no longer subject to U.S. federal tax examinations for years before 2014, or state, local or non-U.S. income tax examinations for years before 2003, although U.S. net operating losses carried forward into open tax years technically remain open to adjustment. During the second quarter of 2017, the IRS contacted the Company to begin the examination process of the Company's U.S. tax returns for 2014 and 2015. Although it is not possible to predict the timing of the resolution of all ongoing tax audits with accuracy, it is reasonably possible that certain tax proceedings in Europe, Asia and Mexico could conclude within the next twelve months and result in a significant increase or decrease in the balance of gross unrecognized tax benefits. Given the number of years, jurisdictions and positions subject to examination, the Company is unable to estimate the full range of possible adjustments to the balance of unrecognized tax benefits. The long-term portion of uncertain income tax positions (including interest) in the amount of \$12 million is included in Other non-current liabilities on the consolidated balance sheet.

A reconciliation of the beginning and ending amount of unrecognized tax benefits including amounts attributable to discontinued operations is as follows:

	Six Months Ended June 30, 2017
	(Dollars in Millions)
Beginning balance	\$ 35
Tax positions related to current period:	
Additions	1
Tax positions related to prior periods:	
Reductions	(19)
Effect of exchange rate changes	1
Ending balance	<u>\$ 18</u>

During 2012, Brazil tax authorities issued tax assessment notices to Visteon Sistemas Automotivos ("Sistemas") related to the sale of its chassis business to a third party, which required a deposit in the amount of \$15 million during 2013 necessary to open a judicial proceeding against the government in order to suspend the debt and allow Sistemas to operate regularly before the tax authorities after attempts to reopen an appeal of the administrative decision failed. Adjusted for currency impacts and accrued interest, the deposit amount is approximately \$15 million, as of June 30, 2017. The Company believes that the risk of a negative outcome is remote once the matter is fully litigated at the highest judicial level. These appeal payments, as well as income tax refund claims associated with other jurisdictions, total \$18 million as of June 30, 2017, and are included in "Other non-current assets" on the consolidated balance sheet.

NOTE 13. Stockholders' Equity and Non-controlling Interests

Changes in equity for the three and six months ended June 30, 2017 and 2016 are as follows:

	2017			2016

Share Repurchase Program

During 2016, Visteon completed two stock buyback programs with a third-party financial institution to purchase shares of common stock for an aggregate purchase price of \$500 million. Under these programs, Visteon purchased 7,190,506 shares at an average price of \$69.48.

On January 10, 2017, the Company's board of directors authorized \$400 million of share repurchase of its shares of common stock through. On February 27, 2017 the Company entered into an accelerated share buyback ("ASB") program with a third-party financial institution to purchase shares of Visteon common stock for an aggregate purchase price of \$125 million. On March 2, 2017, the Company received an initial delivery of 1,062,022 shares of common stock using a reference price of \$94.16. The

program was concluded in May 2017 and the Company received an additional 238,344 shares. In total, the Company purchased 1,300,366 shares at an average price of \$96.13 under this ASB program.

During the second quarter of 2017, the Company entered into a brokerage agreement with a third party financial institution to execute open market share purchases of the Company's common stock. The Company paid approximately \$35 million to repurchase 359,100 shares at an average price of \$97.44.

The Company anticipates that additional repurchases of common stock, if any, would occur from time to time in open market transactions or in privately negotiated transactions depending on market and economic conditions, share price, trading volume, alternative uses of capital and other factors.

Non-Controlling Interests

Non-controlling interests in the Visteon Corporation economic entity are as follows:

	June 30	December 31
	2017	2016
	(Dollars in Millions)	
Yanfeng Visteon Automotive Electronics Co., Ltd.	\$ 92	\$ 97
Shanghai Visteon Automotive Electronics, Co., Ltd.	42	39
Other	2	2
	<u>\$ 136</u>	<u>\$ 138</u>

Accumulated Other Comprehensive (Loss) Income

Changes in Accumulated other comprehensive (loss) income (“AOCI”) and reclassifications out of AOCI by component include:

	Three Months Ended June 30		Six Months Ended June 30

Amounts reclassified from AOCI	<u>1</u>	<u>(1)</u>	<u>3</u>	<u>(3)</u>
Ending balance	<u>(2)</u>	<u>(3)</u>	<u>(2)</u>	<u>(3)</u>
Total AOCI	\$ (204)	\$ (170)	\$ (204)	\$ (170)

(a) There were no income tax effects for the three month periods ending June 30, 2017 and 2016, due to the recording of valuation allowance.

(b) Net tax expense of less than \$1 million and \$1 million are related to unrealized hedging (loss) gain for the three months ended June 30, 2017 and 2016, respectively. Net tax expense of \$1 million and less than \$1 million are related to unrealized hedging gain for the six months ended June 30, 2017 and 2016, respectively.

NOTE 14. Earnings Per Share

Basic earnings per share is calculated by dividing net income attributable to Visteon by the weighted average number of shares of common stock outstanding. Diluted earnings per share is computed by dividing net income by the weighted average number of common and potentially dilutive common shares outstanding. Performance based share units are considered contingently issuable shares, and are included in the computation of diluted earnings per share based on the number of shares that would be issuable if the reporting date were the end of the contingency period and if the result would be dilutive.

The table below provides details underlying the calculations of basic and diluted earnings (loss) per share:

	Three Months Ended June 30		Six Months Ended June 30	
	2017	2016	2017	2016
(In Millions, Except Per Share Amounts)				
Numerator:				
Net income from continuing operations attributable to Visteon	\$ 45	\$ 35	\$ 100	\$ 67
Income (loss) from discontinued operations, net of tax	—	(9)	8	(22)
Net income attributable to Visteon	<u>\$ 45</u>	<u>\$ 26</u>	<u>\$ 108</u>	<u>\$ 45</u>
Denominator:				
Average common stock outstanding - basic	31.5	34.0	32.1	36.3
Dilutive effect of performance based share units and other	0.5	0.4	0.5	0.4
Diluted shares	<u>32.0</u>	<u>34.4</u>	<u>32.6</u>	<u>36.7</u>

Basic and Diluted Per Share Data:

Basic earnings (loss) per share attributable to Visteon:

Continuing operations	\$ 1.43	\$ 1.03	\$ 3.12	\$ 1.85
Discontinued operations	—	(0.26)	0.25	(0.61)
	<u>\$ 1.43</u>	<u>\$ 0.77</u>	<u>\$ 3.37</u>	<u>\$ 1.24</u>
Diluted earnings (loss) per share attributable to Visteon:				
Continuing operations	\$ 1.41	\$ 1.02	\$ 3.07	\$ 1.83
Discontinued operations	—	(0.26)	0.24	(0.60)
	<u>\$ 1.41</u>	<u>\$ 0.76</u>	<u>\$ 3.31</u>	<u>\$ 1.23</u>

NOTE 15. Fair Value Measurements and Financial Instruments

Fair Value Measurements

The Company uses a three-level fair value hierarchy that categorizes assets and liabilities measured at fair value based on the observability of the inputs utilized in the valuation. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs.

- Level 1 – Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.
- Level 2 – Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability.
- Level 3 – Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

Item Measured at Fair Value on a Nonrecurring Basis

Certain assets and liabilities are measured at fair value on a nonrecurring basis. The fair value measurements are generally determined using unobservable inputs and are classified within Level 3 of the fair value hierarchy. These assets include long-lived assets, intangible assets and investments in affiliates, which may be written down to fair value as a result of impairment. During the second quarter there were no items measured at fair value on a nonrecurring basis.

Items Not Carried at Fair Value

The Company's fair value of debt was approximately \$400 million and \$389 million as of June 30, 2017 and December 31, 2016, respectively. Fair value estimates were based on the current rates offered to the Company for debt of the same remaining maturities. Accordingly, the Company's debt fair value disclosures are classified as Level 2, "Other Observable Inputs" in the fair value hierarchy.

The Company is exposed to various market risks including, but not limited to, changes in currency exchange rates and market interest rates. The Company manages these risks, in part, through the use of derivative financial instruments. The maximum length of time over which the Company hedges the variability in the future cash flows related to transactions, excluding those transactions as related to the payment of variable interest on existing debt, is eighteen months. The maximum length of time over which the Company hedges forecasted transactions related to variable interest payments is the term of the underlying debt. The use of financial derivative instruments may pose risk of loss in the event of nonperformance by the transaction counter-party.

The Company presents its derivative positions and any related material collateral under master netting arrangements that provide for the net settlement of contracts, by counterparty, in the event of default or termination. Derivative financial instruments designated and non-designated as hedging instruments are included in the Company's consolidated balance sheets. There is no cash collateral on any of these derivatives.

Items Measured at Fair Value on a Recurring Basis

Foreign currency hedge instruments are measured at fair value on a recurring basis under an income approach using industry-standard models that consider various assumptions, including time value, volatility factors, current market and contractual prices for the underlying and non-performance risk. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, can be derived from observable data, or are supported by observable levels at which transactions are executed in the marketplace. Accordingly, the Company's foreign currency instruments are classified as Level 2, "Other Observable Inputs" in the fair value hierarchy.

Interest rate swaps are valued under an income approach using industry-standard models that consider various assumptions, including time value, volatility factors, current market and contractual prices for the underlying and non-performance risk. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, and can be derived from observable data or supported by observable levels at which transactions are executed in the marketplace. Accordingly, the Company's interest rate swaps are classified as Level 2, "Other Observable Inputs" in the fair value hierarchy.

Foreign Exchange Risk: The Company's net cash inflows and outflows exposed to the risk of changes in foreign currency exchange rates arise from the sale of products in countries other than the manufacturing source, foreign currency denominated supplier payments, debt and other payables, subsidiary dividends and investments in subsidiaries. The Company primarily uses foreign currency derivative instruments, including forward and option contracts, to mitigate the variability of the value of cash flows denominated in currency other than the hedging entity's functional currency. Foreign currency exposures are reviewed periodically and any natural offsets are considered prior to entering into a derivative financial instrument. The Company's current hedged foreign currency exposures include the Euro, Japanese Yen, Thailand Bhat and Mexican Peso.

As of June 30, 2017, and December 31, 2016, the Company had foreign currency derivative instruments with aggregate notional value of approximately \$122 million and \$169 million, respectively. At June 30, 2017, approximately \$89 million of the hedge instruments have been designated as cash flow hedges. Accordingly, the effective portion of changes in the fair value of the transactions are initially recognized in other comprehensive income, a component of shareholders' equity. Upon settlement of the transactions, the accumulated gains and losses are reclassified to income in the same periods during which the hedged cash flows impact earnings. The ineffective portion of changes in the fair value of the transactions, if any, is recognized directly in income. There was no ineffectiveness associated with such derivatives as of June 30, 2017 and December 31, 2016 and the fair value of these derivatives was a liability of \$3 million and a liability of \$6 million, respectively. The fair value estimates derived from observable data, or are supported by observable levels at which similar transactions are executed in the marketplace. The difference between the gross and net value of these derivatives after offset by counter party is not material. The estimated AOCI that is expected to be reclassified into earnings within the next 12 months is approximately a loss of \$2 million.

During 2015, the Company entered into cross currency swap transactions to mitigate the variability of the value of the Company's investment in certain non-U.S. entities. In April 2017, the Company terminated and received \$5 million of proceeds upon settlement. There was no ineffectiveness associated with such derivatives at the time of the termination. The Company subsequently entered into new cross currency swap transactions with an aggregate notional amount of \$150 million. The transactions are designated as net investment hedges of certain of the Company's European affiliates. Accordingly, the effective portion of changes in the fair value of the transactions are recognized in other comprehensive income, a component of shareholders' equity. There was no ineffectiveness associated with such derivatives as of June 30, 2017 and December 31, 2016 and the fair value of these derivatives was a liability of \$12 million and an asset of \$6 million, respectively.

Interest Rate Risk: The Company is subject to interest rate risk principally in relation to variable-rate debt. The Company uses financial derivative instruments to manage exposure to fluctuations in interest rates in connection with its risk management policies.

During 2015, the Company entered into interest rate swaps to manage interest rate risk associated with the Term Facility. In April 2017 the Company terminated and paid \$1 million to settle the contracts.

During the second quarter of 2017, the Company entered into new interest rate swap contracts with an aggregate notional value of \$150 million to effectively convert designated interest payments related to the amended Term Facility from variable to fixed cash flows. The maturities of these swaps do not exceed the underlying obligations under the amended Term Facility. The instruments have been designated as cash flow hedges and the effective portion of the changes in the fair value of the swap transactions are recognized in other comprehensive income. Subsequently, the accumulated gains and losses recorded in equity are reclassified to income in the period during which the hedged cash transaction impacts earnings. The ineffective portion of changes in the fair value of the swap transactions, if any, are recognized directly in income. As of June 30, 2017 and December 31, 2016, the fair value was an asset of less than \$1 million and a liability of \$1 million, respectively and there has been no ineffectiveness associated with these derivatives. AOCI expected to be reclassified into earnings within the next 12 months is a loss of \$1 million.

Financial Statement Presentation

Gains and losses on derivative financial instruments for the three and six months ended June 30, 2017 and 2016 are as follows:

	Recorded (Loss) Income into AOCI, net of tax		Reclassified from AOCI into (Income) Loss		Recorded in (Income) Loss	
	2017	2016	2017	2016	2017	2016
(Dollars in Millions)

Concentrations of Credit Risk

Financial instruments including cash equivalents, derivative contracts, and accounts receivable, expose the Company to counter-party credit risk for non-performance. The Company's counterparties for cash equivalents and derivative contracts are banks and financial institutions that meet the Company's credit rating requirements. The Company's counterparties for derivative contracts are substantial investment and commercial banks with significant experience using such derivatives. The Company manages its credit risk through policies requiring minimum credit standing and limiting credit exposure to any one counter-party and through monitoring counter-party credit risks.

The Company's credit risk with any individual customer does not exceed ten percent of total accounts receivable except for Ford and its affiliates which represents 18% and 16% of the balance as of June 30, 2017 and December 31, 2016, respectively, Mazda which represents 10% of the balance as of June 30, 2017 and December 31, 2016, and Nissan/Renault which represents 9% and 10% of the balance as of June 30, 2017 and December 31, 2016, respectively.

NOTE 16. Commitments and Contingencies*Litigation and Claims*

In 2003, the Local Development Finance Authority of the Charter Township of Van Buren, Michigan (the “Township”) issued, approximately \$28 million in bonds finally maturing in 2032, the proceeds of which were used at least in part to assist in the development of the Company’s U.S. headquarters located in the Township. During January 2010, the Company and the Township entered into a settlement agreement (the “Settlement Agreement”) that, among other things, reduced the taxable value of the headquarters property to current market value and facilitated certain claims of the Township in the Company’s chapter 11 proceedings. The Settlement Agreement also provided that the Company would continue to negotiate in good faith with the Township in the event that property tax payments was inadequate to permit the Township to meet its payment obligations with respect to the bonds. In September 2013, the Township notified the Company in writing that it is estimating a shortfall in tax revenues of between \$25 million and \$36 million, which could render it unable to satisfy its payment obligations under the bonds. On May 12, 2015, the Township commenced a proceeding against the Company in the U. S. Bankruptcy Court for the District of Delaware in connection with the foregoing. Upon the Company’s motion to dismiss, the Township dismissed the proceeding before the Delaware Bankruptcy Court and re-commenced the proceeding against the Company in the Michigan Wayne County Circuit Court for the State of Michigan on July 2, 2015. The Township sought damages or, alternatively, declaratory judgment that, among other things, the Company is responsible under the Settlement Agreement for payment of any shortfall in the bond debt service payments. On February 2, 2016, the Wayne County Circuit Court dismissed the Township’s lawsuit without prejudice on the basis that the Township’s claims were not ripe for adjudication. The Township appealed the decision to the Michigan Court of Appeals, which affirmed the dismissal of the Township’s lawsuit. The Township has sought leave to appeal from the Michigan Supreme Court. The Company disputes the factual and legal assertions made by the Township and intends to vigorously defend the matter. The Company is not able to estimate the possible loss or range of loss in connection with this matter.

The Company is currently involved in disputes with its former President and Chief Executive Officer, Timothy D. Leuliette. Mr. Leuliette filed an arbitration demand against the Company with the American Arbitration Association, alleging claims relating to the cessation of his employment. The Company subsequently filed a complaint against Mr. Leuliette in the U.S. District Court for the Eastern District of Michigan, seeking to enjoin the arbitration and asserting additional claims. The federal litigation is currently stayed pending a ruling in the arbitration. The Company disputes the factual and legal assertions made by Mr. Leuliette, has asserted counterclaims against him in the arbitration, and, although there can be no assurances, the Company does not currently believe that the resolution of these disputes will have a material adverse impact on its results of operations or financial condition.

In November 2013, the Company and Halla Visteon Climate Control Corporation, a Korean corporation (“HVCC”), jointly filed an Initial Notice of Voluntary Self-Disclosure statement with the U.S. Treasury Department’s Office of Foreign Assets Control (“OFAC”) regarding certain sales of automotive HVAC components by a minority-owned, Chinese joint venture of HVCC into Iran. The Company updated that notice in December 2013, and subsequently filed a voluntary self-disclosure regarding these sales with OFAC in March 2014. In May 2014, the Company voluntarily filed a supplementary self-disclosure identifying additional sales of automotive HVAC components by the Chinese joint venture, as well as similar sales involving an HVCC subsidiary in China, totaling approximately \$12 million, and filed a final voluntary-self disclosure with OFAC on October 17, 2014. OFAC is currently reviewing the results of the Company’s investigation. Following that review, OFAC may conclude that the disclosed sales resulted in violations of U.S. economic sanctions laws and warrant the imposition of civil penalties, such as fines, limitations on the Company’s ability to export products from the United States, and/or referral for further investigation by the U.S. Department of Justice. Any such fines or restrictions may be material to the Company’s financial results in the period in which they are imposed, but at this time is not able to estimate the possible loss or range of loss in connection with this matter. Additionally, disclosure of this conduct and any fines or other action relating to this conduct could harm the Company’s reputation and have a material adverse effect on our business, operating results and financial condition. The Company cannot predict when OFAC will conclude its own review of our voluntary self-disclosures or whether it may impose any of the potential penalties described above.

The Company’s operations in Brazil and Argentina are subject to highly complex labor, tax, customs and other laws. While the Company believes that it is in compliance with such laws, it is periodically engaged in litigation regarding the application of these laws. As of June 30, 2017, the Company maintained accruals of approximately \$10 million and \$5 million for claims aggregating approximately \$55 million and \$34 million in Brazil and Argentina, respectively. The amounts accrued represent claims that are deemed probable of loss and are reasonably estimable based on the Company’s assessment of the claims and prior experience with similar matters.

While the Company believes its accruals for litigation and claims are adequate, the final amounts required to resolve such matters could differ materially from recorded estimates and the Company’s results of operations and cash flows could be materially affected.

Guarantees and Commitments

The Company provided a \$18 million loan guarantee to YFVIC. The guarantee contains standard non-payment provisions to cover the borrowers in event of non-payment of principal, accrued interest, and other fees, and the loan is expected to be fully paid by September 2019.

As part of the agreements of the Climate Transaction and Interiors Divestiture, the Company continues to provide lease guarantees to divested Climate and Interiors entities. As of June 30, 2017, the Company has approximately \$7 million and \$6 million of outstanding guarantees respectively, related to divested Climate and Interiors entities. These guarantees will generally cease upon expiration of current lease agreements.

Product Warranty and Recall

Amounts accrued for product warranty and recall claims are based on management's best estimates of the amounts that will ultimately be required to settle such items. The Company's estimates for product warranty and recall obligations are developed with support from its sales, engineering, quality and legal functions and include due consideration of contractual arrangements, past experience, current claims and related information, production changes, industry and regulatory developments and various other considerations. The following table provides a reconciliation of changes in the product warranty and recall claims liability:

	Six Months Ended June 30	
	2017	2016
	(Dollars in Millions)	
Beginning balance	\$ 55	\$ 38
Accruals for products shipped	10	8
Changes in estimates	2	1
Specific cause actions	—	(1)
Recoverable warranty/recalls	—	(1)
Foreign currency	2	1
Settlements	(19)	(9)
Ending balance	\$ 50	\$ 37

Other Contingent Matters

The Company is actively negotiating the possible exit of a European facility that would involve contributing cash, inventory, and fixed assets to a third party. The potential transaction is subject to works council, governmental, and legal approvals. While the terms have yet to be finalized, the potential contribution includes cash and working capital ranging from \$15 million to \$20 million and long term assets of approximately \$10 million to \$15 million. As of June 30, 2017, the Company did not meet the specific criteria necessary for the assets to be considered held for sale.

Various legal actions, governmental investigations and proceedings and claims are pending or may be instituted or asserted in the future against the Company, including those arising out of alleged defects in the Company's products; governmental regulations relating to safety; employment-related matters; customer, supplier and other contractual relationships; intellectual property rights; product warranties; product recalls; and environmental matters. Some of the foregoing matters may involve compensatory, punitive or antitrust or other treble damage claims in very large amounts, or demands for recall campaigns, environmental remediation programs, sanctions, or other relief which, if granted, would require very large expenditures. The Company enters into agreements that contain indemnification provisions in the normal course of business for which the risks are considered nominal and impracticable to estimate.

Contingencies are subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance. Reserves have been established by the Company for matters discussed in the immediately foregoing paragraph where losses are deemed probable and reasonably estimable. It is possible, however, that some of the matters discussed in the foregoing paragraph could be decided unfavorably to the Company and could require the Company to pay damages or make other expenditures in amounts, or a range of amounts, that cannot be estimated as of June 30, 2017 and that are in excess of established reserves. The Company does not reasonably expect, except as otherwise described herein, based on its analysis, that any adverse outcome from

such matters would have a material effect on the Company's financial condition, results of operations or cash flows, although such an outcome is possible.

NOTE 17. Segment Information

Financial results for the Company's reportable segment have been prepared using a management approach, which is consistent with the basis and manner in which financial information is evaluated by the Company's chief operating decision maker in allocating resources and in assessing performance. The Company's chief operating decision maker, the Chief Executive Officer, evaluates the performance of the Company's segment primarily based on net sales, before elimination of inter-company shipments, Adjusted EBITDA (a non-GAAP financial measure, as defined below) and operating assets.

The Company's current reportable segment is Electronics. The Company's Electronics segment provides vehicle cockpit electronics products to customers, including audio systems, information displays, instrument clusters, head up displays, infotainment systems, and telematics solutions. Prior to 2017, the Company also had Other operations consisting primarily of South Africa and South America climate operations substantially exited during the fourth quarter of 2016. As the Company ceased Other operations in 2016, future legacy impacts will be associated with the Company's continuing Electronics operations.

Segment Sales

	Three Months Ended June 30		Six Months Ended June 30	
	2017	2016	2017	2016
	(Dollars in Millions)			
Electronics	\$ 774	\$ 762	\$ 1,584	\$ 1,555
Other	—	11	—	20
Total consolidated sales	<u>\$ 774</u>	<u>\$ 773</u>	<u>\$ 1,584</u>	<u>\$ 1,575</u>

Segment Adjusted EBITDA

The Company defines Adjusted EBITDA as net income attributable to the Company adjusted to eliminate the impact of depreciation and amortization, restructuring expense, net interest expense, loss on debt extinguishment, equity in net income of non-consolidated affiliates, loss on divestiture, gain on non-consolidated affiliate transactions, other net expense, provision for income taxes, discontinued operations, net income attributable to non-controlling interests, non-cash stock-based compensation expense, pension settlement gains and other non-operating gains and losses.

Adjusted EBITDA is presented as a supplemental measure of the Company's financial performance that management believes is useful to investors because the excluded items may vary significantly in timing or amounts and/or may obscure trends useful in evaluating and comparing the Company's operating activities across reporting periods. Not all companies use identical calculations and, accordingly, the Company's presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies. Adjusted EBITDA is not a recognized term under GAAP and does not purport to be a substitute for net income as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. Adjusted EBITDA has limitations as an analytical tool and is not intended to be a measure of cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. In addition, the Company uses Adjusted EBITDA (i) as a factor in incentive compensation decisions, (ii) to evaluate the effectiveness of the Company's business strategies and (iii) the Company's credit agreements use measures similar to Adjusted EBITDA to measure compliance with certain covenants.

Segment Adjusted EBITDA is summarized below:

	Three Months Ended June 30		Six Months Ended June 30	
	2017	2016	2017	2016
	(Dollars in Millions)			
Electronics	\$ 84	\$ 79	\$ 185	\$ 173
Other	—	(2)	—	(7)
Adjusted EBITDA	<u>\$ 84</u>	<u>\$ 77</u>	<u>\$ 185</u>	<u>\$ 166</u>

The reconciliation of Adjusted EBITDA to net income attributable to Visteon is as follows:

	Three Months Ended June 30		Six Months Ended June 30	
	2017	2016	2017	2016
	(Dollars in Millions)			
Adjusted EBITDA	\$ 84	\$ 77	\$ 185	\$ 166

Net income attributable to non-controlling interests	3	4	7	8
Non-cash, stock-based compensation expense	4	2	6	4
Other	(1)	—	(1)	1
Net income attributable to Visteon Corporation	<u>\$ 45</u>	<u>\$ 26</u>	<u>\$ 108</u>	<u>\$ 45</u>

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis ("MD&A") is intended to help the reader understand the results of operations, financial condition and cash flows of Visteon Corporation ("Visteon" or the "Company"). MD&A is provided as a supplement to, and should be read in conjunction with, the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016 filed with the Securities and Exchange Commission on February 23, 2017, and the financial statements and accompanying notes to the financial statements included elsewhere herein.

Description of Business

Visteon Corporation (the "Company" or "Visteon") is a global automotive supplier that designs, engineers and manufactures innovative electronics products for nearly every original equipment vehicle manufacturer ("OEM") worldwide including Ford, Mazda, Renault/Nissan, General Motors, Honda, BMW and Daimler. Visteon is headquartered in Van Buren Township, Michigan and has an international network of manufacturing operations, technical centers and joint venture operations, supported by approximately 10,000 employees, dedicated to the design, development, manufacture and support of its product offerings and its global customers. The Company's manufacturing and engineering footprint is principally located outside of the United States.

Visteon provides value for its customers and stockholders through its technology-focused vehicle cockpit electronics business, by delivering a rich, connected cockpit experience for every car from luxury to entry. The Company's cockpit electronics business is one of the broadest portfolios in the industry and includes instrument clusters, information displays, infotainment systems, audio systems, telematics solutions, and head up displays. The Company's vehicle cockpit electronics business comprises and is reported under the Electronics segment. In addition to the Electronics segment, the Company had residual operations in South America and South Africa previously associated with the Climate business, sold or exited by December 31, 2016, but not subject to discontinued operations classification that comprised Other.

Strategic Initiatives

Visteon is a technology-focused, pure-play supplier of automotive cockpit electronics and connected car solutions. The Company has laid out the following strategic initiatives for 2017 and beyond:

- *Strengthen the Core* - Visteon offers technology and related manufacturing operations for audio, head-up displays, information displays, infotainment, instrument clusters and telematics products. During the first half of 2017, the Company won \$3.1 billion in new business, \$0.3 billion higher than the first half of 2016. The second quarter 2017 new business wins are primarily cluster awards and include the fourth award of SmartCore cockpit technology. The Company's backlog, defined as cumulative remaining life of program booked sales, is approximately \$17.3 billion as of June 30, 2017, or 5.5 times the last twelve months of sales, reflecting a strong booked sales base on which to launch future growth.

Core business financial results continue to improve with Adjusted EBITDA margin for electronics of 10.9% in second quarter 2017 compared with 10.4% in the same period of 2016. The Company expects to deliver cost efficiencies by streamlining selling, general and administration costs and engineering costs, improving free cash flow, optimizing the capital structure and driving savings benefits as revenue grows.

During 2016, the Company initiated a restructuring of its engineering and administration organization to focus on technology and execution and also to align the engineering and administrative footprint with its core technologies and customers. The organization will be comprised of customer regional engineering, product management and advanced technologies, and global centers of competence.

- *Move Selectively to Adjacent Products* - As consumer demand continues to evolve with an increase in electronics content per vehicle, the Company is advancing its expertise in the areas of cockpit domain controllers, next generation safety applications, and vehicle cybersecurity. Each of these areas require careful assessments of shifting consumer needs and how these new products complement Visteon's core products.
- *Expand into Autonomous Driving* - The Company's approach to autonomous driving is to feature fail-safe centralized domain hardware, designed for algorithmic developers, and applying artificial intelligence for object detection and other functions. The Company is developing a secure autonomous driving domain controller platform with an open framework based on neural networks. The Company projects a launch of the technology in 2018.
- *Accelerate China Business* - The Company plans to accelerate its China business as China's economic environment offers significant growth opportunities in sales and new technology launches. Visteon will continue to leverage joint venture

relationships to drive adoption of new offerings. Approximately 37% of the Company's \$17.3 billion of backlog is expected to be manufactured in Asia.

- Enhance Shareholder Returns** - On January 10, 2017, the Company's board of directors authorized management to purchase \$400 million of Visteon common stock. On February 27, 2017, the Company entered into an accelerated share buyback ("ASB") program with a third-party financial institution to purchase shares of Visteon common stock for an aggregate purchase price of \$125 million. On March 2, 2017, the Company received an initial delivery of 1,062,022 shares of common stock using a reference price of \$94.16. On May 8, 2017, the Company received an additional 238,344 shares upon conclusion of the program. In total, the Company acquired 1,300,366 shares at an average price of \$96.13.

During the second quarter of 2017, the Company spent approximately \$35 million to repurchase 359,100 shares on the open market at an average price of \$97.44.

The Company anticipates that additional share repurchases, if any, would occur from time to time in open market transactions or in privately negotiated transactions depending on market and economic conditions, share price, trading volume, alternative uses of capital and other factors.

Executive Summary

The Company's Electronics sales for the three months ended June 30, 2017 totaled \$774 million, the pie charts below highlight the sales breakdown for the three and six months ended June 30, 2017.

Three Months Ended June 30, 2017

Six Months Ended June 30, 2017

In the second quarter of 2017 global light vehicle production was relatively flat year over year. Lower volumes in Europe (3%) and North America (3%) were modestly offset by growth in Asia Pacific (1%) and continued strong growth for South America (16%).

Light vehicle production levels for the three months ended June 30, 2017 and 2016, by geographic region are provided below:

	Three Months Ended June 30			Six Months Ended June 30		
	2017	2016	Change	2017	2016	Change
	(Units in Millions)					
Global	23.0	23.0	(0.1)%	47.3	46.1	2.8 %

Source: IHS Automotive

Significant aspects of the Company's financial results during the three and six months periods ended June 30, 2017 include the following:

- The Company recorded sales of \$774 million for the three months ended June 30, 2017, representing an increase of \$1 million when compared with the same period of 2016. The increase was primarily due to favorable volumes, product mix, and net new business, partially offset by Chinese Renminbi and Euro currency impacts, customer pricing net of design changes and the exit of other climate operations in 2016.
- The Company recorded sales of \$1,584 million for the six months ended June 30, 2017, representing an increase of \$9 million when compared with the same period of 2016. The increase was primarily due to favorable volumes, product mix, and net new business, partially offset by Chinese Renminbi and Euro currency impacts, customer pricing net of design changes and the exit of other climate operations in 2016.
- Gross margin was \$112 million or 14.5% of sales for the three months ended June 30, 2017, compared to \$109 million or 14.1% of sales for the same period of 2016. The increase was primarily attributable to favorable volumes, net new business and product mix, and improved cost performance, partially offset by customer pricing and currency impacts including the Chinese Renminbi and Euro partially offset by the Japanese Yen.
- Gross margin was \$243 million or 15.3% of sales for the six months ended June 30, 2017, compared to \$230 million or 14.6% of sales for the same period of 2016. The increase was primarily attributable to the exit of the Company's other climate operations in 2016, favorable volumes, net new business and product mix, and improved cost performance, partially offset by customer pricing and currency impacts including the Chinese Renminbi and Euro partially offset by the Japanese Yen and Mexican Peso.
- Net income attributable to Visteon was \$45 million for the three months ended June 30, 2017, compared to net income of \$26 million for the same period of 2016. The increase of \$19 million includes the non-recurrence of 2016 discontinued operations net loss of \$9 million. The increase also includes lower restructuring expenses of \$4 million, other income related to the sale of non-consolidated affiliates of \$3 million, and improved gross margin of \$3 million.
- Net income attributable to Visteon was \$108 million for the six months ended June 30, 2017, compared to net income of \$45 million for the same period of 2016. The increase of \$63 million includes discontinued operations impacts of \$30 million, lower restructuring charges of \$13 million and lower selling, general and administrative expenses of \$6 million. Gross margin improved \$13 million including \$6 million for electronics operations and \$7 million related to the 2016 exit of the climate operations. These improvements were partially offset by higher income taxes of \$4 million.
- Including discontinued operations, the Company generated \$86 million of cash in operating activities during the six months ended June 30, 2017, compared to cash provided by operations of \$14 million during the same period of 2016 representing a \$72 million improvement. The increase in operating cash flows is attributable to higher net income of \$62 million and lower cash tax payments, net of expense of \$43 million primarily due to the non-recurrence of transaction related taxes incurred in 2016, partially offset by higher working capital use of approximately \$35 million largely driven by an increase in China domestic sales.
- Total cash was \$734 million as of June 30, 2017, \$148 million lower than \$882 million as of December 31, 2016, primarily attributable to share repurchases of \$160 million and the repurchase of the India electronics operations sold in connection with the Climate Transaction of \$47 million, partially offset by the change in cash provided by operating activities of \$72 million.

The Company's consolidated results of operations for the three months ended June 30, 2017 and 2016 were as follows:

	Three Months Ended June 30		
	2017	2016	Change
	(Dollars in Millions)		
Sales	\$ 774	\$ 773	\$ 1
Cost of sales	662	664	(2)
Gross margin	112	109	3
Selling, general and administrative expenses	53	54	(1)

Interest expense, net	4	3	1
Equity in net income of non-consolidated affiliates	3	3	—
Other (income) expense, net	(3)	—	(3)
Provision for income taxes	10	9	1
Net income from continuing operations	48	39	9
Loss from discontinued operations	—	(9)	9
Net income	48	30	18
Net income attributable to non-controlling interests	3	4	(1)
Net income attributable to Visteon Corporation	\$ 45	\$ 26	\$ 19
Adjusted EBITDA*	\$ 84	\$ 77	\$ 7

* Adjusted EBITDA is a Non-GAAP financial measure, as further discussed below.

Results of Operations - Three Months Ended June 30, 2017 and 2016

Prior to 2017, the Company also had Other operations consisting primarily of the South Africa and the South America climate operations exited during the fourth quarter of 2016.

Sales

	Electronics	Other	Total
	(Dollars in Millions)		
Three months ended June 30, 2016	\$ 762	\$ 11	\$ 773
Volume, mix, and net new business	45	—	45
Currency	(12)	—	(12)
Customer pricing and other	(21)	—	(21)
Exit and wind-down	—	(11)	(11)
Three months ended June 30, 2017	\$ 774	\$ —	\$ 774

Sales for the three months ended June 30, 2017 totaled \$774 million, which represents an increase of \$1 million compared with the same period of 2016. Favorable volumes, product mix, and net new business increased sales by \$45 million. Unfavorable currency decreased sales by \$12 million, primarily attributable to the Chinese Renminbi and Euro partially offset by the Brazilian Real and Japanese Yen. The exit of other climate operations in 2016 decreased sales by \$11 million. Other reductions were associated with customer pricing, net of design savings.

Cost of Sales

	Electronics	Other	Total
	(Dollars in Millions)		
Three months ended June 30, 2016	\$ 651	\$ 13	\$ 664
Currency	(6)	—	(6)
Volume, mix, and net new business	41	—	41
Exit and wind-down	—	(13)	(13)
Net cost performance	(24)	—	(24)
Three months ended June 30, 2017	\$ 662	\$ —	\$ 662

Cost of sales decreased \$2 million for the three months ended June 30, 2017 when compared with the same period in 2016. Increased volumes, product mix, and net new business increased cost of sales by \$41 million. Foreign currency decreased cost of sales by \$6 million primarily attributable to the Chinese Renminbi, Euro, Japanese Yen, and Mexican Peso, partially offset by the Brazilian Real. The exit and wind down of other climate operations decreased costs by \$13 million. Net efficiencies, including material, design and usage economics and lower engineering costs, partially offset by increased manufacturing expense, decreased cost of sales by \$24 million.

Cost of sales includes net engineering costs comprised of gross engineering expenses related to forward model program development and advanced engineering activities, partially offset by engineering cost recoveries from customers. Electronics gross engineering expenses were \$97 million for the three months ended June 30, 2017, \$2 million lower than the same period of 2016. Engineering recoveries were \$25 million for the three months ended June 30, 2017, \$8 million higher than the same period of 2016. Engineering cost recoveries can fluctuate period to period depending on underlying contractual terms and conditions and achievement of related development milestones.

Gross Margin

Gross margin was \$112 million or 14.5% of sales for the three months ended June 30, 2017 compared to \$109 million or 14.1% of sales for the same period of 2016. The increase in gross margin of \$3 million included favorable volumes, net new business, and product mix of \$4 million, and impacts of the 2016 exit of other climate operations of \$2 million. These increases were partially offset by currency of \$6 million as the impact of the Chinese Renminbi and Euro more than offset the impact of the Japanese Yen, Mexican Peso, and Brazilian Real. Gross margin also included \$3 million of favorable net cost performance reflecting material cost efficiencies and lower engineering expenses which more than offset customer pricing and higher manufacturing costs.

Selling, General and Administrative Expenses

Selling, general, and administrative expenses were \$53 million or 6.8% and \$54 million or 7.0% during the three months ended June 30, 2017 and 2016, respectively. The decrease is primarily related to net efficiencies and currency partially offset by higher incentive compensation costs.

Restructuring Expense

During the fourth quarter of 2016, the Company announced a restructuring program impacting the engineering and administrative functions to further align the Company's engineering and related administrative footprint with its core product technologies and customers. During the three months ended June 30, 2017, the Company recorded \$3 million of restructuring expenses under this program. Through June 30, 2017, the Company recorded approximately \$31 million of restructuring expenses under this program, and expects to incur up to \$45 million of restructuring costs associated with approximately 250 employees.

During the three months ended June 30, 2016, the Company recorded \$7 million of restructuring expenses primarily related to severance and termination benefits, in connection with the wind-down of certain operations in South America.

Interest Expense, Net

Interest expense, net, was \$4 million and \$3 million for the three months ended June 30, 2017 and 2016, respectively. Interest expense for the three months ended June 30, 2017 includes termination impacts of the Company's interest rate swap as further described in Note 15, "Fair Value Measurements and Financial Instruments."

Equity in Net Income of Non-Consolidated Affiliates

Equity in net income of non-consolidated affiliates was \$3 million for both three month periods ending June 30, 2017 and 2016.

Other (Income) Expense, Net

Other (income) expense, net consists of the following:

	Three Months Ended June 30	
	2017	2016
	(Dollars in Millions)	
Transformation initiatives	\$ —	\$ 1
Transaction exchange losses	—	(1)
Gain on non-consolidated affiliate transactions, net	(3)	—
	<u>\$ (3)</u>	<u>\$ —</u>

Transformation initiative costs include information technology separation costs, integration of acquired business, and financial and advisory services incurred in connection with the Company's transformation into a pure play cockpit electronics business. The gain on non-consolidated affiliate transactions, net are described in Note 4, "Non-Consolidated Affiliates."

Income Taxes

The Company's provision for income taxes of \$10 million for the three months ended June 30, 2017, represents an increase of \$1 million when compared with \$9 million in the same period of 2016. The increase in tax expense is primarily attributable to the year-over-year increase in earnings and changes in assessments regarding the potential realization of deferred tax assets, partially offset by the year-over-year decrease for uncertain tax positions, including interest, of approximately \$1 million.

Discontinued Operations

The operations subject to the Interiors Divestiture and Climate Transaction met conditions required to qualify for discontinued operations reporting. Accordingly, the results of operations for the Interiors business have been reclassified to income (loss) from discontinued operations, net of tax in the consolidated statements of comprehensive income for the three month period ended June 30, 2016. See Note 3 "Discontinued Operations" for additional disclosures.

Net Income

Net income attributable to Visteon was \$45 million for the three months ended June 30, 2017, compared to net income of \$26 million for the same period of 2016. The increase of \$19 million includes the non-recurrence of 2016 discontinued operations net loss of \$9 million. The increase also includes lower restructuring expenses of \$4 million, other income related to the sale of non-consolidated affiliates of \$3 million, and improved gross margin of \$3 million.

Adjusted EBITDA

Adjusted EBITDA (a non-GAAP financial measure, as defined below) was \$84 million for the three months ended June 30, 2017, representing an increase of \$7 million when compared with Adjusted EBITDA of \$77 million for the same period of 2016. The increase includes volume, mix and net new business of \$4 million, climate operations exited in 2016 of \$2 million, and selling, general and administrative cost efficiencies of \$1 million. Other increases include favorable net cost performance reflecting material cost efficiencies and lower engineering expenses which more than offset customer pricing and higher manufacturing costs. Foreign currency decreased Adjusted EBITDA by \$5 million attributable to the Chinese Renminbi and Euro, partially offset by the Japanese Yen.

The Company defines Adjusted EBITDA as net income attributable to the Company adjusted to eliminate the impact of depreciation and amortization, restructuring expense, net interest expense, loss on debt extinguishment, equity in net income of non-consolidated affiliates, loss on divestiture, gain on non-consolidated affiliate transactions, other net expense, provision for income taxes, discontinued operations, net income attributable to non-controlling interests, non-cash stock-based compensation expense, and other non-operating gains and losses.

Adjusted EBITDA is presented as a supplemental measure of the Company's financial performance that management believes is useful to investors because the excluded items may vary significantly in timing or amounts and/or may obscure trends useful in evaluating and comparing the Company's operating activities across reporting periods. Not all companies use identical calculations

and, accordingly, the Company's presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies.

Adjusted EBITDA is not a recognized term under accounting principles generally accepted in the United States and does not purport to be a substitute for net income as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. Adjusted EBITDA has limitations as an analytical tool and is not intended to be a measure of cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. In addition, the Company uses Adjusted EBITDA (i) as a factor in incentive compensation decisions, (ii) to evaluate the effectiveness of the Company's business strategies and (iii) because the Company's credit agreements use measures similar to Adjusted EBITDA to measure compliance with certain covenants. Adjusted EBITDA, as determined and measured by the Company should not be compared to similarly titled measures reported by other companies.

The reconciliation of Adjusted EBITDA to net income attributable to Visteon for the three months ended June 30, 2017 and 2016, is as follows:

	Three Months Ended June 30		
	2017	2016	Change
	(Dollars in Millions)		
Adjusted EBITDA	\$ 84	\$ 77	\$ 7
Depreciation and amortization	22	20	2

Net income attributable to non-controlling interests	7	8	(1)
Net income attributable to Visteon Corporation	\$ 108	\$ 45	\$ 63
Adjusted EBITDA*	\$ 185	\$ 166	\$ 19

* Adjusted EBITDA is a Non-GAAP financial measure, as further discussed below.

Results of Operations - Six Months Ended June 30, 2017 and 2016

Prior to 2017, the Company also had Other operations consisting of the South Africa and the South America climate operations exited during the fourth quarter of 2016.

Sales

	Electronics	Other	Total
	(Dollars in Millions)		
Six months ended June 30, 2016	\$ 1,555	\$ 20	\$ 1,575
Volume, mix, and net new business	91	—	91
Currency	(23)	—	(23)
Customer pricing and other	(39)	—	(39)
Exit and wind-down	—	(20)	(20)
Six months ended June 30, 2017	\$ 1,584	\$ —	\$ 1,584

Sales for the six months ended June 30, 2017 totaled \$1,584 million, which represents an increase of \$9 million compared with the same period of 2016. Favorable volumes, product mix, and net new business increased sales by \$91 million. Unfavorable currency decreased sales by \$23 million, primarily attributable to the Chinese Renminbi, and Euro partially offset by the Brazilian Real and the Japanese Yen. The exit of other climate operations in 2016 decreased sales by \$20 million. Other reductions were associated with customer pricing, net of design savings.

Cost of Sales

	Electronics	Other	Total
	(Dollars in Millions)		
Six months ended June 30, 2016	\$ 1,318	\$ 27	\$ 1,345
Currency	(19)	—	(19)
Volume, mix, and net new business	82	—	82
Exit and wind-down	—	(27)	(27)
Net cost performance	(40)	—	(40)
Six months ended June 30, 2017	\$ 1,341	\$ —	\$ 1,341

Cost of sales decreased \$4 million for the six months ended June 30, 2017 when compared with the same period in 2016. Increased volumes, product mix, and net new business increased cost of sales by \$82 million. Foreign currency decreased cost of sales by \$19 million primarily attributable to the Chinese Renminbi, Euro, Japanese Yen, and Mexican Peso, partially offset by the Brazilian Real. The exit and wind down of other climate operations decreased cost of sales by \$27 million. Net efficiencies, including material, design and usage economics, and lower engineering costs, partially offset by higher manufacturing and warranty costs decreased cost of sales by \$40 million.

Cost of sales includes net engineering costs, comprised of gross engineering expenses related to forward model program development and advanced engineering activities, partially offset by engineering cost recoveries from customers. Electronics gross engineering expenses were \$189 million for the six months ended June 30, 2017, a decrease of \$3 million compared to the same period of 2016. Engineering recoveries were \$46 million for the six months ended June 30, 2017, \$10 million higher than the recoveries recorded in the same period of 2016. Engineering cost recoveries can fluctuate period to period depending on underlying contractual terms and conditions and achievement of related development milestones.

Gross Margin

Gross margin was \$243 million or 15.3% of sales for the six months ended June 30, 2017 compared to \$230 million or 14.6% of sales for the same period of 2016. The \$13 million increase in gross margin included \$9 million from favorable volumes, net new business and product mix and \$7 million related to the exit of climate operations. Currency decreased gross margin by \$4 million as the impact of the Chinese Renminbi and Euro more than offset the impact of the Japanese Yen, Mexican Peso, and Brazilian Real. Gross margin also included \$1 million of favorable material cost efficiencies and lower engineering costs partially offset by customer pricing reductions, and higher manufacturing costs.

Selling, General and Administrative Expenses

Selling, general, and administrative expenses were \$104 million or 6.6% of sales and \$110 million or 7.0% of sales during the six months ended June 30, 2017 and 2016, respectively. The decrease is primarily related to net efficiencies including lower bad debt expense and impacts of restructuring actions.

Restructuring Expense

During the fourth quarter of 2016, the Company announced a restructuring program impacting engineering and administrative functions to further align the Company's engineering and related administrative footprint with its core product technologies and customers. Through June 30, 2017, the Company has recorded approximately \$31 million of restructuring expenses, net of reversals, under this program, associated with approximately 250 employees, and expects to incur up to \$45 million of restructuring costs for this program. During the six months ended June 30, 2017, the Company has recorded approximately \$4 million of restructuring expenses, net of reversals, under this program.

During the first quarter of 2016, the Company announced a restructuring program to transform the Company's engineering organization and supporting functional areas to focus on execution and technology. The organization will be comprised of regional engineering, product management and advanced technologies, and global centers of competence. Through the first six months of 2016, the Company recorded approximately \$12 million of restructuring expenses, net of reversals, under this program, associated with approximately 100 employees. Additionally, the Company recorded restructuring expenses related to severance and termination benefits primarily related to the wind-down of certain operations in South America in 2016.

Interest Expense, Net

Interest expense, net was \$9 million and \$5 million for the six months ended June 30, 2017 and 2016, respectively. The increase in net interest expense results from lower interest income due to lower cash balances, financing fees for the Amended Credit Facilities as further described in Note 10, "Debt" and termination impacts of the Company's interest rate swap as further described in Note 15, "Fair Value Measurements and Financial Instruments."

Equity in Net Income of Non-Consolidated Affiliates

Equity in net income of non-consolidated affiliates was \$5 million and \$3 million for the six month periods ended June 30, 2017 and 2016 respectively. The income is primarily attributable to the Company's equity interest in Yanfeng Visteon Investment Company and increased primarily related to the timing of engineering recoveries.

Other (Income) Expense, Net

Other (income) expense, net consists of the following:

	Six Months Ended June 30	
	2017	2016
	(Dollars in Millions)	
Transformation initiatives	\$ —	\$ 4
Gain on non-consolidated affiliate transactions, net	(2)	—
	<u>\$ (2)</u>	<u>\$ 4</u>

Transformation initiative costs include information technology separation costs, integration of acquired business, and financial and advisory services incurred in connection with the Company's transformation into a pure play cockpit electronics business. The gain on non-consolidated affiliate transactions, net are described in Note 4, "Non-Consolidated Affiliates."

Income Taxes

The Company's provision for income taxes of \$26 million for the six months ended June 30, 2017 represents an increase of \$4 million when compared with \$22 million in the same period of 2016. The increase in tax expense is attributable to several items including the year-over-year increase in earnings, as well as changes in the mix of earnings and differing tax rates between jurisdictions, the non-recurrence of a \$3 million discrete income tax benefit in connection with certain income tax incentives formally approved by the Portuguese tax authorities during the first quarter of 2016, and \$2 million resulting from changes in assessments regarding the potential realization of deferred tax assets. These increases were partially offset by the year-over-year decrease for uncertain tax positions, including interest, of approximately \$3 million.

Discontinued Operations

The operations subject to the Interiors Divestiture and Climate Transaction met conditions required to qualify for discontinued operations reporting. Accordingly, the results of operations for the Interiors and Climate businesses have been reclassified to income (loss) from discontinued operations, net of tax in the consolidated statements of comprehensive income for the six month periods ended June 30, 2017 and 2016. The six months ending June 30, 2017 included a \$7 million gain on the repurchase of the India electronics operations associated with the 2015 Climate Transaction. The six months ending June 30, 2016 primarily included results of the South America interiors operations divested on December 1, 2016 and a tax benefit related to previously divested climate operations.

Net Income

Net income attributable to Visteon was \$108 million for the six months ended June 30, 2017, compared to net income of \$45 million for the same period of 2016. The increase of \$63 million includes discontinued operations impacts of \$30 million, lower restructuring charges of \$13 million and lower selling, general and administrative expenses of \$6 million. Gross margin improved \$13 million including \$6 million for electronics operations and \$7 million related to the 2016 exit of the climate operations. These improvements were partially offset by higher income taxes of \$4 million.

Adjusted EBITDA

Adjusted EBITDA (a non-GAAP financial measure, as defined below) was \$185 million for the six months ended June 30, 2017, representing an increase of \$19 million when compared with Adjusted EBITDA of \$166 million for the same period of 2016. The increase included \$9 million from favorable volumes, net new business and product mix primarily in Asia, \$7 million related to other climate operations exited in 2016 and \$5 million for selling, general and administrative cost efficiencies. Foreign currency decreased Adjusted EBITDA by \$3 million attributable to the Chinese Renminbi and Euro partially offset by the Japanese Yen and Mexican Peso. Other cost performance includes material cost efficiencies and lower engineering costs offset by unfavorable customer pricing reductions, higher manufacturing costs, and increased warranty costs.

The Company defines Adjusted EBITDA as net income attributable to the Company adjusted to eliminate the impact of depreciation and amortization, restructuring expense, net interest expense, loss on debt extinguishment, equity in net income of non-consolidated affiliates, loss on divestiture, gain on non-consolidated affiliate transactions, other net expense, provision for income taxes, discontinued operations, net income attributable to non-controlling interests, non-cash stock-based compensation expense, and other non-operating gains and losses.

Adjusted EBITDA is presented as a supplemental measure of the Company's financial performance that management believes is useful to investors because the excluded items may vary significantly in timing or amounts and/or may obscure trends useful in evaluating and comparing the Company's operating activities across reporting periods. Not all companies use identical calculations and, accordingly, the Company's presentation of Adjusted EBITDA may not be comparable to other similarly titled measures of other companies.

Adjusted EBITDA is not a recognized term under accounting principles generally accepted in the United States and does not purport to be a substitute for net income as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. Adjusted EBITDA has limitations as an analytical tool and is not intended to be a measure of cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. In addition, the Company uses Adjusted EBITDA (i) as a factor in incentive compensation decisions, (ii) to evaluate the effectiveness of the Company's business strategies and (iii) because the Company's credit agreements use measures similar to Adjusted EBITDA to measure compliance with certain covenants. Adjusted EBITDA, as determined and measured by the Company should not be compared to similarly titled measures reported by other companies.

The reconciliation of Adjusted EBITDA to net income attributable to Visteon for the six months ended June 30, 2017 and 2016, is as follows:

	Six Months Ended June 30		
	2017	2016	Change
	(Dollars in Millions)		
Adjusted EBITDA	\$ 185	\$ 166	\$ 19
Depreciation and amortization	41	41	—
Restructuring expense	4	17	(13)
Interest expense, net	9	5	4

Provision for income taxes	26	22	4
(Income) loss from discontinued operations, net of tax	(8)	22	(30)
Net income attributable to non-controlling interests	7	8	(1)
Non-cash, stock-based compensation expense	6	4	2
Other	(1)	1	(2)
Net income attributable to Visteon Corporation	\$ 108	\$ 45	\$ 63

Liquidity

The Company's primary sources of liquidity are cash flows from operations, existing cash balances, and borrowings under available credit facilities, if necessary. The Company believes that funds generated from these sources will be adequate to fund its liquidity for current business requirements.

A portion of the Company's cash flows from operations are generated outside of the U.S. Accordingly, the Company utilizes a combination of cash repatriation strategies, including dividends, royalties, intercompany loan arrangements and other distributions and advances to provide the funds necessary to meet obligations globally. The Company's ability to access funds from its subsidiaries is subject to, among other things, customary regulatory and statutory requirements and contractual arrangements including joint venture agreements and local credit facilities. Moreover, repatriation efforts may be modified by the Company according to prevailing circumstances.

The Company's ability to generate operating cash flow is dependent on the level, variability and timing of its customers' worldwide vehicle production, which may be affected by many factors including, but not limited to, general economic conditions, specific industry conditions, financial markets, competitive factors and legislative and regulatory changes. The Company monitors the macroeconomic environment and its impact on vehicle production volumes in relation to the Company's specific cash needs. The Company's intra-year needs are impacted by seasonal effects in the industry, such as mid-year shutdowns, the subsequent ramp-up of new model production and year-end shutdowns at key customers.

In the event that the Company's funding requirements exceed cash provided by its operating activities, the Company will meet such requirements by reduction of existing cash balances, by drawing on its \$300 million Revolving Credit Facility or other affiliate working capital lines, by seeking additional capital through debt or equity markets, or some combination thereof.

Access to additional capital through the debt or equity markets is influenced by the Company's credit ratings. On March 7, 2017, Standard & Poor's Ratings Services upgraded the Company to 'BB', from 'BB-', with stable outlook. Moody's has reaffirmed the Company's credit rating of Ba3. See Note 10 "Debt" to the accompanying consolidated financial statements for a more comprehensive discussion of the Company's debt facilities. Incremental funding requirements of the Company's consolidated foreign entities are primarily accommodated by intercompany cash pooling structures. Affiliate working capital lines are primarily used by the Company's consolidated joint ventures. As of June 30, 2017, these lines had additional availability of \$24 million.

Cash Balances

As of June 30, 2017, the Company had total cash of \$734 million, including \$4 million of restricted cash. Cash balances totaling \$487 million were located in jurisdictions outside of the United States, of which approximately \$190 million is considered permanently reinvested for funding ongoing operations outside of the U.S. If such permanently reinvested funds are repatriated to operations in the U.S., the Company would be required to accrue additional tax expense, primarily related to foreign withholding taxes.

Other Items Affecting Liquidity

During the second half of 2017, the Company expects to make remaining payments of approximately \$34 million related to the Germany interiors divestiture that closed on December 1, 2015. Also, as announced during the fourth quarter of 2016, the Company expects to incur restructuring costs to further align the Company's engineering and related administrative footprint with its core product technologies and customers. Approximately \$31 million has been expensed and \$13 million has been paid since inception to date through June 30, 2017. The Company estimates that it may incur up to \$45 million in cumulative expenses to complete these actions. In addition, the Company is in active negotiations related to the potential exit of a European facility. Management continually seeks to streamline the Company's operations and may incur additional restructuring charges in the future.

The Company is authorized to spend an additional \$240 million to repurchase Visteon common stock pursuant to the \$400 million share repurchase authorization, as discussed in Note 13, "Stockholders' Equity and Non-Controlling Interests" of the consolidated financial statements under Item 1.

During the six months ended June 30, 2017, cash contributions to the Company's U.S. and non-U.S. defined benefit pension plan were \$3 million. The Company expects to make cash contributions to its defined benefit pension plans of \$7 million in 2017. Estimated cash contributions for 2018 through 2020, under current regulations and market assumptions are approximately \$29 million.

Cash Flows

Operating Activities

Including discontinued operations, the Company generated \$86 million of cash in operating activities during the six months ended June 30, 2017, compared to cash provided by operations of \$14 million during the same period of 2016, representing a \$72 million improvement. The increase in operating cash flows is attributable to higher net income of \$62 million and lower cash tax payments, net of expense of \$43 million primarily due to the non-recurrence of transaction related taxes incurred in 2016, partially offset by higher working capital use of approximately \$35 million largely driven by an increase in China domestic sales.

Investing Activities

Cash used from investing activities during the six months ended June 30, 2017 totaled \$76 million, compared to net cash provided by investing activities of \$358 million for the same period in 2016, representing a decrease of \$434 million. Net cash used by investing activities during the six months ended June 30, 2017, includes the purchase of the India electronics operations associated with the Climate Transaction for \$47 million and capital expenditures of \$47 million. These outflows were partially offset by proceeds for divestitures of equity and cost based investments in China and Europe of \$13 million and net investment hedge settlement proceeds of \$5 million.

Net cash flow provided by investing activities for the six months ended June 30, 2016 includes the Climate Transaction withholding tax refund of \$356 million, liquidation of investments of short-term securities of \$47 million and proceeds from asset sales of \$4 million, partially offset by capital expenditures of \$37 million, and a \$12 million shareholder loan to a non-consolidated affiliate.

Financing Activities

Cash used by financing activities during the six months ended June 30, 2017, totaled \$171 million, compared to \$2,258 million used by financing activities for the same period in 2016, for a decrease in cash used by financing activities of \$2,087 million. Cash used by financing activities during the six months ended June 30, 2017 included share repurchases of \$160 million and dividends paid to non-controlling interests of \$11 million.

Cash used by financing activities during the six months ended June 30, 2016 of \$2,258 million included a distribution payment of \$1,736 million, share repurchases of \$500 million, stock based compensation tax withholding payments of \$11 million and net debt payments of \$11 million.

Debt and Capital Structure

See Note 10, “Debt” to the consolidated financial statements included in Item 1.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet financial arrangements that have or are reasonably likely to have a material current or future effect on financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Fair Value Measurement

See Note 15, “Fair Value Measurements and Financial Instruments” to the consolidated financial statements included in Item 1.

Recent Accounting Pronouncements

See Note 2 “Summary of Significant Accounting Policies” to the accompanying consolidated financial statements in Item 1.

Forward-Looking Statements

Certain statements contained or incorporated in this Quarterly Report on Form 10-Q which are not statements of historical fact constitute “Forward-Looking Statements” within the meaning of the Private Securities Litigation Reform Act of 1995 (the “Reform Act”). Forward-looking statements give current expectations or forecasts of future events. Words such as “anticipate”, “expect”, “intend”, “plan”, “believe”, “seek”, “estimate” and other words and terms of similar meaning in connection with discussions of future operating or financial performance signify forward-looking statements. These statements reflect the Company’s current views with respect to future events and are based on assumptions and estimates, which are subject to risks and uncertainties including those discussed in Item 1A under the heading “Risk Factors” and elsewhere in this report. Accordingly, undue reliance should not be placed on these forward-looking statements. Also, these forward-looking statements represent the Company’s estimates and assumptions only as of the date of this report. The Company does not intend to update any of these forward-looking statements to reflect circumstances or events that occur after the statement is made and qualifies all of its forward-looking statements by these cautionary statements.

You should understand that various factors, in addition to those discussed elsewhere in this document, could affect the Company’s future results and could cause results to differ materially from those expressed in such forward-looking statements, including:

- Visteon’s ability to satisfy its future capital and liquidity requirements; Visteon’s ability to access the credit and capital markets at the times and in the amounts needed and on terms acceptable to Visteon; Visteon’s ability to comply with covenants applicable to it; and the continuation of acceptable supplier payment terms.
- Visteon’s ability to satisfy its pension and other postretirement employee benefit obligations, and to retire outstanding debt and satisfy other contractual commitments, all at the levels and times planned by management.
- Visteon’s ability to access funds generated by its foreign subsidiaries and joint ventures on a timely and cost effective basis.
- Changes in the operations (including products, product planning and part sourcing), financial condition, results of operations or market share of Visteon’s customers.
- Changes in vehicle production volume of Visteon’s customers in the markets where it operates, and in particular changes in Ford’s vehicle production volumes and platform mix.
- Increases in our vendor's commodity costs or disruptions in the supply of commodities, including aluminum, copper, fuel and natural gas.
- Visteon’s ability to generate cost savings to offset or exceed agreed upon price reductions or price reductions to win additional business and, in general, improve its operating performance; to achieve the benefits of its restructuring actions; and to recover engineering and tooling costs and capital investments.
- Visteon’s ability to compete favorably with automotive parts suppliers with lower cost structures and greater ability to rationalize operations; and to exit non-performing businesses on satisfactory terms, particularly due to limited flexibility under existing labor agreements.
- Restrictions in labor contracts with unions that restrict Visteon’s ability to close plants, divest unprofitable, noncompetitive businesses, change local work rules and practices at a number of facilities and implement cost-saving measures.
- The costs and timing of facility closures or dispositions, business or product realignments, or similar restructuring actions, including potential asset impairment or other charges related to the implementation of these actions or other adverse industry conditions and contingent liabilities.
- Significant changes in the competitive environment in the major markets where Visteon procures materials, components or supplies or where its products are manufactured, distributed or sold.
- Legal and administrative proceedings, investigations and claims, including shareholder class actions, inquiries by regulatory agencies, product liability, warranty, employee-related, environmental and safety claims and any recalls of products manufactured or sold by Visteon.
- Changes in economic conditions, currency exchange rates, changes in foreign laws, regulations or trade policies or political stability in foreign countries where Visteon procures materials, components or supplies or where its products are manufactured, distributed or sold.
- Shortages of materials or interruptions in transportation systems, labor strikes, work stoppages or other interruptions to or difficulties in the employment of labor in the major markets where Visteon purchases materials, components or supplies to manufacture its products or where its products are manufactured, distributed or sold.
- Changes in laws, regulations, policies or other activities of governments, agencies and similar organizations, domestic and foreign, that may tax or otherwise increase the cost of, or otherwise affect, the manufacture, licensing, distribution, sale, ownership or use of Visteon’s products or assets.

- Possible terrorist attacks or acts of war, which could exacerbate other risks such as slowed vehicle production, interruptions in the transportation system or fuel prices and supply.
- The cyclical and seasonal nature of the automotive industry.
- Visteon's ability to comply with environmental, safety and other regulations applicable to it and any increase in the requirements, responsibilities and associated expenses and expenditures of these regulations.
- Visteon's ability to protect its intellectual property rights, and to respond to changes in technology and technological risks and to claims by others that Visteon infringes their intellectual property rights.
- Visteon's ability to quickly and adequately remediate control deficiencies in its internal control over financial reporting.
- Other factors, risks and uncertainties detailed from time to time in Visteon's Securities and Exchange Commission filings.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The primary market risks to which the Company is exposed includes changes in foreign currency exchange rates, interest rates and certain commodity prices. The Company manages these risks through derivative instruments and various operating actions including fixed price contracts with suppliers and cost sourcing arrangements with customers. The Company's use of derivative instruments is limited to mitigation of market risks, including hedging activities. However, derivative instruments are not used for speculative or trading purposes, as per clearly defined risk management policies. The Company's use of derivative instruments may entail risk of credit loss in the event of non-performance of a counter-party to a financial derivative contract. The Company limits its counterparty exposure by entering into agreements directly with a variety of major financial institutions with high credit profiles to support an expectation that the counterparty is capable of meeting the obligations under the contracts. In addition, the Company's ability to utilize derivatives to manage market risk is dependent on credit conditions and market conditions given the current economic environment.

Foreign Currency Risk

The Company's net cash inflows and outflows that are exposed to the risk of adverse changes in exchange rates as related to the sale of products in countries other than the manufacturing source, foreign currency denominated supplier payments, debt and other payables, subsidiary dividends, investments in subsidiaries and anticipated foreign currency denominated transaction proceeds. The Company utilizes derivative financial instruments to manage foreign currency exchange rate risks. Forward and option contracts may be utilized to reduce the impact to the Company's cash flows from adverse movements in exchange rates. Foreign currency exposures are reviewed periodically and any natural offsets are considered prior to entering into a financial derivative instrument. The Company's primary hedged foreign currency exposures include Euro, Japanese yen, Thailand baht and Mexican peso. The Company's policy requires that hedge transactions relate to a specific portion of the exposure not to exceed the aggregate amount of the underlying transaction. As of June 30, 2017, and December 31, 2016, the net fair value of foreign currency forward and option contracts was a net liability of \$15 million and less than \$1 million, respectively. Maturities of these instruments generally do not exceed eighteen months.

During 2015, the Company entered into cross currency swap transactions to mitigate the variability of the value of the Company's investment in certain non-U.S. entities. In April 2017, the Company terminated and received \$5 million of proceeds upon settlement. There was no ineffectiveness associated with such derivatives at the time of the termination. The Company subsequently entered into new cross currency swap transactions with an aggregate notional amount of \$150 million. The transactions are designated as net investment hedges of certain of the Company's European affiliates. Accordingly, the effective portion of changes in the fair value of the transactions are recognized in other comprehensive income, a component of shareholders' equity. There was no ineffectiveness associated with such derivatives as of June 30, 2017 and December 31, 2016 and the fair value of these derivatives was a liability of \$12 million and an asset of \$6 million, respectively.

The hypothetical pre-tax gain or loss in fair value from a 10% favorable or adverse change in quoted currency exchange rates would be approximately \$28 million and \$31 million for foreign currency derivative financial instruments as of June 30, 2017 and December 31, 2016, respectively. These estimated changes assume a parallel shift in all currency exchange rates and include the gain or loss on financial instruments used to hedge loans to subsidiaries. As exchange rates typically do not all move in the same direction, the estimate may overstate the impact of changing exchange rates on the net fair value of the Company's financial derivatives. It is also important to note that gains and losses indicated in the sensitivity analysis would generally be offset by gains and losses on the underlying exposures being hedged.

In addition to the transactional exposure described above, the Company's operating results are impacted by the translation of its foreign operating income into U.S. dollars.

Interest Rate Risk

The Company is subject to interest rate risk principally in relation to variable-rate debt. The Company uses financial derivative instruments to manage exposure to fluctuations in interest rates in accordance with its risk management policies. During 2015, the Company entered into interest rate swaps to manage interest rate risk related to the variable rate interest payments of the Term Facility. In April 2017, the Company terminated these swaps and paid \$1 million to settle the contracts.

During the second quarter of 2017, the Company entered into new interest rate swap contracts with an aggregate notional value of \$150 million to effectively convert designated interest payments related to the amended Term Facility from variable to fixed cash flows. The maturities of these swaps do not exceed the underlying amended Term Facility. The instruments have been designated as cash flow hedges and accordingly, the effective portion of the changes in the fair value of the swap transactions are initially recognized in other comprehensive income. Subsequently, the accumulated gains and losses recorded in equity are

reclassified to income in the period during which the hedged transaction impacts earnings. The ineffective portion of changes in the fair value of the swap transactions, if any, are recognized directly in income. As of June 30, 2017 and December 31, 2016, the fair value of the Company's interest rate swaps was an asset of less than \$1 million and a liability of \$1 million, respectively. There has been no ineffectiveness associated with these derivatives.

The Company significantly reduced interest rate exposure after entering the swap transactions in 2015. The variable rate basis of debt is approximately 60% and 59% as of June 30, 2017 and December 31, 2016, respectively.

Commodity Risk

The Company's exposures to market risk arising from changes in the price of production material are managed primarily through negotiations with suppliers and customers, although there can be no assurance that the Company will recover all such costs. The Company continues to evaluate derivatives available in the marketplace and may determine to utilize derivatives in the future.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in periodic reports filed with the SEC under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Executive Vice President and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of June 30, 2017, an evaluation was performed under the supervision and with the participation of the Company's management, including its Chief Executive and Chief Financial Officer, of the effectiveness of the design and operation of disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and Executive Vice President and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of June 30, 2017.

Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the three months ended June 30, 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II

Other Information

Item 1. Legal Proceedings

See the information above under Note 16, "Commitments and Contingencies," to the consolidated financial statements which is incorporated herein by reference.

Item 1A. Risk Factors

For information regarding factors that could affect the Company's results of operations, financial condition and liquidity, see the risk factors discussed in Part I, "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2016. See also, "Forward-Looking Statements" included in Part I, Item 2 of this Quarterly Report on Form 10-Q.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes information relating to purchases made by or on behalf of the Company, or an affiliated purchaser, of shares of the Company's common stock during the second quarter of 2017.

Period	Total Number of Shares (or Units) Purchased (1)	Average Price Paid per Share (or Unit)	Total Number of Shares (or units) Purchased as Part of Publicly Announced Plans or Programs (2)	Approximate Dollar Value of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs (3) (in millions)
Apr. 1, 2017 to Jun. 30, 2017	361,201	\$97.46	359,100	\$240
Total	361,201	\$97.46	359,100	\$240

- (1) Includes 2,101 shares surrendered to the Company by employees to satisfy tax withholding obligations in connection with the vesting of restricted share and stock unit awards made pursuant to the Visteon Corporation 2010 Incentive Plan.
- (2) On February 27, 2017, the Company entered into an ASB program with a third-party financial institution to purchase shares of common stock for an aggregate purchase price of \$125 million. On March 2, 2017 the Company received an initial delivery of 1,062,022. On May 8, 2017, the Company received an additional 238,344 shares upon conclusion of the program. In total, the Company acquired 1,300,366 shares under the ASB program. In addition, the Company purchased 359,100 shares on the open market at an average price of \$97.44 per share totaling approximately \$35 million during the second quarter of 2017.
- (3) On January 10, 2017, the Company's board of directors authorized \$400 million of share repurchase of its shares of common stock. As of June 30, 2017, there is \$240 million remaining on the authorization. Additional repurchases of common stock, if any, may occur at the discretion of the Company.

Item 6. Exhibits

The exhibits listed on the "Exhibit Index" on Page 47 hereof are filed with this report or incorporated by reference as set forth therein.

Signatures

Pursuant to the requirements of Section 13 of the Securities Exchange Act of 1934, Visteon Corporation has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.

2010 VISTEON EXECUTIVE SEVERANCE PLAN**(effective June 7, 2017)****ARTICLE I. PURPOSE****Section 1.01. Purpose Statement.**

Visteon Corporation (the “Company”) has developed the 2010 Visteon Executive Severance Plan (the “Plan”) to provide severance benefits to eligible Executives of the Company and its affiliates whose employment with the Company or affiliate is involuntarily terminated under certain circumstances. The Plan is an expression of the Company’s present policy with respect to severance benefits for Executives who meet the eligibility requirements set forth herein; it is not a part of any contract of employment. It is intended to comply with ERISA and all other relevant laws. The Plan became effective October 5, 2010 pursuant to the Company’s confirmed plan of reorganization pursuant to Chapter 11 of the United States Bankruptcy Code, without further action by the Company or its Board of Directors. The Plan was amended, as set forth herein, on June 7, 2017.

ARTICLE II. DEFINITIONS**Section 2.01. Definitions.**

The following words and phrases, when used in this document, shall have the following meanings, unless the context clearly indicates otherwise:

(a) “Acknowledgement” means a document, in such form as the Plan Administrator may prescribe and that an Executive executes, that contains both (i) an acknowledgment by an Executive that the Executive’s receipt of benefits under Article IV hereof is contingent upon the Executive’s agreement to be bound by the provisions of Article IX hereof and (ii) the Executive’s agreement to be so bound.

(b) “Base Salary” means Executive’s annual base rate of pay in effect at his or her Termination Date, excluding bonuses, one-time payments, incentives, and other awards that are not regularly paid throughout the year. The Plan Administrator’s determination of the Executive’s Base Salary shall be final and conclusive.

(c) “Company” means Visteon Corporation, or any successor thereto.

(d) “ERISA” means the Employee Retirement Income Security Act of 1974, and the rulings and regulations promulgated thereunder, all as amended and in effect from time to time.

(e) “Executive” means an employee of the Company at or above Level 17.

(f) “Officer” means an Executive who is both: (i) at or above Level 19; and (ii) elected an officer of the Company by the Board of Directors of the Company.

(g) “Plan Administrator” means the Organization and Compensation Committee of the Board of Directors of the Company.

(h) “Release” means a release and waiver of claims (including, if applicable, claims under the Age Discrimination in Employment Act of 1967, as amended) that is in such form as the Plan Administrator may prescribe and that an Executive executes for the benefit of the Company, Visteon Systems, LLC, their respective affiliates, and their respective officers, directors, employees, agents, predecessors, successors and assigns.

- (i) "Termination Date" is the date on which an Executive's employment with the Company and its affiliates terminates.

ARTICLE III. AWARD OF SEVERANCE BENEFITS

Section 3.01. Award of Severance Pay.

Except as provided in Section 3.02 below, an Executive is eligible for a Basic Severance Benefit under Section 4.01, and may qualify for an Enhanced Severance Benefit under Section 4.02, if the Executive's employment with the Company or a subsidiary of the Company is involuntarily terminated by the Company or by a subsidiary of the Company. The Plan Administrator shall have final and exclusive discretion to determine whether an Executive's termination of employment is involuntary.

Section 3.02. Exclusions.

The Plan Administrator shall not grant severance benefits to an Executive in any of the following situations:

- (a) The Executive voluntarily retires or resigns from employment;
- (b) The Executive's position is eliminated and the Executive is offered another position which the Executive declines (unless the Plan Administrator has specifically authorized severance benefits in accordance with the discretion granted to the Plan Administrator under Section 3.01 above);
- (c) The Executive is terminated, replaced, laid off or placed on leave for reasons related to absenteeism or inappropriate conduct;
- (d) The Executive is terminated or separated for not returning, in a timely manner, from an approved leave of absence;
- (e) The Executive's employment ends or is terminated because the Executive is physically or otherwise unable to perform the essential functions of his or her position, with or without any applicable reasonable accommodation;
- (f) The Executive's employment terminates while receiving or seeking (or in connection with a condition or situation with respect to which the Executive has indicated an intention to or is otherwise likely to seek) payments or benefits under a program, policy, plan or a law that provides payments or benefits to an Executive unable to work because of illness, injury or disability;
- (g) The Executive is eligible to receive pay-in-lieu of notice, severance pay, termination pay or any other form of separation pay under any law;
- (h) The Executive is terminated in connection with the sale by the Company, or a subsidiary or affiliate of the Company, of all or part of a division, plant, facility, operation, product line or other unit, or the outsourcing of functions to a third party vendor, where the Executive is offered employment with the purchaser, vendor or other transferee with a starting date within 90 days of the Executive's Termination Date;
- (i) The Executive's employment is governed by an employment contract (in which case, the employment contract, and not this Plan, shall govern the severance benefits, if any, to be provided to the Executive); or
- (j) The Executive is eligible for benefits under any other severance plan, exit incentive plan, or reduction in force plan offered by the Company or a subsidiary or affiliate of the Company.

ARTICLE IV. AMOUNT OF SEVERANCE BENEFIT

Section 4.01. Basic Severance Benefit.

The Basic Severance Benefit for any Executive who becomes so entitled shall be an amount equal to four weeks of Base Salary. Payment will be in a lump sum cash payment, after withholding of applicable income and payroll taxes and other authorized withholdings.

Section 4.02. Enhanced Severance Benefit.

(a) In any case in which the Plan Administrator has authorized the payment of severance benefits and the Executive provides a Release and an Acknowledgement, in each case in a form acceptable to the Company, then in lieu of the Basic Severance Benefit described in Section 4.01, the Executive shall receive an Enhanced Severance Benefit described in Sections 4.02(b) and (c) below.

(b) As an Enhanced Severance Benefit:

- (i) Executives at Level 19 and above will be eligible to receive an amount equal to 150% of the sum of (i) one year of Base Salary, plus (ii) the Executive's target annual incentive opportunity in effect on the Termination Date.
- (ii) Executives at Level 18 will be eligible to receive an amount equal to (i) nine months of Base Salary plus (ii) the Executive's target annual incentive opportunity in effect on the Termination Date.
- (iii) Executives at Level 17 will be eligible to receive an amount equal to (i) six months of Base Salary plus (ii) the Executive's target annual incentive opportunity in effect on the Termination Date.

The Enhanced Severance Benefit described in this Section 4.02(b) will be paid under the terms of Article V and in a single lump sum, less withholding of applicable income and payroll taxes and other authorized withholdings.

(c) In addition, the Executive will be eligible to receive, as an Enhanced Severance Benefit, an annual incentive for the fiscal year during which the Termination Date occurs, determined as if the Executive had remained employed for the entire year (and any additional period of time necessary to be eligible to receive the annual incentive for the year), based on actual Company performance during the entire fiscal year and without regard to any discretionary adjustments that have the effect of reducing the amount of the annual incentive (other than discretionary adjustments applicable to all senior executives who did not terminate employment), and assuming that any individual goals applicable to the Executive were satisfied at the "target" level, pro-rated based on the number of days in the Company's fiscal year through (and including) the Termination Date. The pro-rated annual incentive shall be payable in a single lump sum at the same time that payments are made to other participants in the annual incentive plan for that fiscal year (upon the terms, and subject to the conditions, of the annual incentive plan but in no event later than two and one-half months after the fiscal year during which the Termination Date occurs).

Section 4.03. Reduction of Benefits.

To the extent permitted under Internal Revenue Code Section 409A, benefits under Section 4.01 or 4.02 will be reduced by the amount of any unpaid obligations that the Executive owes to the Company, a subsidiary or affiliate of the Company.

ARTICLE V. PAYMENT OF BENEFITS

Section 5.01. Entitlement to Benefits.

An Executive becomes entitled to severance benefits under Article IV on the date that the Executive has satisfied all of the requirements for receiving a severance benefit (including, if applicable, the Executive's execution

of a Release and an Acknowledgement within 60 days after the Termination Date and the expiration of any revocation period that is provided in accordance with applicable law or such policies as may from time to time be adopted by the Plan Administrator). All payments shall be subject to income tax withholding and other appropriate deductions.

Section 5.02. Payment of Benefits.

Cash benefits under the Plan are intended to be separate payments that constitute “short-term deferrals” that are exempt from the requirements of Internal Revenue Code Section 409A. Accordingly, payment of the Basic Severance Benefit under Section 4.01 and the Enhanced Severance Benefit under Section 4.02 or Section 4.03, to the extent applicable to the Executive, shall be completed by the later of (i) the 15th day of the third month following the end of the first taxable year in which the Executive becomes entitled to benefits under the Plan, or (ii) the 15th day of the third month following the end of the Company’s first taxable year in which the Executive becomes entitled to benefits under the Plan. The medical, dental and career transition benefits to which the Executive may become entitled under Section 4.04 are also intended to be exempt from Internal Revenue Code Section 409A, and the Plan Administrator (or its delegate) shall administer the Plan consistent with Internal Revenue Code Section 409A and the requirements for exemption of such benefits. The Plan Administrator may adopt additional rules and restrictions with respect to such benefits if the Plan Administrator determines that such rules and restrictions are necessary or appropriate in order to qualify (or continue to qualify) for exemption from Internal Revenue Code Section 409A.

To the extent that the Executive’s right to receive payments or benefits under this Plan constitutes a “deferral of compensation” within the meaning of Internal Revenue Code Section 409A, then notwithstanding anything contained in this Article V to the contrary, any payment that, but for this sentence, would be payable before the date that is the first day of the seventh month following the month in which occurs the Executive’s “separation from service” within the meaning of Internal Revenue Code Section 409A the payment shall be made on that date and not on the earlier date otherwise provided for in this Plan.

ARTICLE VI. OTHER CONTINUED BENEFITS

Section 6.01. Other Continued Benefits

(a) An Executive’s outstanding awards under the Visteon Corporation 2010 Incentive Plan shall be governed by the terms and conditions of each award or grant, and not by the terms of this Plan.

(b) An Executive who is eligible to receive retirement benefits under a retirement plan maintained by the Company or a subsidiary may apply for and commence retirement benefits in accordance with the terms and conditions of the applicable retirement plan. Retirement benefits are not governed by the terms of this Plan.

Section 6.02. Other Continued Benefits for Executives Who Are Not Officers

(a) An Executive, who is not an Officer of the Company as defined in this Plan and who is eligible to receive Basic Severance Benefits or Enhanced Severance Benefits and who, on the Executive’s Termination Date, was covered under the Company’s employer sponsored group medical program is eligible to continue such group medical in accordance with the Consolidated Omnibus Budget Reconciliation Act of 1985, as amended (“COBRA”). If the Executive signs, and does not revoke within the applicable revocation period, a Release, and the Executive elects to continue coverage in accordance with COBRA, the Executive, until the earlier of (a) the end of the benefit continuation period, if any, specified in the Company’s plan, or (b) the date on which the Executive is covered under another employer’s plan, need only pay the contribution amount that the Executive would have been required to pay for coverage had the Executive’s employment continued, and the Company will pay, on the Executive’s behalf, the remainder of the COBRA premium. After such period, the Executive may continue coverage for the remaining unused portion of the COBRA continuation period at his or her sole expense in accordance with the requirements of COBRA. Termination

of coverage or distribution of benefits will be in accordance with the terms of the applicable benefit plan, subject to any rights the Executive (and any qualified beneficiaries) have to elect continuation coverage under COBRA.

(b) The Company may provide professional career transition services of the type and for the duration determined by the Plan Administrator.

Section 6.03. Other Continued Benefits for Officers

(a) An Officer who is eligible to receive Basic Severance Benefits or Enhanced Severance Benefits and who, on the Officer's Termination Date was covered under the Company's employer sponsored group medical and/or dental programs is eligible to continue such group medical and/or dental coverage in accordance with the Consolidated Omnibus Budget Reconciliation Act of 1985, as amended ("COBRA"). If the Officer elects to continue medical and dental coverage in accordance with COBRA and the Officer is entitled to an Enhanced Severance Benefit under Section 4.02 the Company will reimburse the Officer for, the entire COBRA premium contribution for 18 months, which premiums will be included in the Officer's income for tax purposes to the extent required by applicable law. The Company may withhold from any such direct payment or reimbursement an amount sufficient to cover the amount of required withholding. Direct payments or reimbursement by the Company of COBRA premium contributions will cease after 18 months or when the Officer becomes covered under another plan, whichever is earlier. Company payments of COBRA premium contributions otherwise receivable by the Officer pursuant to this Section 6.03(a) shall be reduced to the extent benefits of the same type are received by or made available to the Officer by another employer during the 18 month period following the Officer's Termination Date (and any such benefits received by or made available to the Officer shall be reported to the Company by the Officer). Termination of coverage or distribution of benefits will be in accordance with the terms of the applicable benefit plan, subject to any rights the Officer (and any qualified beneficiaries) have to elect continuation coverage under COBRA.

(b) The Company will provide professional career transition services to assist an Officer entitled to an Enhanced Severance Benefit in the preparation for and execution of their job search, which services may include career counseling, assessment of interests and skills, development of job search tools such as resumes and cover letters, preparation of a job discovery strategy, and interview skills coaching. Unless otherwise determined by the Plan Administrator in its sole discretion, the amount expended by the Company with respect to career transition services pursuant to this Section 6.03 (b) with respect to any one Officer will not exceed \$50,000. Subject to that dollar limitation, the Company will pay for these services for twelve months or until the Officer becomes employed, whichever is earlier.

ARTICLE VII. CLAIMS PROCEDURE

Section 7.01. Claims Procedure.

(a) Claim for Benefits. Any Executive who believes he or she is entitled to benefits under the Plan in an amount greater than the amount received may file, or have his or her duly authorized representative file, a claim with the Plan Administrator. Any such claim shall be filed in writing stating the nature of the claim, and the facts supporting the claim, the amount claimed and the name and address of the claimant. The Plan Administrator shall consider the claim and answer in writing stating whether the claim is granted or denied. The written decision shall be within 90 days of receipt of the claim by the Plan Administrator (or 180 days if additional time is needed and the claimant is notified of the extension, the reason therefor and the expected date of determination prior to commencement of the extension). If the claim is denied in whole or in part, the Executive shall be furnished with a written notice of such denial containing (i) the specific reasons for the denial, (ii) a specific reference to the Plan provisions on which the denial is based, (iii) an explanation of the Plan's appeal procedures set forth in subsection (b) below, (iv) a description of any additional material or information which is necessary for the claimant to submit or perfect an appeal of his or her claim and (v) an explanation of the Executive's right to bring suit under ERISA following an adverse determination upon appeal.

(b) Appeal. If an Executive wishes to appeal the denial of his or her claim, the Executive or his or her duly authorized representative shall file a written notice of appeal to the Plan Administrator within 90 days of receiving notice of the claim denial. In order that the Plan Administrator may expeditiously decide such appeal, the written notice of appeal should contain (i) a statement of the ground(s) for the appeal, (ii) a specific reference to the Plan provisions on which the appeal is based, (iii) a statement of the arguments and authority (if any) supporting each ground for appeal, and (iv) any other pertinent documents or comments which the appellant desires to submit in support of the appeal. The Plan Administrator shall decide the appellant's appeal within 60 days of its receipt of the appeal (or 120 days if additional time is needed and the claimant is notified of the extension, the reason therefore and the expected date of determination prior to commencement of the extension). The Plan Administrator's written decision shall contain the reasons for the decision and reference to the Plan provisions on which the decision is based. If the claim is denied in whole or in part, such written decision shall also include notification of the Executive's right to bring suit for benefits under Section 502(a) of ERISA and the claimant's right to obtain, upon request and free of charge, reasonable access to and copies of all documents, records or other information relevant to the claim for benefits.

Section 7.02. Standard of Review.

The Plan Administrator is vested with the discretionary authority and control to determine eligibility for coverage and benefits and to construe the terms of the Plan; any such determination or construction shall be final and binding on all parties unless arbitrary or capricious. To the extent that the Plan Administrator has appointed a delegate or delegates to administer the claims procedure, any such determination or construction of the delegate shall be final and binding on all parties to the same extent as if made by the Plan Administrator.

Section 7.03. Delegation to the Chief Human Resources Officer.

Subject to such limits as the Plan Administrator may from time to time prescribe, the Company's Chief Human Resources Officer may exercise any of the authority and discretion granted to the Plan Administrator hereunder, provided that the Chief Human Resources Officer shall not exercise any authority and responsibility with respect to non-ministerial matters affecting the Chief Human Resources Officer.

ARTICLE VIII. AMENDMENT AND TERMINATION OF THE PLAN

Section 8.01. Right to Amend and Terminate the Plan.

Except as provided in either of Sections 8.01(a) or (b), the Company reserves the right, by action of the Plan Administrator, to amend, modify or terminate the Plan at any time, in its sole discretion, without prior notice to Executives.

(a) No amendment, modification or termination of the Plan shall have the effect of reducing the eligibility for severance benefits (or the amount thereof) for any Executive who (i) ceases to be employed by the Company or any subsidiary of the Company before October 1, 2016, (ii) was a party to a Change in Control Agreement with the Company that was entered into before October 29, 2012, and (iii) entered into a new Change in Control Agreement with the Company by not later than November 1, 2012.

(b) No amendment, modification or termination of the Plan shall have the effect of reducing the eligibility for severance benefits (or the amount thereof) for any Executive who ceases to be employed by the Company or any subsidiary of the Company before the first anniversary of the date on which the Plan Administrator takes formal action to effect that amendment, modification or termination.

ARTICLE IX. ACKNOWLEDGEMENT AND RESTRICTIVE COVENANTS

Section 9.01. Application of Article IX.

This Article IX applies to any (i) Officer; or (ii) Executive at or above Level 19; who (iii) signs and delivers to the Company an Acknowledgment as contemplated by Section 4.02, as the case may be. The Officer's or Executive's right to receive Enhanced Severance Benefits under Article IV shall be contingent on the Officer or Executive signing an Acknowledgement that the Officer or Executive is subject to and obligated to comply with the provisions of this Article IX.

Section 9.02. Non-Compete and Non-Solicitation Obligations

(a) "Competition" by the Officer or Executive means engaging in, or otherwise directly or indirectly being employed by or acting as a consultant to, or being a director, officer, employee, principal, agent, shareholder, member, owner or partner of, anywhere in the world that competes, directly or indirectly, with the Company in the Business; provided, however, it shall not be a violation of this Agreement for the Officer or Executive to become the registered or beneficial owner of up to five percent (5%) of any class of share of any entity in Competition with the Company that is publicly traded on a recognized domestic or foreign securities exchange, provided that the Officer or Executive does not otherwise participate in the Business of such corporation.

(b) "Business" means the creation, development, manufacture, sale, promotion and distribution of vehicle electronics, transportation components, integrated systems and modules, electronic technology and other products and services that the Company engages in, or is preparing to become engaged in.

(c) The Officer or Executive agrees that, for a period of 12 months after the Termination Date, the Officer or Executive will not directly or indirectly engage in Competition with the Company.

(d) The Officer or Executive agrees that, for a period of 12 months after the Termination Date, the Officer or Executive will not directly or indirectly: (i) solicit for the Officer's or Executive's benefit or the benefit of any other person or entity, business of the same or of a similar nature to the Business from any customer that is doing business with the Company or that did business with the Company in the six months before the termination of the Officer's or Executive's employment; (ii) solicit for the Officer's or Executive's benefit or the benefit of any other person or entity from any known potential customer of the Company, business of the same or of a similar nature to the Business; (iii) otherwise interfere with the Business of the Company, including, but not limited to, with respect to any relationship or agreement between the Company and any supplier to the Company during the period of the Officer's or Executive's employment; or (iv) solicit for the Officer's or Executive's benefit or the benefit of any other person or entity, the employment or services of, or hire or engage, any individual who was employed or engaged by the Company during the period of the Officer's or Executive's employment.

(e) The Officer or Executive acknowledges that the Company would suffer irreparable harm if the Officer or Executive fails to comply with this Section 9.02, and that the Company would be entitled to any appropriate relief, including money damages, equitable relief and attorneys' fees. The Officer or Executive further acknowledges that enforcement of the covenants in this Section 9.02 is necessary to ensure the protection and continuity of the business and goodwill of the Company and that, due to the proprietary nature of the Business of the Company, the restrictions set forth herein are reasonable as to geography, duration and scope.

9.03. Confidential Information.

The Officer or Executive will not, at any time after the termination of the Officer's or Executive's employment with the Company, divulge, furnish or make available to any person any confidential knowledge, information or materials, whether tangible or intangible, regarding proprietary matters relating to the Company, including, without limitation, trade secrets, customer and supplier lists, pricing policies, operational methods, marketing plans or strategies, product development techniques or plans, business acquisition or disposition plans, new personnel employment plans, methods of manufacture, technical processes, designs and design projects, inventions and research projects and financial budgets and forecasts of the Company except (a) information which at the time is available to others in the business or generally known to the public other than as a result of disclosure by the Executive not permitted hereunder, and (b) when required to do so by a court of competent jurisdiction, by any governmental agency or by any administrative body or legislative body (including a committee thereof) with purported or apparent jurisdiction to order the Officer or Executive to divulge, disclose or make accessible such information.

9.04. Non-Disparagement.

The Officer or Executive will not, at any time after the termination of the Officer's or Executive's employment with the Company, make, publish or communicate to any person or entity or in any public forum any defamatory or disparaging remarks, comments or statements concerning the Company or its businesses, or any of its employees, officers, and existing and prospective customers, suppliers, investors and other associated third parties. The obligation set forth in this Section 9.04 does not, in any way, restrict or impede the Officer or Executive from exercising protected rights to the extent that such rights cannot be waived by agreement or from complying with any applicable law or regulation or a valid order of a court of competent jurisdiction or an authorized government agency, provided that such compliance does not exceed that required by the law, regulation or order. The Officer or Executive shall promptly provide written notice of any such order to the Board of Directors of the Company and to the Company's General Counsel.

9.05 Protected Rights

The Officer or Executive understands that nothing contained in this Plan limits their ability to file a charge or complaint with the Equal Employment Opportunity Commission, the National Labor Relations Board, the Occupational Safety and Health Administration, the Securities and Exchange Commission or any other federal, state or local governmental agency or commission ("Government Agencies"). The Officer or Executive further understands that this Plan does not limit their ability to communicate with any Government Agencies or otherwise participate in any investigation or proceeding that may be conducted by any Government Agency, including providing documents or other Company confidential information, without notice to the Company. This Plan does not limit Officer or Executive's right to receive an award for information provided to any Government Agencies.

ARTICLE X. MISCELLANEOUS PROVISIONS

Section 10.01. Non-Guarantee of Employment or Other Benefits.

Neither the establishment of the Plan, nor any modification or amendment hereof, nor the payment of any benefits hereunder shall be construed as giving any person any legal or equitable right against the Company, a subsidiary or affiliate of the Company, or the Plan Administrator, or the right to payment of any benefits (other than those specifically provided herein), or as giving any person the right to be retained in the service of the Company or a subsidiary or affiliate of the Company.

Section 10.02. Participant Rights Unsecured.

The right of an Executive to receive severance benefits hereunder shall be an unsecured claim, and the Executive shall not have any rights in or against any specific assets of the Company. The right of an Executive to payment of benefits under this Plan shall not be subject to attachment or garnishment (except as otherwise provided)

in the Plan) and may not be assigned, encumbered, or transferred, except by will or the laws of descent and distribution. The rights of an Executive under this Plan are exercisable during the Executive's lifetime only by the Executive or the Executive's guardian or legal representative.

The undersigned, on behalf of the Company, has executed this Plan effective June 7, 2017.
